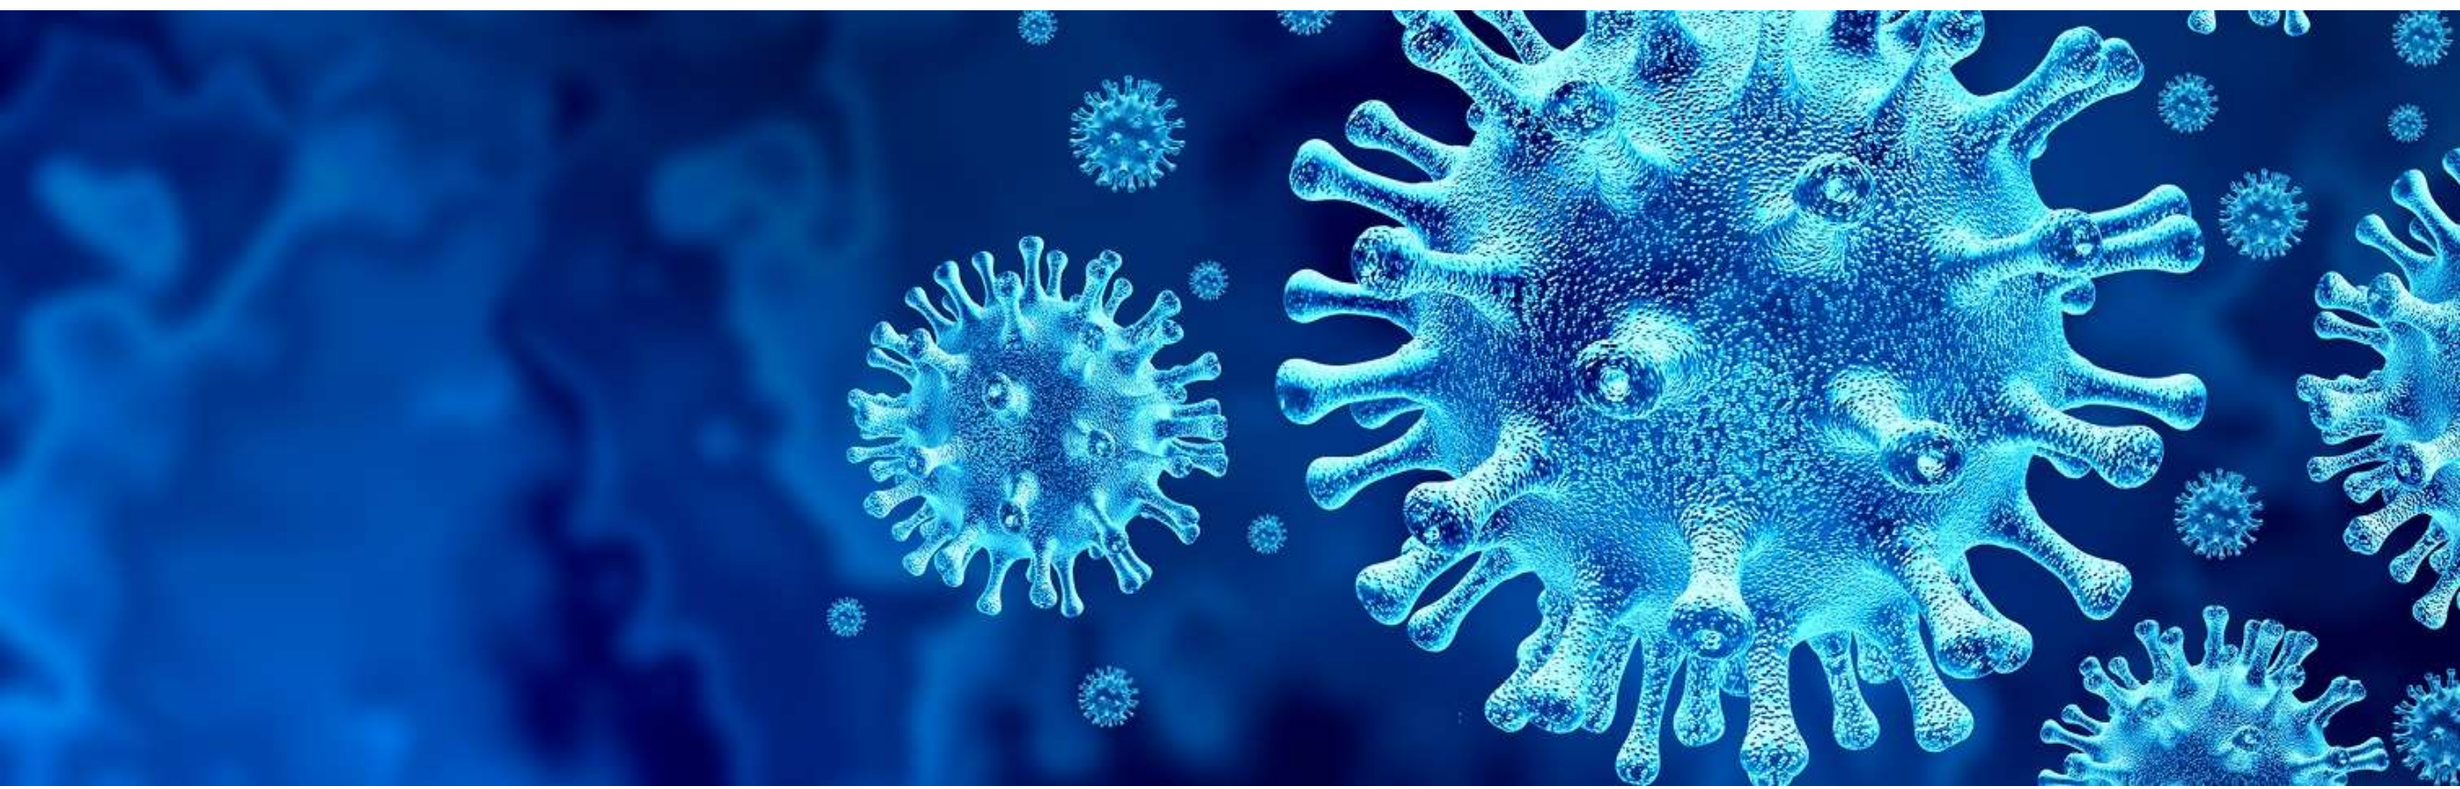
ICAO MID

Air Traffic Flow Management Task Force/4 Meeting

20-22 September 2020



Review CONOPS Draft Version to be presented to ATM SG

Challenges related to the lack of operational data related to Airspaces, Airports and Air operators' operational data.

CONOPS V0.2

Points of considerations in the current version, and for the further amendments:

1. **Capacity** determination and declaring methodology;
2. The current version of the CONOPS covers **Airport ATFM programs**, while further versions would also include **enroute / Airspace volumes (FIR, ATC sector…)** capacity; and
3. States participation categories: **Participating or Observing**.
