REPORT ON AGENDA ITEM 3: PROGRESS REPORT ON THE MID RMA PROJECT

3.1 Under this Agenda Item, the meeting recalled that with a view to resolve the legal issues related to the membership, funding mechanism, duties and responsibilities of the MID RMA and after a long process of coordination between the MID Regional Office, ICAO HQ and States, a Memorandum of Agreement (MOA) has been signed by ten (10) participating States. The meeting also noted that further to the agreement reached during the MID RMA Board/2 meeting, a Custodian Agreement between ICAO, the MID RMA Board and Bahrain describing exactly the support functions of ICAO in the MID RMA project has been signed by the three concerned parties (the ICAO Secretary General, The Under Secretary Civil Aviation Affairs of Bahrain and the MID RMA Board Chairman).

3.2 The meeting noted that, based on the MOA, the Custodian Agreement and the Draft Conclusion 2/1 of the MID RMA Board/2 meeting related to the Funding Mechanism of the MID RMA, the contributions of States for the first year of operation of the MID RMA should have been paid before 30 June 2006 on the basis of the invoices issued by ICAO on 30 May 2006. However, the meeting noted that Iran, Lebanon and Syria have not yet paid their contributions and accordingly a State letter Ref: AN 6/5.10.15A – 325 has been sent to these three States reminding them of their obligation to pay their contributions to the MID RMA project. The meeting was informed that in Lebanon the government has agreed to the payment of the Thirty Thousands US Dollars (30,000 USD), which is under progress in accordance with the heavy administrative procedures.

3.3 Based on the above, the meeting urged Iran, Lebanon and Syria to pay their contributions before 31 December 2006.

3.4 The meeting was appraised of the financial status of expenditure by Bahrain for the first year of operation of the MID RMA as at Appendix 3A to the report on Agenda Item 3. However, it was highlighted that the official financial report accompanied with all the bills will be prepared by Bahrain CAA and presented to the MID RMA Board/4 meeting. The meeting further noted that Bahrain has not yet been paid. Accordingly, the meeting agreed that the MID RMA Board Chairman certify a request for payment of Bahrain on the basis of the financial status presented and send it to ICAO as soon as possible and agreed to the following Draft Decision:

**DRAFT DECISION 3/3: PAYMENT OF EXPENSES PAID BY BAHRAIN FOR THE SET UP AND OPERATION OF THE MID RMA FOR THE FIRST YEAR OF OPERATION**

That, the MID RMA Board Chairman certify a request for payment of Bahrain on the basis of the financial status of expenditures at Appendix 3A to the report on Agenda Item 3 and send it to ICAO, as soon as possible.

3.5 The meeting noted with appreciation that the majority of the expenses related to the set up of the MID RMA (Office Furniture, Server, Tel, Fax, Internet, etc) were offered by Bahrain free of charge and accordingly were not included in the financial report. The meeting reiterated its thanks and gratitude to Bahrain for hosting the MID RMA and providing the required local personnel for the MID RMA operations. It was highlighted in this regard that the salaries of the MID RMA staff are basically paid by Bahrain and that the 31,830 US$ reflected in the financial report for the Manpower represent sort of overtime/allowance paid to the MID RMA staff. The meeting recognized that this represents the main explanation to the big difference between the initial estimation of 300,000 US$ for the set up and operation of the MID RMA for the first year of operation and the real figures presented by Bahrain. The meeting agreed that in accordance with the MID RMA Board/2 meeting Conclusion 2/1, the difference between the amount paid and the real share for each participating State be deducted from the contributions of the next year(s).
3.6 The meeting recalled that the duties and responsibilities of the MID RMA include the development of the RVSM post-implementation safety analysis and recognized the complexity and difficulty of this task. The meeting noted with appreciation that the MID RMA staff was trained by EUROCONTROL in Brussels with a view to acquire the necessary expertise for the development of the RVSM post-implementation safety analysis.

3.7 The meeting recalled that the RVSM TF/12, the MMS/3 and the ATM/SAR/AIS SG/8 meetings, noted with appreciation that the MID RMA Project Action Plan is progressing well. However, concern was raised about the progress made for the development of the RVSM Post-Implementation Safety Analysis (PISA). In this regard, the issue of provision of the required data to the MID RMA was raised with concern and it was mentioned that the main cause for the delay in the provision of traffic data is due to the manual processing of this data.

