</table>
**Venezuela**

- Must have a printed medical certificate with a negative Coronavirus (COVID-19) RT-PCR test result. The test must have been taken at most 96 hours before departure of the last direct flight to Egypt. The medical certificate must be issued by an approved laboratory and must not have any scraping, cancellation or written addition. The test must be based on a nasal or oral swab.
  - This does not apply to passengers younger than 6 years.

- Passengers arriving from any other country must have a printed medical certificate with a negative Coronavirus (COVID-19) RT-PCR test result. The test must have been taken at most 72 hours before departure of the last direct flight to Egypt. The medical certificate must be issued by an approved laboratory and must not have any scraping, cancellation or written addition. The test must be based on a nasal or oral swab.
  - This does not apply to passengers younger than 6 years.

- Passengers arriving at Hurghada (HRG), Marsa Alam (RMF), Sharm El Sheikh (SSH) or Taba (TCP) without a printed negative Coronavirus (COVID-19) PCR test result are subject to a PCR test on arrival at their own expense.

**Iran**

1. All airports within Tehran FIR available for passenger operations.

2. Resuming international flights for summer schedule requires obtaining a verification from air transport bureau of the CAO.IRI.

3. All flights either directly or by connection to/from United Kingdom aerodromes with the purpose of operation at any Iranian aerodromes are prohibited.

4. Operators are required to apply for airport slot in advance of operation.

5. The entry of commercial freight through cargo flights is permitted without any restriction, by implementing of health protocols, including disinfection of arrival cargo.

6. Suspension of visa on arrival facilities for passengers traveling as tourists.

7. E-visas can be obtained before departure at http://evisa.mfa.ir/en/ . Passengers must have a confirmation email.

8. All arriving foreign passengers from all air borders are required to hold valid health certificate containing COVID-19 molecular test issued, in English or approved by the consulate and shall be issued at maximum 96 hours before the entry. The air operators are also required to ensure that all passengers are carrying valid health certificates and foreign passengers who do not have the above certificates should not be accepted, and the foreign passengers are not permitted to enter the country if the above certificates are not presented on arrival.
9. If the validity of the issued certificate has expired due to the duration of the trip or other reasons, there is no need to retake the test. Screening upon arrival will be performed and in case of any COVID-19 suspicious cases, by taking PCR test the patient must be quarantined in the designated places up until the time they test negative. If they test positive, they will be directed to quarantine locations assigned by the ministry of health for fourteen days and the passenger shall incur all the expenses, including medical tests and related accommodation.

10. Iranian nationalities whose duration of stay abroad is more than 2 weeks are required to hold valid health certificate containing COVID-19 molecular test issued, in English or approved by the consulate. If for any reason, it was not possible to obtain a certificate, operators can accept these passengers but the PCR test will be performed upon arrival and they have to stay at home quarantine by providing a written pledge. If they test positive, it is mandatory to stay at quarantine for fourteen days and the passenger shall incur all the expenses, including medical tests and related accommodation.

11. Regarding diplomats, political delegations, government officials, and staff of international agencies, subject to reciprocity, they are not required to obtain certification and laboratory testing in the country of origin. Screening upon arrival will be performed, and in case of any COVID-19 suspicious cases by taking PCR test, the patient must provide a written page and stay at quarantine in the embassy or designated places up until the time they test negative and the symptoms are no longer displayed. If they test positive, it is mandatory to stay at quarantine for fourteen days. Such passengers do no need to pay the cost of the test.

12. All passengers shall complete the self-declaration form, provided by air operators, before or during the flight and hand them to the operator’s rep. The air operator is also required to send detailed passengers reconcile list (PRL) at least one hour before arrival to CAO.IRI by email: msg cao.ir or telex: thrc2ir.

13. Screening upon arrival will be performed at all borders to all Iranian and foreign passengers (even those holding the health certificate) and in case of any COVID-19 suspicious cases, by taking PCR test, the patient must be quarantined in the designated places, and follow-up shall be conducted from arrival until 14 days after return.

