**World Health
Organization**

REGIONAL OFFICE FOR THE Eastern Mediterranean

PAGNET

- A web-based network for public health officials and key partners to share information on public health activities at ports, airports and ground crossings (PAG), including preparedness for and response to health emergencies in relation to international travel and transport
- Information portal for PAG stakeholders:
 - Public portion provides online access to guidance and tools.
 - PAGnet Forum provides a platform for members to work collaboratively, share experience, achieve synergy and promote common working practices.
