

ICAO

INTERNATIONAL CIVIL AVIATION ORGANIZATION

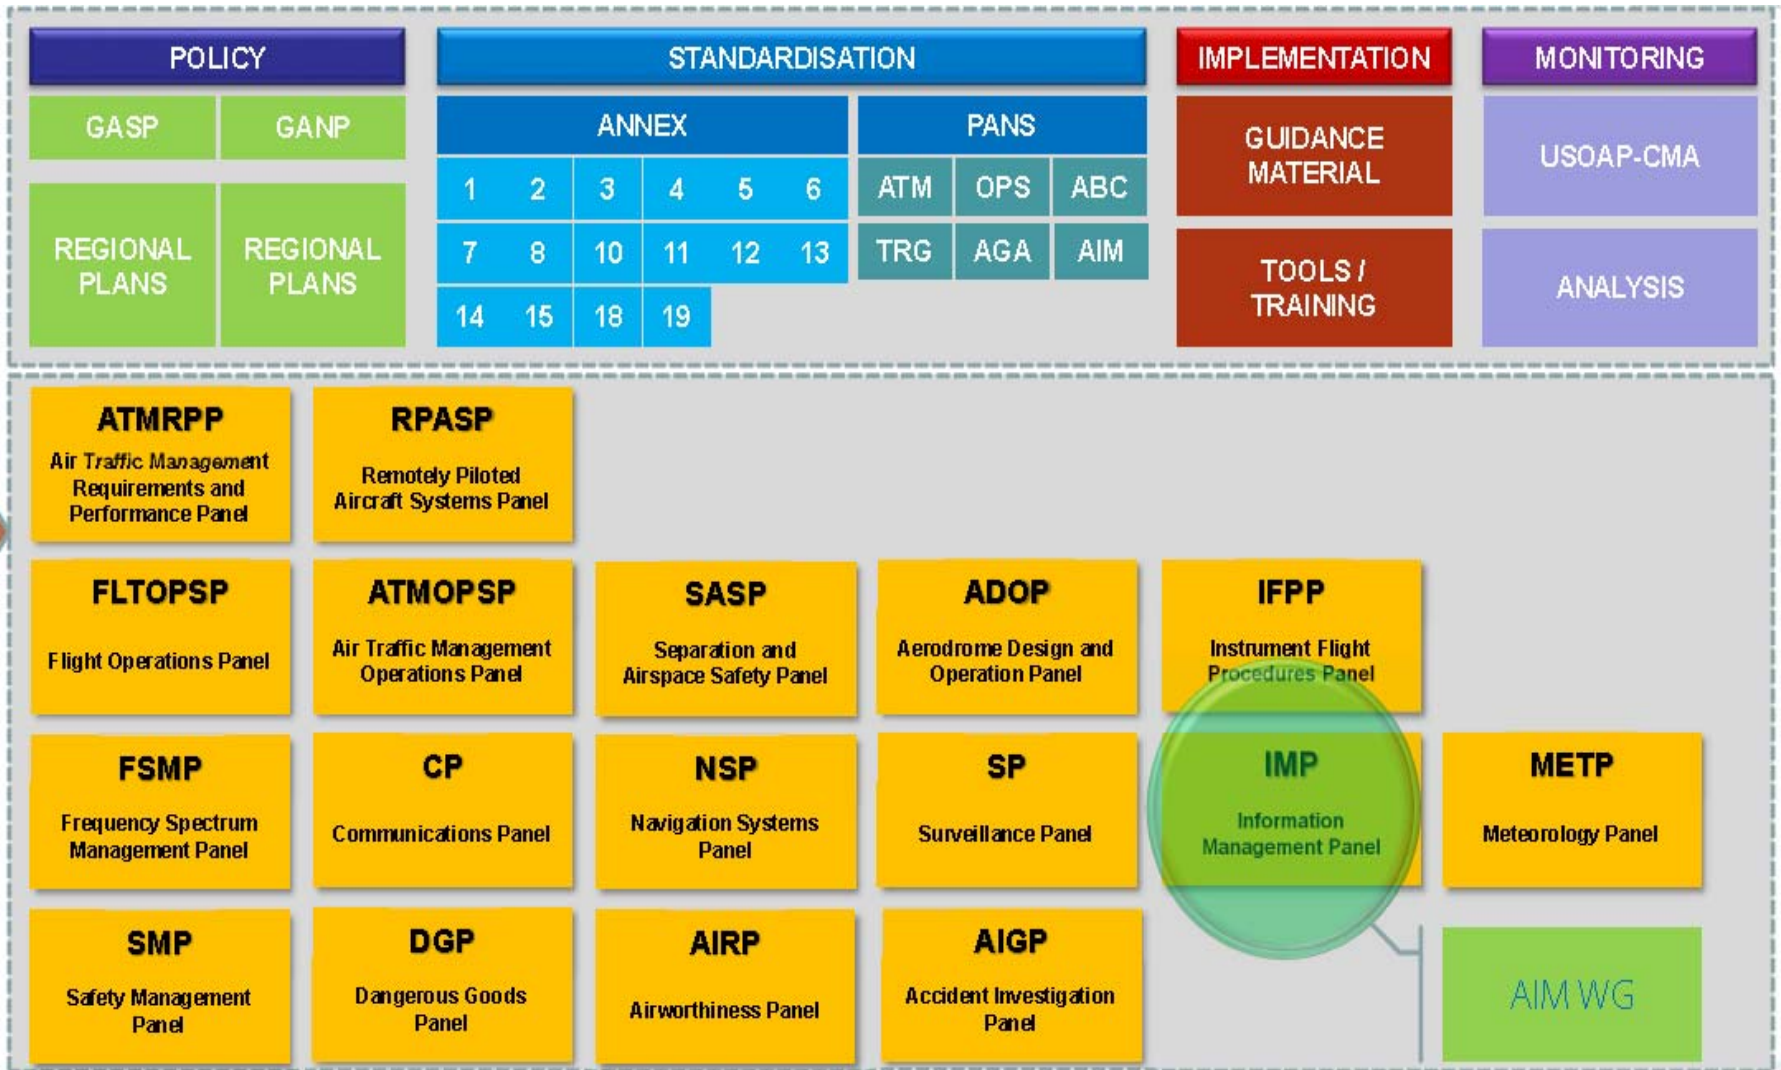

A UN SPECIALIZED AGENCY

Ninth Meeting of the MIDANPIRG AIM Sub-Group
(AIM SG/9)
(Virtual Meeting, 20 - 21 September 20221)

GLOBAL DEVELOPMENTS

RECONNECTING THE WORLD

AIR NAVIGATION WORK PROGRAMMES

THE AIM WORKING GROUP ACTIVITIES

AIM Global Implementation Support

- Manual on the Quality Management System for Aeronautical Information Management
- Training Manual for AIS/AIM
- AIS Manual
- AIM Roadmap

NOTAM

- NOTAM Questionnaire
- New operational reporting information service that replaces the current NOTAM system

Aeronautical Charts

- Charts Questionnaire
- Amendments to Annex 4

Digital Data Sets

- Data coding standards

WGS-84

- Status of implementation of WGS-84
- Analyse if need to update

ICAO DOC 8126 – AIS MANUAL

The Aeronautical Information Services Manual (Doc 8126), 7th edition has finally been published!

