

MIDRMA Awareness & Promotion 2023 Work Program

MIDRMA Board / 18

19 – 20 September 2022

MIDRMA Objective 3

Address any safety-related issues raised in the SMR by recommending improved procedures and practices; and propose safety level improvements to ensure that any identified serious or risk-bearing situations do not increase and, where possible, that they decrease.

Awareness & Promotion Plan 2023

Regulators

- ICAO Annex 6 height monitoring requirements & how to enforce them
- Risk associated with aircraft technical height monitoring performance:
 - Technical risk
 - Overall risk
- MIDRMA risk analysis software & tools

Airlines/Operators

- Importance of height monitoring
- How to achieve height monitoring targets
- Height monitoring performance and risks related to:
 - Operational errors
 - In flight contingencies

Awareness & Promotion Plan 2023 (cont.)

ANSPs

- Data exchange format and data accuracy
- Occurrence classification and reporting
- Data submission & usage analysis

Action by the meeting

- Request MIDRMA to update 2023 work program to elevate awareness and promote compliance culture within the region and the individual member states

Thank You
