INTERPOL

What is INTERPOL?

- International Organization

- Created in 1923

- 192 Member Countries

Purpose: to promote communication and exchange of information between police forces of Member Countries

Connect INTERPOL Member Countries Police to I-24/7

What is I-24/7? secure worldwide INTERPOL IT network

Purpose: to provide instant access to real-time criminal data

- 17 databases
- 4.6 billion searches each year on INTERPOL databases

For Airport Security specifically

Early check (before the passengers arrive):

Possible to compare automatically API lists with INTERPOL Stolen and Lost travel document database (80 million documents registered) and wanted persons database

Passengers check by Front Line Police Officers:

Possible to compare automatically the scanned passport with INTERPOL Stolen and Lost travel document database and wanted persons database

INTERPOL

Help us to help you!

- INTERPOL can connect all front line police officers to I-24/7
- Give access to billions of criminal data

Is your Airport connected to I-24/7?
Are your law enforcement working at the Airport aware of I-24/7?

If no, please advocate!

INTERPOL is currently investing massively in the Middle East & North Africa Region to connect border points (including Airport) to I-24/7 thanks to Project Sharaka
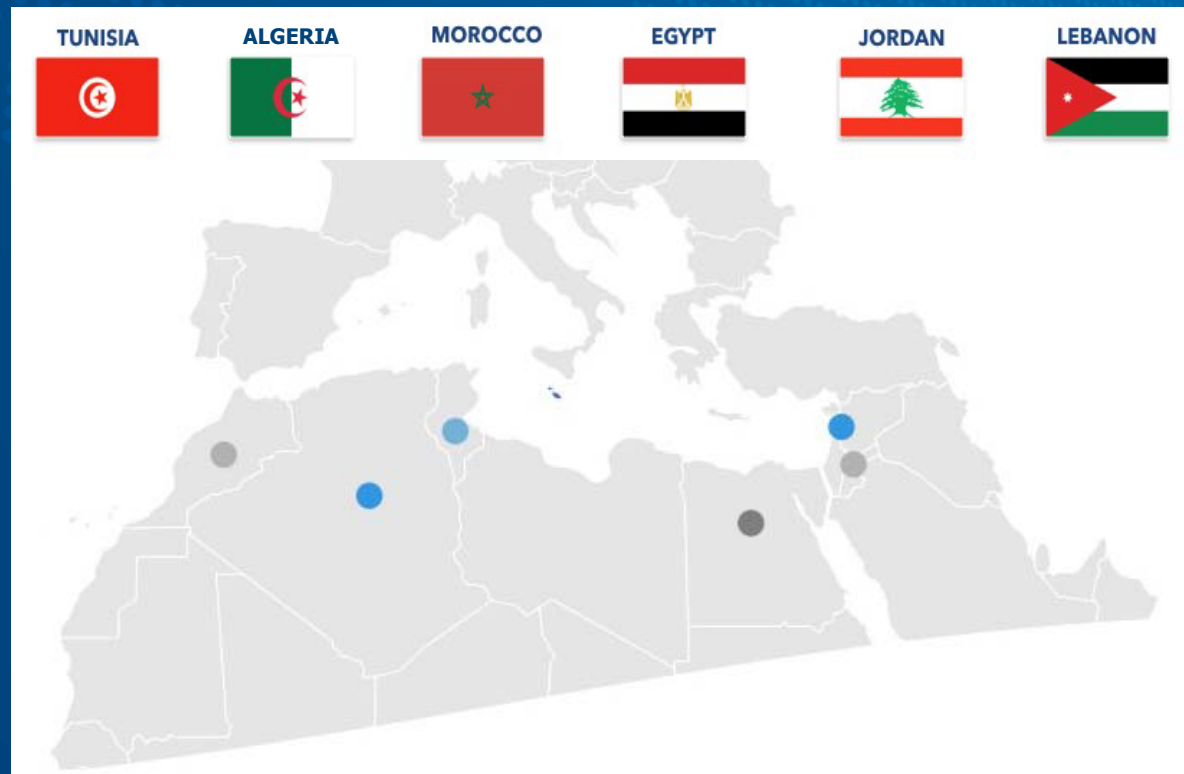

INTERPOL

PROJECT
SHARAKA
مشروع شراكة

INTERPOL South
'SHARAKA' project
is funded by the
European Union

WWW.INTERPOL.INT

INTERPOL South « Sharaka »

What is Sharaka?

- **A 3-year project**
- **Funded by the European Union**
- **Implemented by INTERPOL**
- **Involving:**

TUNISIA   ALGERIA   MOROCCO   EGYPT   JORDAN   LEBANON

What is the main objective of Sharaka project?

Overall Objective:

To better detect and intercept terrorist individuals and their affiliates, as well as other organized crime groups in the MENA region

To make sure member countries have the counter terrosim expertise, equipment and skills

INTERPOL

How will we reach this objective?

By focusing and working on three pillars:

1. Technology
2. Capacity building
3. Police operations

Connectivity
Improve connectivity to INTERPOL databases

Information
Increase information exchange and data collection related to counter terrorism

Analysis
Enhance quantitative and qualitative benchmarks of intelligence-led analysis on Counter-Terrorism

Operations
Improve cross-border coordination in Counter-Terrorism

INTERPOL

1. Technology

2. Capacity building

3. Field / Practical Exercises

- Increasing and improving the access to I-24/7 (extensions)

- Enhancing the use of INTERPOL databases:
  - SLTD : Stolen and Lost Travel Documents
  - SMV: Stolen Motor Vehicles
  - TDAWN and many other database…

- Providing IT equipment: National Central Bureau upgrades and I24/7 extensions

INTERPOL

1. Technology

2. Capacity building

3. Field / Practical Exercises

- Providing trainings which aim to improve detection and arrest of terrorist personal or aiming at dismantling terrorist networks

Capacity Building
Training on INTERPOL Notices and RPD
Specialized training on the use of Internet for Terrorist Purpose
Specialized training on Analysis
Specialized training on CounterTerrorism

INTERPOL

1. Technology

2. Capacity building

3. **Field / Practical Exercises**

- Improving cross-border coordination in Counter-Terrorism by conducting field exercises at **border points: airports, sea ports, terrestrial borders**

- Increasing the use of INTERPOL services during border operations
