International Civil Aviation Organization

The Fourteenth Meeting of the Regional Airspace Safety Monitoring Advisory Group (RASMAG/14)

Bangkok, Thailand, 21 − 25 February 2011

Agenda Item 6: Review and Update RASMAG Task List

REVIEW OF RASMAG TASK LIST

(Presented by the Secretariat)

SUMMARY

This paper presents the Task List updated at the 13th meeting of the Regional Airspace Safety Monitoring Advisory Group (RASMAG/13, August 2010) for the meeting's review.

1. DISCUSSION

1.1 The Task List updated by RASMAG/13 (August 2010, Bangkok) is appended as **Attachment** to this paper.

2. ACTION BY THE MEETING

3.1 The meeting is invited to review, report on and progress the action items.

…….……

RASMAG — TASK LIST

(last updated 10 August 2010)

ACTION ITEM	DESCRIPTION	TIME FRAME	RESPONSIBLE PARTY	STATUS	REMARKS
8/6	Take action to implement Long-Term Height Monitoring (LTHM) Actions 1, 5 and 6 as described in RASMAG/8 report. In particular, ensure arrangements for regional cooperation between regional monitoring agencies (RMAs).	RASMAG/14	Asia/Pacific RMAs	Open	RASMAG LTHM Actions promulgated by State Letter AP018/8 of 31 January 2008. RASMAG/9 informed no progress made due to priority workloads for all RMAs and Regional Office. RASMAG/10 informed of actions taken so far, update RASMAG/11 about progress RASMAG/12 agreed: LTHM Action 1 Open LTHM Action 2 Completed LTHM Action 3 Completed LTHM Action 4 Completed LTHM Action 5 Open LTHM Action 6 Open
10/2	Undertake studies to quantify the magnitude of the problem of RVSM non-approved flights operating in RVSM airspace. Identify solutions.	Ongoing	Asia/Pacific RMAs	Open	Lead RMA is PARMO. RMAs to work by correspondence, present adequate information to RASMAG/11 to compile briefing for APANPIRG PARMO provided update report to RASMAG/11, further development required before reporting to APANPIRG RMAs will provide RASMAG/13 with activity reports on solutions.

ACTION ITEM	DESCRIPTION	TIME FRAME	RESPONSIBLE PARTY	STATUS	REMARKS
10/7	Prepare Taxonomy of RMA-related terms with objective of clarifying and standardising reporting of Large Height Deviations (LHDs) by States and limiting under reporting. Consider inclusion of taxonomy as appendix to Regional Monitoring Impact Statement	RASMAG/14	Asia/Pacific RMAs	Open	Lead RMA is AAMA. RMAs to work by correspondence, present final version to RASMAG for inclusion in impact statement
12/4	Provide analysis of AIDC implementation and the effect of those implementations of the level of Category E LHD reports.	Ongoing	Asia/Pacific RMAs	Open	Japan captured and analysed data in relation to implementation of AIDC. RMAs will attempt to show Category E LHD performance before and after implementation of AIDC.
12/9	Continue joint research activity to explore ADS-B derived geometric height as a data source for aircraft height-keeping performance monitoring	RASMAG/14	Australia and United States	Open	
13/1	Coordinate the additional wording at Para 2.3 of the RASMAG/13 report to the SASP at its next meeting in November 2010, for inclusion in the RVSM manual (Doc 9574)	November 2010	Chairman	Open	
13/2	Amend the EMA Handbook to include the adopted proposed changes in Appendix D to RASMAG/13 report	RASMAG/14	Secretary	Open	
13/3	RMAs review and amend their F2/F3 forms to align with Appendix F to RASMAG/13 Report	RASMAG/14	All RMAs	Open	
13/4	The Secretariat to convey the concerns and views expressed by RASMAG at Para 2.23 of RASMAG/13 Report to ATM/AIS/SAR/SG and FIT-SEA.	RASMAG/14	Secretary	Open	
13/5	The Secretariat to update the LTHM impact statement to incorporate the revised MMR agreed at RMACG/5 and endorsed by RASMAG.	APANPIRG/21	Secretary	Open	

ACTION ITEM	DESCRIPTION	TIME FRAME	RESPONSIBLE PARTY	STATUS	REMARKS
13/6	The Secretary write State letter advising the decision by RASMAG to use the MMR agreed by RMACG/5 as the basis for all long term height monitoring for Asia/Pac.	Oct 2010	Secretary	Open	
13/7	RMAs review the monitoring burden based on the revised MMR by 30 August 2010.	30 Aug 2010	All RMAs	Open
