Objectives of the Webinar

To provide an overview of the ICAO competency framework to aeronautical information services,

to provide guidance for States on how the aeronautical information services providers (AISPs) can use the ICAO competency framework to establish an adapted competency model that is appropriate for regulatory, operational, technical and organizational environments of an AIS

To provide an understanding of competency-based training and assessment as the key element to achieve competence within skills development.,

To showcase best practices in aeronautical information services adapted competency model in UAE.

Programme

Time (UTC)	Item	Duration (min)	Presented by
08:00 – 05	**Welcome and opening session of the Webinar**	*5*	ICAO secretariat
08:05-08:15	**Background information:**	*10*	ICAO secretariat
08:15– 08:45	**ICAO DOC 9991 – Training Manual** • Content of the Training Manual • ICAO Competency Framework Overview • Developing competency-based training • Design of AIS competency-based training and assessment	*30*	Ms. Louise Alberts. Civil Aviation Safety Authority. Australia
08:45– 09:00	**Regional best practice** • UAE experience in implementing CBTA methodology	*15*	UAE GCAA
09:00 – 09:30	**Q&A session**	*30*	
End of the Webinar

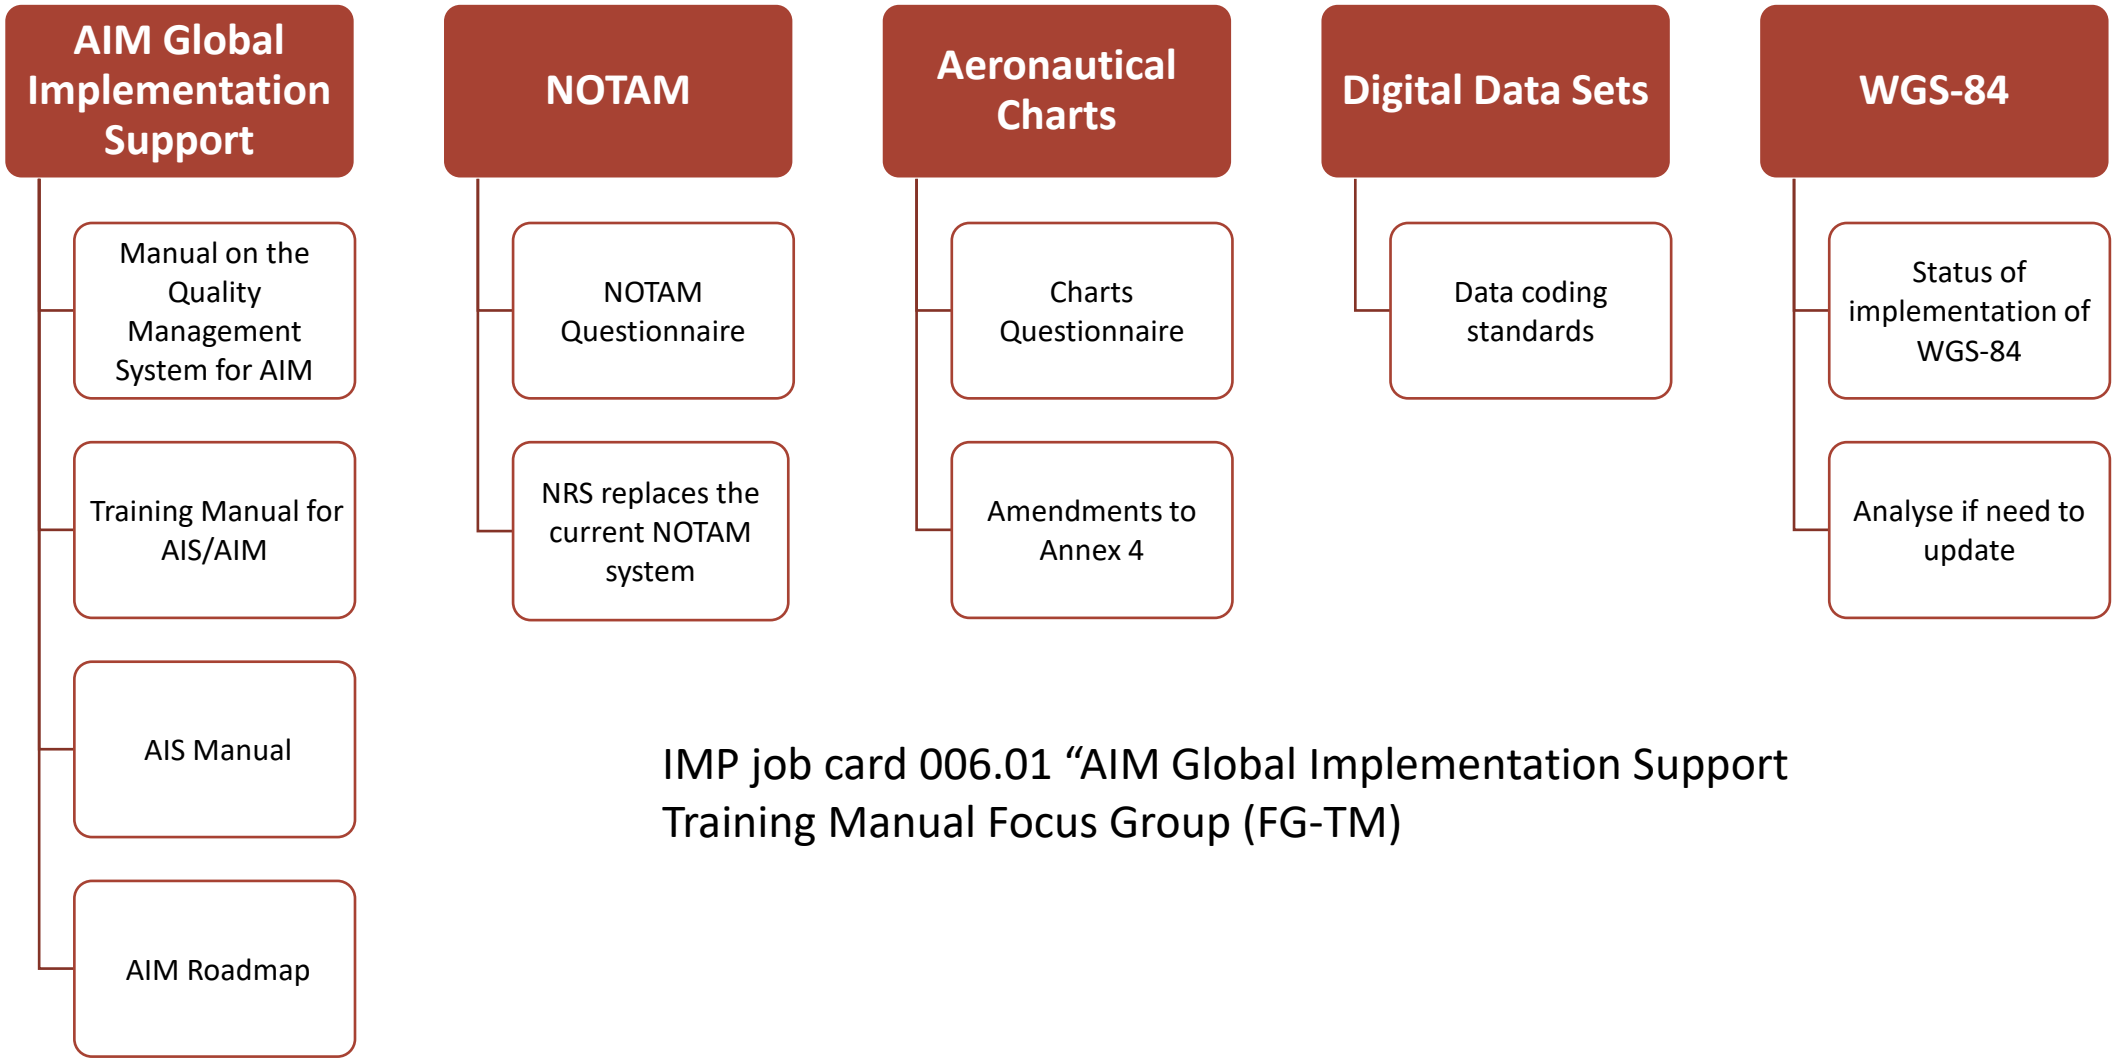
THE AIM WORKING GROUP ACTIVITIES



IMP job card 006.01 “AIM Global Implementation Support Training Manual Focus Group (FG-TM)

Background

- The former AIS-AIM Study Group delivered a training manual in 2011.
- The training manual had to be rewritten to incorporate the CBTA.
- The Training Manual Focus Group FG-TM was tasked to develop guidance material for competency-based training and assessment in the AIM domain.
- It was agreed to closely align the AIM Training Manual with the ATCO Training Manual.
- The first edition (2023) of ICAO Doc 9991 Manual on Aeronautical Information Services Training has been published on ICAO portal.

Q1: What is the main differences between traditional training and competency based training and assessment programmes?

Q&A

Q2: Can an organization add additional competencies to their CBTA model?

Q3: Does oversight personnel have to be trained in the CBTA concept?

Why are refresher training required for pre-trained and experienced AIS staff?

Why are competency checks required if the staff are regularly doing the same tasks?

What are the time-frames for the different modules in the training plan?

Are there any plans to introduce AIS staff licenses or certifications?

What is the best recommended length for the different training phases defined in ICAO DOC 9991?

Does ICAO maintain a list of training organizations that are certified to provide ICAO AIS courses?

Are there any ready AIS question banks for preparing standard and consistent exams?

ICAO UNITING AVIATION

THANK YOU!
