Advance Passenger Information *Experiences from a states perspective*

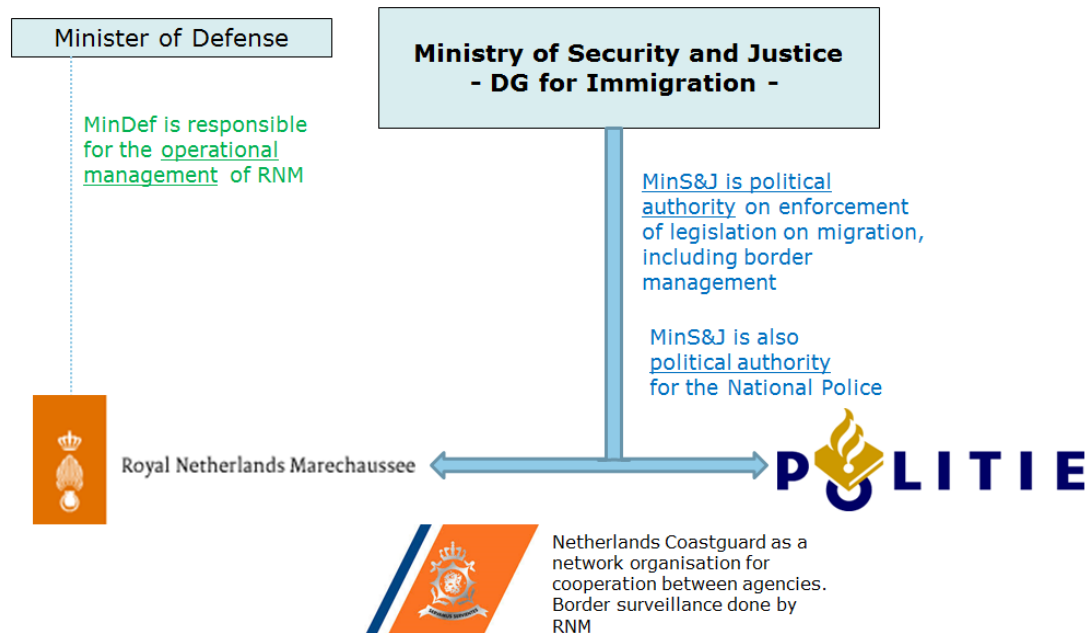

The Netherlands

Actors

Organisation of Border Management in NL

API FRAMEWORK

1993	The API Guidelines were initially developed in 1993 by the WCO in cooperation with the International Air Transport Association (IATA). Subsequently, the International Civil Aviation Organization joined the process and a 'Contact Committee' comprising the three organizations was formed. In order to help their respective members implement the API system, the three organizations have jointly published the WCO/IATA/ICAO Guidelines on Advance Passenger Information in 2003, 2010, 2013 etcetera.
2004	Adoption of COUNCIL DIRECTIVE 2004/82/EC of 29 April 2004 on the obligation of carriers to communicate passenger data
2007	API data obligation adopted in Dutch Alien Act
2007-2015	Pilot API and transition phase
2016	API obligation for all incoming flights and passengers outbound EU and Schengen area.

API: collected data

Dataset API

- › Surname
- › First name
- › Date of Birth
- › Nationality
- › Document type and number
- › Gender
- › Issuing state
- › Expiry date
- › Port of Entry
- › Flight number
- › Time of departure and arrival
- › Total number of persons
- › Initial port of embarkation
- › Full travel route (as known by airline)
- › PNR locator number (group travel etc.)
