**The Twenty-Second Meeting of the Southeast Asia ATM Coordination Group
(SEACG/22)**

Bangkok, Thailand, 09-12 March 2015

Agenda Item 5: ATS Route Development

ATS ROUTE CATALOGUE

(Presented by the Secretariat)

SUMMARY

This paper presents the *Asia and Pacific Region ATS Route Catalogue* for review and update.

1. INTRODUCTION

1.1 The most recent version of the *Asia/Pacific ATS Route Catalogue* (13, 11 September 2014) is available at the ICAO Asia/Pacific website (<http://www.bangkok.icao.int/>) under the menu 'APAC eDocuments'. On-going updates had been undertaken by the Regional Office based on the information made available by States and airspace users, thus developing the draft of version 14. The Catalogue includes the current status of the international route requirements in the *Basic Air Navigation Plan* (BANP, Volume I of Doc 9673) approved by formal amendment.

2. DISCUSSION

2.1 The Route Catalogue provides two functions – it contains updated information from the Regional Air Navigation Plan (Doc 9673) until such time as this is in electronic form, and proposals for route changes that have not been agreed yet. The structure of the Catalogue is as follows:

- Chapter A: Routes in BANP
- Chapter 1, 2, 3 and 4: Future Requirements – Users & States

2.2 With the material in Chapter A moving into the electronic Air Navigation Plan (e-ANP) – see SAIOACG/5/WP02, this information is shown as to be deleted in Version 14.

3. ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) note the information contained in this paper;
- b) update any information in draft version 14 of the ATS Route Catalogue at **Appendix A**.
