STATE ACTION PLAN

Resolution A38-18

- Encourages States to submit their voluntary action plans outlining their respective policies and actions, and annually reporting on international aviation CO_2 emissions to ICAO.
- It also invites those States that choose to prepare or update their action plans to submit them to ICAO as soon as possible, preferably by the end of June 2015 and once every three years thereafter.
- Requests ICAO to provide guidance and other technical assistance for the preparation of States' action plans, in order for States to conduct their necessary studies and to voluntarily submit their action plans to ICAO

BENEFITS OF ACTION PLANS

- **For States**

  Opportunity to identify and communicate measures to address CO_2 emissions from international aviation, as well as identify any assistance needed to implement the measures

Communication Tool between ICAO and its Member States

- **For ICAO**

  Assess the global progress towards the achievement of aspirational goals and address States' specific assistance needs.

ICAO - Concrete action to address CO_2 emissions

STATE ACTION PLAN CONTENT

- List of measures selected to improve fuel efficiency and reduce emissions
  - Improved air traffic management and infrastructure use (i.e. more efficient ATM planning, more efficient use and planning of airport capacities)

- Data that will allow future progress toward the global aspirational goals, to be assessed by ICAO

TAKE AWAY MESSAGE

- encourage individual States experts on ATM and other AN matters to collaborate with their State Action Plan national focal points for all the operational measures that States wish to include in their action plans

- promote the use the ICAO IFSET tool for the quantification of environmental benefits from operational measures, as part of the development of States' action plans