It is available on ICAO-NET:

https://portal.icao.int/icao-net/ICAO%20Documents/8126_cons_en.pdf

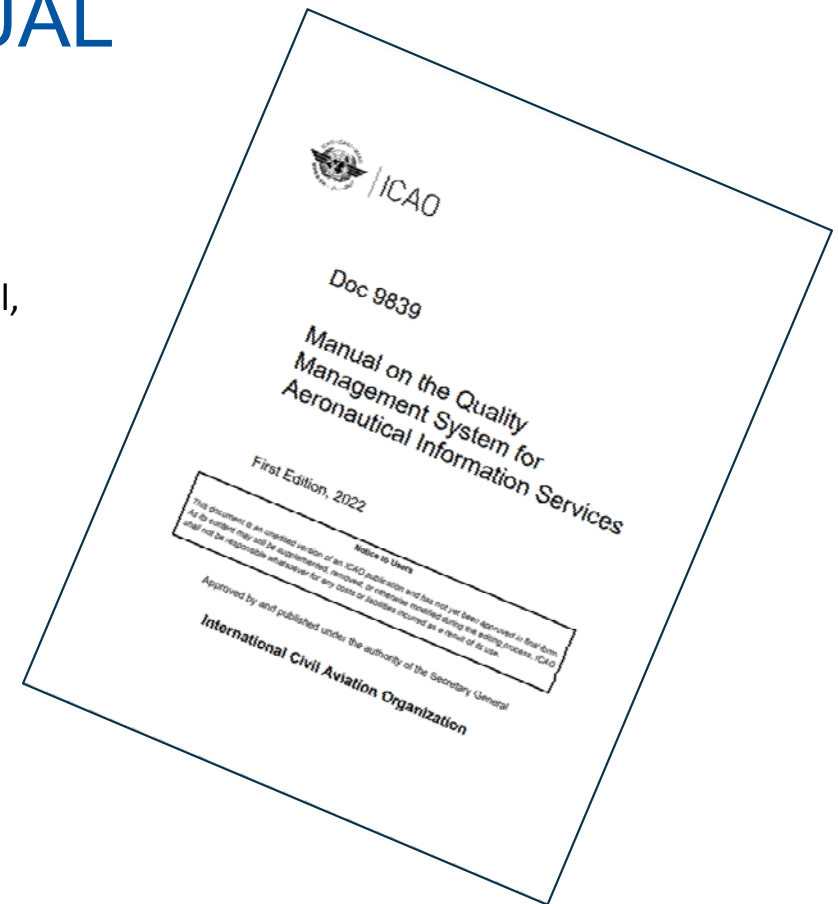

ICAO

ICAO DOC 9839 – QMS MANUAL

The work on ICAO Doc 9839 has been completed. The Manual on the Quality Management System for Aeronautical Information Services, is now available through the ICAO Secure Portal, subject to the following disclaimer:

