**The Twentieth Meeting of the Regional Airspace Safety Monitoring
Advisory Group (RASMAG/20)**

Bangkok, Thailand, 26-29 May 2015

Agenda Item 5: Airspace Safety Monitoring Activities/Requirements in the Asia/Pacific Region

JASMA LTHM BURDEN ESTIMATE UPDATE

(Presented by Japan)

SUMMARY

This paper presents the current monitoring burden for aircraft registered and operated by Japan to meet Annex 6 requirements as of March 2015.

1. INTRODUCTION

1.1 As agreed at the RASMAG/16 meeting, each RMA shall develop monitoring burden tables using the format presented in RASMAG/16/WP17. JASMA presents the current update to that data.

2. DISCUSSION

2.1 The data is based on a review of the current RVSM approvals data for JASMA is responsible for taking into account completed successful monitoring activity.

2.2 A review of the most recent RVSM approvals databases maintained by the JASMA determined that the total number of RVSM approved airframes was 727 as of 20 April 5, 2015.

2.3 Applying the minimum monitoring requirements (MMR) to the total of approved aircraft results in a total monitoring burden to be achieved of 139 airframes. Taking into account the aircrafts already successfully monitored, the current outstanding burden is 14 airframes (10%). JASMA reported at the last RASMAG/19 meeting that the total number of RVSM approved airframes was 699 and the total monitoring burden was 127. Taking into account the airframe already successfully monitored was 16 (13%). Compared with this the ratio of the remaining number of monitoring is improved 3%.

3. ACTION BY THE MEETING

3.1 The meeting is invited to note the information contained in this paper.

.....

**Appendix A: Estimated RVSM Monitoring Burden for Asia/Pacific Region as a result of
Long Term Height Monitoring Requirements of Annex 6.
JASMA Monitoring Burden (As of 20 April, 2015)**

Operator	Operator Name	Aircraft Monitoring Group	MMR Category (1,2 or 3)	Total # Approved Airframes	Resultant Monitoring Burden (# airframes)	Total # of Aircraft Remaining To Be Monitored By 25/04/14
ADO	Hokkaido International Airlines	B737CL	1	2	2	2
		B737NX	1	6	2	2
		B767	1	4	2	0
