

INTERNATIONAL CIVIL AVIATION ORGANIZATION

ASIA/PACIFIC OFFICE

ICAO SPECIAL IMPLEMENTATION PROJECT (SIP)

WORKSHOP ON THE DEVELOPMENT OF NATIONAL PERFORMANCE FRAMEWORK FOR AIR NAVIGATION SYSTEMS

(NADI, FIJI, 28 MARCH-1 APRIL 2011)

PERFORMANCE REPORT

Objective

- Enhance the knowledge base of civil aviation professionals of Pacific States of the ICAO Asia/Pacific Region in the planning and implementation of safety and efficiency performance framework for air navigation systems.

MECHANISM

- Conducted a five day workshop in Nadi, Fiji from 28 March to 1 April 2011;
- The workshop was hosted by CAA of Fiji; and
- Resources comprised of two professionals from the Air Navigation Bureau, ICAO HQ, supported by professionals of the ICAO APAC Regional Office.

Scope

- Workshop comprised of three modules:
 - 1) Global Air Navigation System - Concept and Framework;
 - 2) Performance framework for efficiency and safety; and
 - 3) Hands-on exercise for the development of National performance framework.

Participants

- Thirty one civil aviation professionals, representing six Pacific States of the ICAO Asia/Pacific Region and one international organization participated in the workshop. The list of participants is contained in the attachment hereto.

Output

- Knowledge and tools for civil aviation professionals in order to attain a good understanding of the efficiency and safety performance framework for air navigation systems and its relation to regional and national planning; and
- The participants, as a part of hands-on exercise, developed national performance framework containing three PFFs which described performance objectives, corresponding tasks with timelines and related performance metrics.

Outcome

- a) The participants gained an improved understanding of the ICAO performance framework processes for safety and efficiency;
- b) The participants were able to successfully apply, through hands-on exercise, the processes learned in developing performance framework and completing performance framework forms; and
- c) The processes learned will be applicable and useful to the ongoing work of the States and APANPIRG to enhance safety and efficiency of the aircraft operations at national and regional level and thus leading to a seamless Global ATM System.
