

FIFA WC Qatar 2022 Post Event Review

- ➤ Bahrain`s preparation for the FIFA WC2022
- ➤ Analysis of projected Doha traffic with actual traffic In/Out of Bahrain FIR during Nov 13th Dec 18th
- > Ratio of projected vs actual traffic
- **Conclusion**
- > Recommendations

Preparation for FWC2022 included but not limited to the following:

- > Tactical Sectorization ensuring equal distribution of workload throughout the Bahrain FIR
- > ATCO training and preparation for full sector capacity
- ➤ Contingency preparations in all sectors including relevant surrounding FIRs
- > Tactical and flexible manpower availability throughout the 24 hour environment
- ➤ Daily dissemination of trends regarding FWC initial projections, daily projections, and Bahrain FIR actual realized fluctuations
- > Daily analysis of relevant sector demand vs capacities vs actual volumes

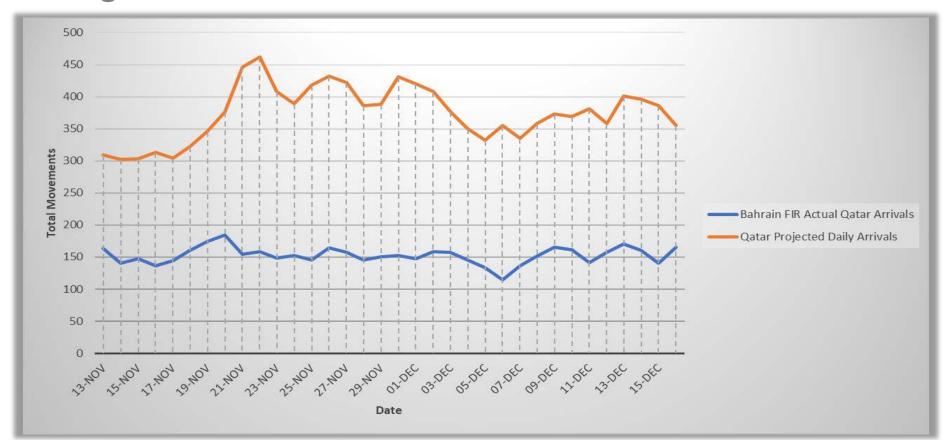

Analysis (Projected vs Actual)

Daily analysis of relevant sector demand vs capacities vs actual volumes

Ratio (Projected vs Actual)

The ratio of Qatar PROJECTED daily arrivals which ACTUALLY passed through the Bahrain FIR averaged just over 41% throughout FWC2022.

- + Bahrain was able to successfully, safely & efficiently meet the commitment of accommodating the FIFA WC2022 traffic with Zero delays within Bahrain FIR
- Demand ambiguity uncertainty
- Work alone vs Joint framework

- Proper planning, preparation, tactical sectorization and coordination with adjacent FIRs are key factors
- Adequate manpower (resources management and training)
- Dynamic sector capacity (Full Capacity Management)
- Daily analysis of projected vs actual traffic volumes

Thank You
