# Tools for management of communicable disease outbreaks in aviation.

- ❖ What is available and what is not
- ❖ What would you like to have
- ❖ Role for ICAO / WHO and other stakeholders
- ❖ Within States – what works and what does not work – intersectoral collaboration and implementation – where are the gaps?
- ❖ CAPSCA Focal Point-----IHR Focal Point
- ❖ Technical Advisors training
- ❖ Can we have a set of “best practices” in addition to the guidance material: especially on certain issues that crop up during outbreaks eg.
  - Screening of travelers – Entry / Exit Screening
  - Disinfection of aircraft
  - Disinsection of aircraft
  - etc

**Thank you for your  
kind attention!**

**Dr Jarnail Singh**