3.8 The meeting emphasized that unless States make all effort to provide the required data, the RVSM post-implementation safety analysis could not be developed and the MID RMA could not carry out its functions as specified in its Terms of Reference (TOR), duties and responsibilities. In order to achieve the objectives and enable the MID RMA to discharge its responsibilities, the meeting urged States, who have not yet done so, to provide the required data to the MID RMA, as soon as possible and in any case before 31 December 2006 with a view to present the RVSM post-implementation safety analysis to the MID RMA Board/4 and MIDANPIRG/10 meetings and noted with appreciation that the ATM/SAR/AIS SG/8 developed Draft Conclusion 8/5 in this regard, as follows:

\[
\text{DRAFT CONCLUSION 8/5: PROVISION OF DATA FOR THE DEVELOPMENT OF THE RVSM POST-IMPLEMENTATION SAFETY ANALYSIS}
\]

That, in accordance with MIDANPIRG/9 Conclusion 9/23 and with a view to have the RVSM post-implementation safety analysis ready before MIDANPIRG/10 meeting:

- a) States, who have not yet done so, provide the required data to the MID RMA, as soon as possible and in any case before 31 December 2006;

- b) States not providing the required data to the MID RMA, in accordance with the requirements of safety monitoring agencies, be included in the MIDANPIRG List of air navigation deficiencies;

- c) the MID RMA ensures that the requests for provision of data are extended to MID States’ RVSM Programme Managers and their Alternates in order to carry out the necessary internal coordination and speed up the process of collection of data; and

- d) States ensure that good communication and cooperation between the RVSM Programme Managers and the MID RMA Board Members is established and observed.

3.9 Based on the above, the meeting agreed to amend the MID RMA Board/2 Draft Conclusion 2/5 as follows:
DRAFT CONCLUSION 3/4: SAFETY ASSESSMENT ACTIVITY

That,

a) in accordance with its Duties and Responsibilities, the MID RMA is responsible for the development of the RVSM post-implementation safety analysis for the MID Region;

b) support from contractor/consultant might be required for the development of the RVSM post-implementation safety analysis and selection of the appropriate methodology;

c) the MID RMA determine the exact type and format of data required and inform States accordingly;

d) States provide the required data in a timely manner; and

e) the RVSM post-implementation safety analysis is to be ready before 15 March 2007 with a view to be presented to the MID RMA Board/4 and MIDANPIRG/10 meetings.

REPORT ON AGENDA ITEM 4: MID RMA COST SHARING ARRANGEMENTS

4.1 Under this Agenda Item, the meeting recalled that the MID RMA/1 meeting held in Cairo, from 14 to 15 June 2005 recognized that the organizational structure and funding mechanism of the MID RMA are key issues, which must be resolved between the MID States before further progress can be made. Accordingly, the meeting agreed that it is better to start with a "simple" funding mechanism, which could be refined once the MID RMA is established and operational, based on more up to date statistics and data. Therefore, the MID RMA Board agreed that the funding mechanism for the first year of operation of the MID RMA be based on contributions from the ten (10) participating States on equal share basis.

4.2 The meeting recalled that a global approach to cost recovery of RMAs, based on existing guidance on the establishment of “multinational (ICAO) air navigation facilities/services” included in all air navigation plans, and a step-by-step procedure regarding the implementation of a cost recovery arrangement at the regional level were presented to the ALLPIRG/5 meeting held in Montreal, 23-24 March 2006. The proposed approach was further discussed and finalized by the sixth meeting of the Air Navigation Services Economic Panel (ANSEP/6), Montreal, 27-31 March 2006. The meeting noted that the approach adopted in the MID Region has the essential elements of the model recommended by ALLPIRG/5 and ANSEP/6, which adopted the step-by-step approach procedure for implementation of an RMA cost recovery arrangement as at Appendix 4A to the report on Agenda Item 4 and agreed that the most suitable method is to be decided at the regional level.

4.3 Based on the above, the meeting noted that the directives on global approach to cost recovery of RMAs did not mention a specific funding mechanism, nevertheless the issue of RMA cost sharing arrangements was left to the PIRGs decision.

4.4 The meeting recalled also that with a view to prepare and facilitate the discussions of the MID RMA Board/3 meeting on the subject of funding mechanism of the MID RMA, the MMS/3 meeting held in Jeddah, 4-6 September 2006, under Recommendation 3/7, proposed that the activities of the MID RMA continue to be ensured through contributions from Participating States and be calculated on the basis of the number of flights handled by each FIR and the number of RVSM approved aircraft by State which could be expressed in term of percentage of required MID RMA staff work load per State.

4.5 Taking into consideration the MMS/3 recommendation and the statistics presented by the MID RMA related to the number of RVSM approved aircraft by State and the number of aircraft movement by FIR for the month of April 2006 attached as Appendix 4B to the report on Agenda Item 4, the meeting was of view that the traffic of one month is not representative to develop an accurate and “fair” funding mechanism. However, taking into consideration the characteristics of the MID Region and its areas of major flow; and in continuation of the good spirit and understanding observed during the negotiations of the funding mechanism for the first year of operation of the MID RMA, the meeting agreed that the MID RMA participating States be divided into two categories:

- **Category 1:** Bahrain, Egypt, Iran, Oman and Saudi Arabia will be paying 15% each of the yearly total cost of operation of the MID RMA, and

- **Category 2:** Jordan, Kuwait, Lebanon, Syria and Yemen will be paying 5% each of the yearly total cost of operation of the MID RMA.

