Dear Sir/Madam,

The objective of the Meeting is to develop a solution to the aeronautical telecommunication deficiency between Pakistan and China identified by the Regional Airspace Safety Monitoring Advisory Group (RASMAG) in early 2014 and endorsed by APANPIRG/25 in September 2015. The COM Co-ordination Meeting is also expected to agree on a practical and solid implementation plan for improving ATS direct speech circuit between Lahore and Urumqi ACCs and make a recommendation on improvement of air/ground communication around the boundary between China and Pakistan.