14. All air operators are required to adhere to the in-flight COVID-19 health protocols including:
   a) when occupancy allows, airlines should separate seating arrangement.
   b) mandating all passengers and air crews to wear face mask throughout the flight.
   c) ensuring that all aircraft are equipped with universal protection kits in accordance with ICAO standards.
d) ensuring the correct operation of HEPA filter in aircraft.

e) making the aircrew be familiar with self-care, preventive and infection control principles and how to deal with COVID-19 suspicious passengers.

f) paying due attention to correct disposal of the collected garbage from the aircraft

g) presenting the aircraft disinfection certificate for the last 24-hours to the airport health personnel. Evidently, the complementary disinfection procedure is needed if there were suspicious cases on board the aircraft.

16. Wearing face masks is mandatory and social distancing is practiced at all times inside airport facilities.

1. Flights to Iraq restarted.

2. Passengers arriving from Australia, Belgium, Denmark, Iran, Japan, Netherlands, South of Africa or United Kingdom are not allowed to enter. This does not apply to nationals of Iraq.

3. Passengers traveling to Baghdad (BGW) must have a medical certificate with a negative Coronavirus (COVID-19) test result issued at most 72 hours before departure.

4. Passengers are subject to medical screening and quarantine.

5. Passengers traveling to Baghdad (BGW) must have a printed medical certificate with a negative Coronavirus (COVID-19) PCR test result issued at most 72 hours before departure from the first embarkation point. The medical certificate must be in Arabic or English.

   - This does not apply to passengers younger than 10 years. They will be subject to a PCR test on arrival.

6. Passengers traveling to Basra (BSR) must have a printed medical certificate with a negative Coronavirus (COVID-19) PCR or RT-PCR test result. The test must have been taken at most 72 hours before arrival and the certificate must be in Arabic or English.

   - This does not apply to passengers younger than 10 years.

7. Passengers traveling to Erbil (EBL) without a printed medical certificate with a negative Coronavirus (COVID-19) PCR test taken at most 72 hours before arrival are subject to a test upon arrival at their own expense. The medical certificate must be in Arabic or English.

   - This does not apply to passengers younger than 12 years.
- Coronavirus (COVID-19) test issued by the National Health Service (NHS) in the United Kingdom are not accepted.

8. Passengers traveling to Sulaymaniya (ISU) without a printed medical certificate with a negative Coronavirus (COVID-19) PCR test taken at most 72 hours before arrival are subject to a test upon arrival at their own expense. The medical certificate must be in Arabic or English.
   - This does not apply to passengers younger than 12 years.

9. Passengers traveling to Najaf (NJF) must have a medical certificate with a negative Coronavirus (COVID-19) PCR test result. The test must have been taken at most 72 hours before departure from the first embarkation point.
   - This does not apply to passengers younger than 10 years.

10. Passengers traveling to Erbil (EBL) or Sulaymaniya (ISU) must complete a "Pledge Form" upon arrival.

11. Passengers who have been in Iran in the past 30 days are not allowed to enter via Erbil (EBL) or Sulaymaniya (ISU).

12. Nationals of Indonesia are not allowed to enter Iraq via Basra (BSR) or Najaf (NJF).

13. Airline crew arriving at Erbil (EBL) or Sulaymaniya (ISU) are subject to self-isolation in a hotel until their next flight.

14. Staff must undergo medical examination.

15. All the staff have to wear medical face masks.

16. The body temperature of all passengers will be checked by thermal camera screening at the terminal entrance.

17. Passengers must wear masks both in the terminal and on board. Passengers not wearing masks will be denied both access to the terminals and boarding to protect public health. passengers are required to sanitize their hands continuously.

18. Departing Passengers are required to carry out PCR test at the medical centers and health laboratories that specified officially by Ministry of Health and according to the requirements of the states of destination, in case destination state didn’t request (PCR) test so it must be done before (72) hour from departure flight date.
19. A distance of (1) meter should be maintained between passengers at gathering areas such as check-in, passport control and waiting lounges by following the floor markers which provide guidance for keeping a safe distance.

20. All the crew members and passengers should wear face masks throughout the flight. Disinfectants and sanitizers must be available on board to disinfect all the surfaces at the passenger cabin after touching them. It is also necessary to sterilize aircraft seat cushions and covering the headphones that used during the flight.

21. The last seats at the end of the cabin shall be reserved for those who may show covid19 symptoms after boarding the aircraft. All the printed materials such as newspapers and magazines must be removed from passenger’s cabin.
