

DROONES
FOR AFRICA

Highlights

- Cutting-edge drones for industry-specific applications
- Training & Comprehensive programs for safe and effective drone operations
- Expert Repair & Maintenance services
- Data Analysis - Transforming drone data into actionable insights
- R&D - Pushing the boundaries of drone technology
- Last Mile Services in challenging terrains

Current Landscape in Botswana and Africa

- Regulatory Framework
- Emerging interest in AAM as a transformative technology
- Infrastructure Development for AAM
- Public-Private Partnerships (PPPs)

A wide-angle landscape photograph of a mountain range at sunset. The sun is low on the horizon, casting a warm, golden glow over the scene. Two drones are flying in the sky, one on the left and one on the right. The foreground shows rolling hills and a winding river or path. The overall mood is serene and technological.