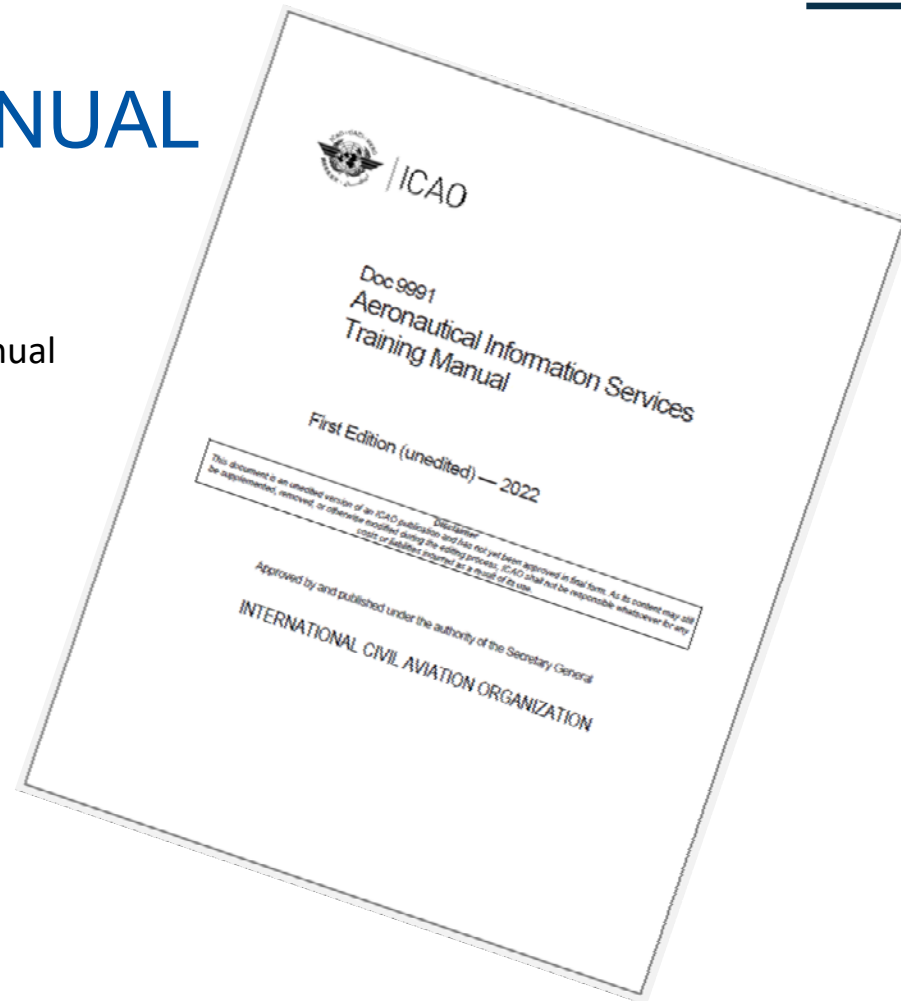

Notice to Users This document is an unedited advance version of an ICAO publication as approved, in principle, by the Secretary General, which is made available for convenience. The final edited version may still undergo alterations in the process of editing. Consequently, ICAO accepts no responsibility or liability of any kind should the final text of this publication be at variance with that appearing here.

ICAO DOC 9991 – TRNG MANUAL

The work on ICAO Doc 9991 has been completed.
The Manual on the Aeronautical Information Services Training Manual
, is now available, subject to the following disclaimer:

Notice to Users This document is an unedited advance version of an ICAO publication as approved, in principle, by the Secretary General, which is made available for convenience. The final edited version may still undergo alterations in the process of editing. Consequently, ICAO accepts no responsibility or liability of any kind should the final text of this publication be at variance with that appearing here.

AIS Training Manual – Background

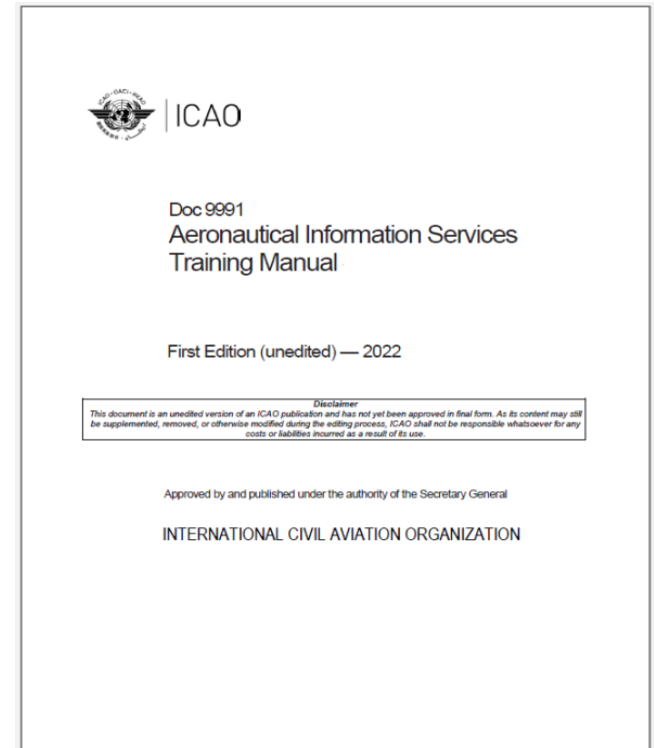

- In 2018, publication of Annex 15 and PANS-AIM prepared for the transition from AIS to AIM
- This necessitated a complete review of AIS Manual (Doc 8126); release of 7th edition in Q2 2021
- Required guidance on quality requirement with Manual on QMS for AIS (Doc 9839); in Q2 2022
- Required guidance on training requirement with AIS Training Manual (Doc 9991); due in Q4 2022
- Development of two TRAINAIR Plus courses (AIQM and AIS OPS) by ICAO; in Q3 2022
- Doc 8126, Part IV Digital aeronautical information products and related services; expected Q1 2023

