

*International Civil Aviation Organization*

**THE TENTH MEETING OF ASIA/PACIFIC OPMET MANAGEMENT TASK FORCE (OPMET/M TF/10)**

Bangkok, Thailand, 17 – 19 April 2012

**Agenda Item 3: Review of regional guidance material on OPMET exchange:**

**c) OPMET related FASID tables**

**REVIEW OF OPMET RELATED FASID TABLES**

(Presented by the Secretariat)

**SUMMARY**

This paper provides the meeting an opportunity to update OPMET information pertaining to FASID Tables MET.

This paper relates to:

**Strategic Objectives:**

- A. Safety
- C. Sustainability

**Global Plan Initiatives:**

- GPI-18 Aeronautical information
- GPI-19 Meteorological Systems

**1. INTRODUCTION**

1.1 The FASID contains a detailed description/list of the facilities and/or services to be provided to fulfill the basic requirements of the Air Navigation Plan and are as agreed between the provider and user States concerned. Such agreement indicates a commitment on the part of the State(s) concerned to implement the requirement(s) specified. This element of the FASID, in conjunction with the ASIA/PAC Basic ANP, is kept under constant review by the APANPIRG in accordance with its schedule of management, in consultation with user and provider States and with the assistance of the ICAO Asia and Pacific Office, Bangkok.

**2. DISCUSSION**

2.1 Maintaining the Basic ANP and associated FASID Tables MET has many purposes which include: (1) regional planning by operators, (2) measurement of implementation which allows for proper focus in implementation strategies by many entities (Operations, States and ICAO); and (3) input to cost-recovery of MET Services provided for international aviation. Therefore, an annual review of the latest Basic ANP and FASID Tables MET is strongly encouraged.

**3. ACTION BY THE MEETING**

3.1 The meeting is invited to review the Basic ANP and FASID Tables MET and provide input if necessary.
