International Civil Aviation Organization

STATUS OF AIRPORTS OPERABILITY AND RESTRICTION INFORMATION - MID REGION

Updated on 20ᵗʰ September 2020

Disclaimer

This Brief for information purposes only and should not be used as a replacement for airline dispatch and planning tools. All operational stakeholders are requested to consult the most up-to-date AIS publications. The sources of this Brief are the NOTAMs issued by MID States explicitly including COVID-19 related information, States CAA websites and IATA travel center (COVID-19) website.

STATE	STATUS / RESTRICTION
Bahrain	1. All scheduled passenger flights to-from Iraq, Syria, Baku, Dhaka, Dubai, Sharjah and Addis Ababa are suspended; exemptions granted for aircraft in state of emergency, cargo, technical landing, humanitarian/medevac/repatriation flights and united nations flights. 2. Visa on arrival is available to all eligible passengers disembarking Bahrain 3. Passengers are not allowed to enter. This does not apply to: 　- Bahraini citizens 　- GCC citizens who do not require visas 　- passengers who reside in Bahrain 　- passengers with a valid eVisa granted prior to boarding 　- passengers who are eligible for visa on arrival 　- this does not apply to airline crew 　- this does not apply to transit passengers 　- this does not apply to military personnel 4. Border crossing on the causeway is suspended due to Coronavirus (COVID-19). 5. Face masks mandatory for airlines, airport staff and passengers. 6. Strict physical distancing (2 m) is observed through all passenger processes, including queue management. 7. The 10 days' quarantine requirements for travelers arriving in Bahrain has been cancelled with immediate effect. Compulsory COVID-19 PCR testing for all passengers arriving into Bahrain international airport will remain intact and at passenger's expense. 8. The test fee shall be paid in advance by the passenger through "BeAware" Bahrain application http://bh.bh/BeAware or through the self-service payment kiosk at the

	Airport. This does not apply to cabin crew, diplomats and passengers returning to Bahrain from a medical travel. 9. Airlines operators are required to brief their passengers of the above requirements in advance and before arrival at BIA.
Egypt	1. Flights to Egypt restarted. 2. A completed "Public Health Card" must be presented to immigration upon arrival. 3. Airlines shall provide (declaration form) at departure airport and ensure that it is fulfilled and signed by the passenger before embarkation on every international flight. 4. Airlines shall not to allow any passenger to board with a temperature equal or over 38 degree or suffering from any respiratory system symptoms and registering thereto in the passenger list and deliver to the quarantine authority in the destination airport. 5. Airlines shall fulfill the general acknowledgement of the aircraft and deliver it to the quarantine authority in the destination airport. 6. Airlines shall submit a form to the quarantine authority at the destination airport, in order to state the cleansing of the aircraft coming from abroad. 7. All arriving and departing passengers (including transiting) and crew (including layover) are subject to enhanced testing procedures, and quarantine for feverish passengers are set up. 8. Social distancing is practiced at all times, especially during the check-in, security check, pre-boarding, boarding, embarkation and disembarkation procedures, as well as passport control, baggage claims, airline desk, information desks. 9. Wearing face masks is mandatory inside all airport facilities. and throughout the flight. 10. Passengers must have a medical certificate with a negative Coronavirus (COVID-19) RT-PCR test result. The test must have been taken at most 72 hours before departure of the last direct flight to Egypt. The medical certificate must be issued and stamped by an accredited laboratory, it must indicate the type of sample taken for the swab and must be in Arabic or English. This does not apply to passengers younger than 6 years. 11. Passengers arriving at Hurghada (HRG), Marsa Alam (RMF), Sharm El Sheikh (SSH) or Taba (TCP) without a negative Coronavirus (COVID-19) PCR test result are subject to a PCR test on arrival at their own expense.

Iran	

Iran

1. All airports within Tehran FIR available for passenger operations.

2. Resuming international flights for summer schedule requires obtaining a verification from air transport bureau of the CAO.IRI.