ICAO DOC 9991 – TRNG MANUAL

- As per QMS requirement, AIS personnel need to be competent to do their assigned tasks.
- Hence the need for employing the adapted competency-based training and assessment (CBTA) model
- The model is based on the generic ICAO competency framework in PANS
- -TRG (Doc 9868).
- Competency is defined as knowledge, skills and attitudes, as evidenced through observable behaviours, to perform an activity or task.
- CBTA should be applied to all phases of AIS training, namely initial, functional, specialized and refresher training.

ICAO DOC 9991 – TRNG MANUAL

Table of contents

- Chapter 1: Introduction, contains background and guidance for establishing a CBTA programme for an AIS organization
- Chapter 2: contains guidance for adapting the ICAO competency framework to AIS, as well as regulator, safety and performance aspects
- Chapters 3 and 4 : provide specifics on designing an AIS CBTA and the various phases of AIS training
- The appendices contain examples of a training specification, an AIS adapted competency model, as well as a sample training syllabus, among others

CONTENTS	
	Page (xiii)
Glossary	
Chapter 1. Introduction	1-1
1.1 Prerequisites for establishing a CBTA programme	1-1
1.2 Benefits of a CBTA programme	1-1
1.3 General provisions for CBTA	1-2
1.4 Competency	1-2
1.5 Organization of AIS training	1-3
1.6 The Phases of AIS training	1-4
1.7 ICAO Competency framework	1-4
1.8 The Instructional systems design model	1-4
1.9 Overview of competency-based training and assessment workflows	1-5
Chapter 2. Developing competency-based training	2-1
2.1 Overview	2-1
2.2 Adapting the ICAO competency framework to AIS	2-1
2.3 Understanding the regulatory context of AIS training	2-1
2.4 Understanding the safety context of AIS training	2-1
2.5 Understanding the performance components of AIS competencies	2-2
Chapter 3. Design of AIS CBTA	3-1
3.1 General	3-1
3.2 Workflow 1: Analyse the training need	3-1
3.3 Workflow 2: Design CBTA	3-3
3.4 Workflow 2 - Part 1: Design adapted competency model	3-5
3.5 Workflow 2 - Part 2: Design training and assessment plans	3-8
3.6 Workflow 3: Develop the training and assessment materials	3-16
3.7 Workflow 4: Conduct the course	3-16
3.8 Workflow 5: Evaluate course	3-16
Chapter 4. AIS training phases	4-1
4.1 General	4-1
4.2 Initial training	4-1
4.3 Functional training	4-2
4.4 Specialized training	4-3
4.5 Refresher training	4-3
Appendix A – Example training specification	A-1
Appendix B – Example AIS adapted competency model	B-1
Appendix C – Example evidence guide	C-1
Appendix D – Example competency checklist	D-1
Appendix E – Example competency assessment form	E-1
Appendix F – Sample Syllabus	F-1

ICAO DOC 9991 – TRNG MANUAL

Annex 15 and PANS-AIM

Amendments and updated cross-references to the AIS Training Manual (Doc 9991) will be added in the next editions of Annex 15 and PANS-AIM (Doc 10066).

ICAO DOC 9991 – TRNG MANUAL

Procedures for Air Navigation Services – Training (PANS-TRG) Doc 9868

Provides the generic ICAO competency framework which is then adapted to the various aviation domains (e.g. flight crews, aircraft maintenance personnel, ATCOs, etc).

PANS -TRG (Doc 9868) will be amended to include in Part VI – Training and assessment for other aviation personnel, the competency - based training and assessment for aeronautical information services (AIS) personnel.