4.7 The meeting recalled that, in accordance with the MID RMA Board/1 Draft Conclusion 1/2, Bahrain agreed to pay for the initial set up of the MID RMA without waiting for MID States contributions, providing that the cost is recovered through the agreed funding mechanism. The meeting agreed that for the coming years of operations of the MID RMA, contributions of States have to be paid at the beginning of the year based on the agreed funding mechanism and the estimation of the yearly operating budget of the MID RMA. In this regard, the meeting agreed on the estimation of the operating budget for the period 24 November 2006 – 23 November 2007 as at Appendix 4C to the report on Agenda Item 4.

4.8 Based on the above, the meeting agreed that the MID RMA Board/2 Draft Conclusion 2/1 and Draft Conclusion 2/3 have to be amended and accordingly developed the following Draft Conclusion, which replaces and supersedes the above-mentioned Conclusions:

**DRAFT CONCLUSION 3/5: FUNDING MECHANISM OF THE MID RMA**

That,

a) the activities of the MID RMA be ensured through contributions from all MID RMA Member States, which could be recovered in accordance with ICAO Policies on charges for Airports and Air Navigation Services (Doc 9082), in coordination with IATA;

b) Bahrain, Egypt, Iran, Oman and Saudi Arabia pay 15% each of the yearly operating budget of the MID RMA;

c) Jordan, Kuwait, Lebanon, Syria and Yemen pay 5% each of the yearly operating budget of the MID RMA;

d) the MID RMA Board Chairman, in compliance with the Custodian Agreement, be delegated the authority to certify on behalf of the MID RMA Participating States the requests for advance payment to Bahrain on 1 October and 1 April of every year, based on the agreed funding mechanism and the estimation of the yearly operating budget of the MID RMA;
e) the MID RMA participating States pay their contributions on a yearly basis not later than 31 December of each year based on the invoices issued by ICAO;

f) the bills related to the MID RMA expenses be certified by the MID RMA Board chairman and reviewed by the MID RMA Board at each of its meetings;

g) in case the contributions for one year exceed the yearly cost for the operation and management of the MID RMA, the difference be deducted from the contributions of the next year(s); and

h) the MID RMA funding mechanism be revised by the MID RMA Board when necessary.

4.9 In accordance with the here-above Draft Conclusion, and taking into consideration the saving made during the first year of operation of the MID RMA (Appendix 3A, refers), the meeting recognized that the “Category 2” States (Jordan, Kuwait, Lebanon, Syria and Yemen) will not be required to pay anything for the second year of operation of the MID RMA, since the savings from the first year exceed their contributions for the second year. However, the meeting agreed that ICAO HQs, when issuing the invoices for the period (24 November 2006 – 23 November 2007), should send a financial statement to these States informing them about the savings of the first year, which exceed the required contributions for the second year.

4.10 Based on the foregoing, the meeting agreed to reflect the above in the updated MID RMA Project Action Plan/Timelines.
IMPLEMENTATION OF AN RMA COST RECOVERY ARRANGEMENT

A STEP-BY-STEP PROCEDURE

On the basis of the existing guidelines on the establishment of a multinational ICAO air navigation facility/service, the implementation of an RMA and the associated cost recovery arrangement could include the following steps:

a) define, at a PIRG meeting, the RVSM monitoring function as a Multinational ICAO Air Navigation Facility/Service in accordance with the existing guidelines on the establishment and provision of a multinational ICAO air navigation facilities/services, included in the regional air navigation plan concerned;

b) agree to a cost sharing arrangement based on, for example, distance flown or number of flights within the airspace for which each of the respective States has assumed responsibility, it being understood that distance flown may offer more precision while allocation based on the number of flights is simpler to administer;

c) find and assign a State or an existing organization or agency to establish and operate the RMA (the PIRG’s responsibility);

d) develop and establish an administrative agreement to regulate the establishment and operation of the RMA, including the cost sharing arrangement and procedures for collection of contributions from the participating States (the PIRG, assisted by the ICAO Regional Office);

e) sign the administrative agreement (DGCAs or some other authorized person in the participating States);

f) establish and operate the RMA as a Multinational ICAO Air Navigation Facility/Service in accordance with the administrative agreement (the assigned operator); and

g) recover the contributions to the financing of the RMA through additions to the cost bases for route charges and transfer the amounts to the RMA operator (each State).
