(26 November 2013, 1500 UTC)*

References:

1. ANI/WG GOLD TaskForce Terms of References (ANI/WG/01 Report)
2. GOLD version 2 Document and its Appendix E
3. Actions agreed from ANI/WG701 Meeting

Purpose and agenda: Identification of regional differences and documenting them as potential additions to the next edition of the GOLD (draft 1).

Participants:

- Canada: Noel Dwyer (Rapporteur), Raffaolina Thomas
- Trinidad and Tobago: Alexis Brathwaite, Vidianand Maraj
- United States: Steven Pinkerton, Kevin Kelley, Wolfgang Lerch
- ICAO: Lizette Morales

Discussions:

1. The minutes of the previous meeting were reviewed, including the TF Terms of Reference and work programme. The requirement to review the operational related matters described under Chapters 3 and 4 and the regional identified differences listed for the NAM/CAR Regions as described in its Appendix E particular E 7.1.2 was emphasized.
2. The general consensus within the TF was that more time was needed to fully review the GOLD guidance and identify probable regional differences. It was agreed to fold this activity into the deliverable Identification of regional differences and documenting them as potential additions to the next edition of the GOLD (draft 2). This would allow more time to conduct the necessary review and populate the Appendix E tables.
3. In this regard the Meeting agreed that the next deliverable proposed delivery date (17/Dec/13) be targeted for identification and recording of regional differences. It was acknowledged that, due to the continuing maturity of the GOLD from the First to the Second Editions, there may not be many differences recorded. For example, the many differences listed under the NAT and PAC Regions are primarily due to the fact that these Regions had developed FANS procedures prior to the development of globally harmonized guidance.

Next meeting: tentatively 19 December at 15 UTC