3. Operators are required to apply for airport slot in advance of operation.

4. The entry of commercial freight through cargo flights is permitted without any restriction, by implementing of health protocols, including disinfection of arrival cargo.

5. Suspension of visa on arrival facilities for passengers traveling as tourists.

6. E-visas can be obtained before departure at http://e_visa.mfa.ir/en/ . Passengers must have a confirmation email.

7. All arriving foreign passengers from all air borders are required to hold valid health certificate containing COVID-19 molecular test issued, in English or approved by the consulate and shall be issued at maximum 96 hours before the entry. the air operators are also required to ensure that all passengers are carrying valid health certificates and foreign passengers who do not have the above certificates should not be accepted, and the foreign passengers are not permitted to enter the country if the above certificates are not presented on arrival.

8. If the validity of the issued certificate has expired due to the duration of the trip or other reasons, there is no need to retake the test. screening upon arrival will be performed and in case of any COVID-19 suspicious cases, by taking PCR test the patient must be quarantined in the designated places up until the time they test negative. if they test positive, they will be directed to quarantine locations assigned by the ministry of health for fourteen days and the passenger shall incur all the expenses, including medical tests and related accommodation.

9. Iranian nationalities whose duration of stay abroad is more than 2 weeks are required to hold valid health certificate containing COVID-19 molecular test issued, in English or approved by the consulate. if for any reason, it was not possible to obtain a certificate, operators can accept these passengers but the PCR test will be performed upon arrival and they have to stay at home quarantine by providing a written pledge. if they test positive, it is mandatory to stay at quarantine for fourteen days and the passenger shall incur all the expenses, including medical tests and related accommodation.

10. Regarding diplomats, political delegations, government officials, and staff of international agencies, subject to reciprocity, they are not required to obtain certification and laboratory testing in the country of origin. screening upon arrival will be performed, and in case of any COVID-19 suspicious cases by taking PCR test, the

patient must provide a written page and stay at quarantine in the embassy or designated places up until the time they test negative and the symptoms are no longer displayed. if they test positive, it is mandatory to stay at quarantine for fourteen days. such passengers do no need to pay the cost of the test.

11. All passengers shall complete the self-declaration form, provided by air operators, before or during the flight and hand them to the operator's rep. the air operator is also required to send detailed passengers reconcile list (PRL)at least one hour before arrival to CAO.IRI through email: msg cao.ir or telex: thrc2ir.

12. Screening upon arrival will be performed at all borders to all Iranian and foreign passengers (even those holding the health certificate) and in case of any COVID-19 suspicious cases, by taking PCR test, the patient must be quarantined in the designated places, and follow-up shall be conducted from arrival until 14 days after return.

13. All air operators are required to adhere to the in-flight COVID-19 health protocols including:
    a) when occupancy allows, airlines should separate seating arrangement.
    b) mandating all passengers and air crews to wear face   mask throughout the flight.
    c) ensuring that all aircraft are equipped with universal protection kits in accordance with ICAO standards.
    d) ensuring the correct operation of HEPA filter in aircraft.
    e) making the aircrew be familiar with self-care, preventive and infection control principles and how to deal with COVID-19 suspicious passengers.
    f) paying due attention to correct disposal of   the collected garbage from the aircraft
    g) presenting the aircraft disinfection certificate for the last 24-hours to the airport health personnel. Evidently, the complementary disinfection procedure is needed if there were suspicious cases on board the aircraft.

