1. INTRODUCTION

1.1. The review of implementation of APIRG/22 Conclusions and Decisions is an important element in the monitoring and evaluation process of APIRG activities. This status is presented in the form of a table, which provides the title of each APIRG/22 Conclusion/Decision, Deliverable(s)/Expected Outcome(s), and status of implementation.

2. DISCUSSION

2.1 APIRG/22 adopted 42 Conclusions and 5 Decisions, which are presented in the Appendix including the progress of implementation and, where information is available, constraints and challenges are indicated. Whilst the Conclusions are addressed to States, ICAO and/or International Organizations, Decisions deal with matters of concern only to the APIRG and its contributory bodies

2.2 In order for the Secretariat to report efficiently, there is need for States to improve the consistent and timely flow of information provided to ICAO Regional Offices regarding the status of implementation of the Conclusions.

3 ACTION BY THE MEETING

3.1 The meeting is invited to:

- a) Note and review the progress of implementation made on APIRG/22 Conclusions and Decisions as per the Appendix
- b) Propose further action; and
- c) Urge States to consistently provide the Secretariat with the required information on the status of implementation of these Conclusions on a regular basis.