DAIM ASBU AND BBB UPDATES

The ASBU Panel Project Team (PPT) had been established under the GANP Study Group (SG) to maintain the ASBU Threads e.g. AMET, DAIM, FICE, SWIM.

The next review of the GANP is intended to be a minor, which is scheduled for applicability in 2022, after review at the 41st session of the ICAO Assembly.

IMP/WG-A proposed that DAIM-B1/1 Provision of quality-assured aeronautical data and information : QMS, WGS-84 and AIRAC are standards and to be deleted.

DAIM-B1/7 and DAIM-B2/5 NOTAM improvements and replacement : SWIM Dependencies be added as digital NOTAM can be provided as a SWIM information service similar to digital data set services:

Version 7 of the GANP is scheduled for applicability in 2025.

ICAO TRAINAIR Plus Training Courses

13

AIQM & AIS OPS

The graphic features two overlapping course cards. The top card is titled 'Data-Centric Aeronautical Information System Operations (AIS OPS EN)' and includes the ICAO logo, 'GLOBAL AVIATION TRAINING TRAINAIR PLUS', and a 'Virtual Classroom' icon. The bottom card is titled 'Aeronautical Information Quality Management (AIQM EN)' and also includes the ICAO logo and a 'Virtual Classroom' icon. Both cards feature images of air traffic controllers and a globe. The background is a light gray with a subtle grid pattern.

ICAO TRAINAIR Plus Training Course AIQM

14

- 2 day course
- Target audience: Managers (ANS, AIS providers, safety inspectors, airport operators, etc.)
- In English (other languages to follow)
- Developed using competency-based methodology, Training Development Guide (Doc 9941)
- Classroom or Virtual classroom
- Max. participants: 15 (25 with 2 instructors)
- ICAO Certification
- Register at
: [https://igat.icao.int/ated/TrainingCatalogue/Course/5639 or 5582](https://igat.icao.int/ated/TrainingCatalogue/Course/5639%20or%205582)

Air Navigation

**Aeronautical Information
Quality Management
(AIQM EN)**

 Virtual Classroom

www.icao.int/training

AIQM – Course Overview

- Three modules:
- Module 0 – Orientation
- Module 1 – Aeronautical Information Quality Management
- Module 2 – Wrap-up
- Introduces the aeronautical data chain
- Emphasizes that quality is established at origination and can subsequently only be maintained
- Highlights importance of Quality Management System and Formal Arrangements
- Contains group discussions, quizzes, hands-on exercises, progress and mastery tests

ICAO TRAINAIR Plus Training Course AIS OPS

16

Data-Centric Aeronautical Information System Operations (AIS OPS) course :

- 5 day course
- Target audience: AIS operational staff
- In English (other languages to follow)
- Developed using competency-based methodology, Training Development Guide (Doc 9941)
- Classroom or Virtual classroom
- Max. participants: 15 (25 with 2 instructors)
- ICAO Certification
- Register at :
<https://igat.icao.int/ated/TrainingCatalogue/Course/5640>
or 5605

AIS OPS course Overview

Data-Centric Aeronautical Information System Operations (AIS OPS) course :

- Four main modules: quality management, collection, processing, and distribution of aeronautical data and information
- Introduces and covers the entire aeronautical data chain from origination to next intended users
- Detailed description of all functions of an AIS
- Introduces and explains new concepts like aeronautical data catalogue, data quality requirements, metadata, data product specification, digital data sets, information exchange model, data set distribution service, etc.
- Contains group discussions, quizzes, practical exercises, progress and mastery tests.

ICAO custom training

18

ICAO Technical Cooperation Bureau

Series of AIM Workshops

- 2 weeks of workshops (for managers and AIM operational staff)
- In preparation of acquisition of AIS automation system
- Based on AIQM and AIS OPS courses
- Custom NOTAM workshop, incl. review and analysis of NOTAM

ICAO

The meeting is invited to :

- a) follow-up and keep abreast of the Global activities related to AIM; and
- b) discuss any relevant matters as appropriate.

Thank You