14. operators shall meet the requirements published by the CAO.IRI on CAD1900 available on https://www.cao.ir/rules?and?regulation

15. Wearing face masks is mandatory and social distancing is practiced at all times inside airport facilities.

Qatar	1. As part of the gradual lifting of restrictions imposed in the State of Qatar as a result of the Coronavirus (COVID-19) pandemic, and based on Qatar's travel policy announced previously, the travel policies effective Saturday 1 August have been reviewed based on public health indicators in the State of Qatar and around the world, as follows: a) First – the quarantine policy has been reviewed and the following has been decided: - Arrivals to the State of Qatar from low-risk countries are required to take a Coronavirus test upon arrival at the airport, and to sign a formal pledge to adhere to quarantine at home for a week, noting that the traveler's status on the Ehteraz application will be yellow, which means that they are required to quarantine. After the week has elapsed, the traveler must go to one of the dedicated health centers to get another Coronavirus test. If the result is positive, the traveler will be transferred to isolation, and if it is negative, the quarantine period ends at the end of that week and the traveler's status on the Ehteraz application will change to green. It should be noted that the list of low-risk countries will be published on the Ministry of Public Health's website and announced by the Civil Aviation Authority. The list of low-risk countries will be reviewed every two weeks. If there are accredited COVID-19 testing centers in one of these low-risk countries, obtaining a COVID-free certificate from one of these centers exempts the traveler from taking the test at the airport upon arrival in the country, provided that the date of obtaining the certificate does not exceed 48 hours before traveling. - Arrivals from countries that are not included in the list of low-risk countries and in which COVID-19 testing centers have been accredited are required to obtain a virus-free certificate from there no more than 48 hours before travelling. The arrivals must also adhere to the home quarantine for a week upon arrival in Doha while also following the policy and conditions applied to arrivals from the low-risk countries mentioned above. - Arrivals from other countries that are not included in the list of low-risk countries and in which there are no accredited COVID-19 testing centers will be required to quarantine in a hotel at their own expense for one week, provided that hotel accommodation is booked through the "Discover Qatar "website before arriving in the State of Qatar. After the week has elapsed, the ending of the quarantine period will depend on the result of a COVID-19 test. If the result is positive, the traveler will be transferred to isolation, and if it is negative, the person will commit to home

quarantine for another week, in which case the status on the Ehteraz application will be yellow and will then change to green after the week has passed.

b) Second – Qatari citizens, their spouses and children, and permanent residency holders:
- They can travel outside the country and return at any time, while adhering to all the aforementioned procedures and according to the countries of arrival.
- Patients receiving treatment abroad at the expense of the state of Qatar and their registered companions, and employees who are dispatched for work assignments, will be exempt from bearing the cost of the hotel, as the relevant body will cover the costs of the hotel quarantine if the traveler meets the conditions of the hotel quarantine, as explained in the statement.

c) Third – residents:
- They will be allowed to return to the State of Qatar starting the first of August 2020. Residents' entry will be organized based on a series of priorities, including public health indicators, the nature of the needs of the various government and semi-government sectors and humanitarian cases, and through submitting return requests for permits via the "Qatar Portal" website based on the above-mentioned priorities.
- The employer shall bear the costs of the quarantine in the dedicated facilities for blue collar workers in the private sector and domestic workers at a nominal cost after obtaining the entry permit.

2. All terminating passengers shall have access to the EHTERAZ smart phone application. Support by the airport personnel will be available 24/7.

3. Undertaking and health assessment forms will have to be submitted to the relevant government agencies, available 24/7 at the airport terminal.

4. Passengers shall observe physical distancing of minimum 1.5 meters.

5. Use of mask is mandatory inside the premises.

6. Passengers arriving from high risk countries, without a coronavirus test certificate, from an accredited health center, (ref www.moph.gov.qa) will be escorted from the airport directly to quarantine facilities.

7. Passengers arriving from low risk countries without a coronavirus test certificate will have to undergo swab collection for coronavirus test at the airport, prior the start of the immigration process.

	8. Dedicated facility is available, for passengers under the COVID-19 vulnerable groups and those under the special assistance needs, at the airport terminal for swab collection for coronavirus test. (ref www.moph.gov.qa) 9. Airlines are required to verify prior boarding, that Doha terminating passengers have an approved exceptional entry permit. 10. Nationals of Bahrain, Kuwait, Oman, Qatar, Saudi Arabia and United Arab Emirates are not allowed to enter with a national ID card.
Saudi Arabia	1.
