

INTERNATIONAL CIVIL AVIATION ORGANIZATION

**THE SECOND MEETING OF THE APANPIRG AERODROMES
OPERATIONS AND PLANNING – WORKING GROUP (AOP/WG/2)**

Yogyakarta, Indonesia, 3 – 5 June 2014

Agenda Item 4: Provision of AOP in the Asia/Pacific Region
**STATUS OF IMPLEMENTATION OF CERTIFICATION
OF AERODROMES REQUIREMENTS IN THE APAC REGION**

(Presented by the Secretariat)

SUMMARY

This Working Paper presents the results of follow up of Implementation of actions taken by States regarding the Implementation of Certification of Aerodromes as required in Annex 14, Volume I. In order to assist and monitor the implementation of aerodrome certification in the APAC Region, **Appendix A** attached to this Working Paper was developed for States to provide the required information.

This paper relates to –

Strategic Objectives:

- A: *Safety – Enhance global civil aviation safety*
- B: *Air Navigation Capacity and Efficiency – Increase Capacity and improve efficiency of the global civil aviation system*
- E: *Environmental Protection – Minimize the adverse environmental effects of civil aviation activities*

Action by the meeting is at Para 3 to this Working Paper.

1. INTRODUCTION

1.1 The 36th Session of the ICAO Assembly in September 2007, in Resolution 36/13 adopted consolidated statement of continuing ICAO policies and associated practices related specifically to air navigation. Its Appendix P on “The Provision of Adequate Aerodrome” resolved that States undertake Certification of Aerodromes as part of the obligations of States to ensure aerodrome adequacy for the safe aircraft operations at aerodrome.

1.2 APANPIRG/24 (June 2013) recognized the importance of aerodrome certification and urged States who have not implemented the requirements of aerodrome certification and SMS at certified to allocate high priority and adequate resources.

1.3 The 38th Session of the ICAO Assembly (September 2013) noted that there is a growing trend for aerodromes to be operated by autonomous entities; however the obligation of States to ensure safe aerodrome facilities and services remains unaffected. Aerodrome certification is an essential means to ensure aerodrome safety and enhance efficiency. The results of the ICAO Universal Safety Oversight Audit Programme (USOAP) audits suggest that the level of implementation of aerodrome certification, including Safety Management Systems (SMS), is not yet optimal.

1.4 The 38th Assembly in Resolution 38/12 [**Consolidated statement of continuing ICAO policies and associated practices related specifically to air navigation – APPENDIX J – provision of adequate aerodromes**] resolved that States should take necessary measures, including the allocation of adequate resources, to improve the level of implementation of aerodrome certification, including SMS at aerodromes.

2. DISCUSSION

2.1 The updated status on the implementation of aerodrome certification regulations, certification procedures and provision of SMS at certified aerodromes are placed at Appendix A to this Working Paper.

3. ACTION BY THE MEETING

3.1 The meeting is invited to update the information provided on the status of implementation of Certification of Aerodromes as contained in **Appendix A** to this Working Paper.

.....

APPENDIX A

SURVEY RESULTS ON AERODROME CERTIFICATION AND SAFETY MANAGEMENT SYSTEM IMPLEMENTATION IN ASIA PACIFIC REGION
