

ADS-B Performance

APANPIRG ADS-B TASK FORCE SEMINAR
Nadi , Fiji

Greg Dunstone
Technology Development
Airservices Australia

from the ground up

Introduction & Overview

- Ground stations
- ATC systems

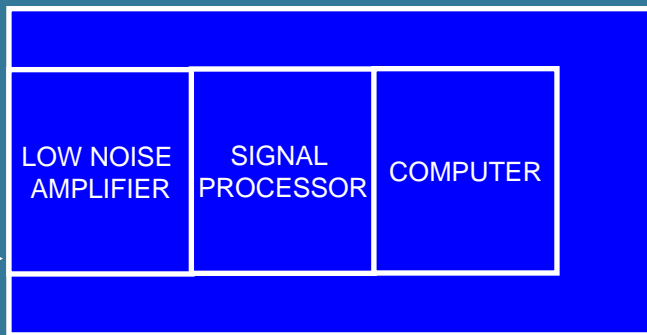

Typical ADS-B Receive only system

DME
OMNI ANTENNA

GROUND STATION

MDS= Better than 90 dB

Thales ATM Ground station

Some sites power by Solar cells

ADS-B takes only 100 watts!

Ground Surveillance

DOWNLINK MESSAGES

ADS-B OUT

Typically
broadcast 2 / second

ADS-B Ground station

ASTERIX DATA FORMAT

Ground station functions

- Receive and decode messages
 - Position every 0.5 secs
 - Ident every 5 secs
 - Velocity every 0.5 secs
- Collate and package – send every second or so
- Remote monitoring capability

Asterix Cat 21 Messages

Adobe Acrobat Document

EUROCONTROL STANDARD DOCUMENT	
FOR	
SURVEILLANCE DATA EXCHANGE	
Part 12 : Category 021	
ADS-B Messages	
SUR.ET1.ST05.2000-STD-12-01	
Edition	: 0.23
Edition Date	: November 2003
Status	: Working Draft
Class	: General Public

Table 1 - Data Items of Category 021

Data Item Reference Number	Description	Resolution
I021/010	Data Source Identification	N.A.
I021/020	Emitter Category	N.A.
I021/030	Time of Day	1/128 s
I021/032	Time of Day Accuracy	1/256 s
I021/040	Target Report Descriptor	N.A.
I021/080	Target Address	N.A.
I021/090	Figure of Merit	N.A.
I021/095	Velocity Accuracy	N.A.
I021/110	Trajectory Intent	N.A.
I021/130	Position in WGS-84 co-ordinates	180/2 ²³ °
I021/140	Geometric Altitude	6.25 ft
I021/145	Flight Level	¼ FL
I021/146	Intermediate State Selected Altitude	25 ft
I021/148	Final State Selected Altitude	25 ft
I021/150	Air Speed	N.A.
I021/151	True Air Speed	N.A.
I021/152	Magnetic Heading	360/2 ¹⁶ °
I021/155	Barometric Vertical Rate	6.25 ft / min
I021/157	Geometric Vertical Rate	6.25 ft / min
I021/160	Ground Vector	N.A.
I021/165	Rate of Turn	¼ °/s
I021/170	Target Identification	N.A.
I021/200	Target Status	N.A.
I021/210	Link Technology Indicator	N.A.
I021/220	Met Report	N.A.
I021/230	Roll Angle	0.01 deg

Burnett Basin Trial Experience

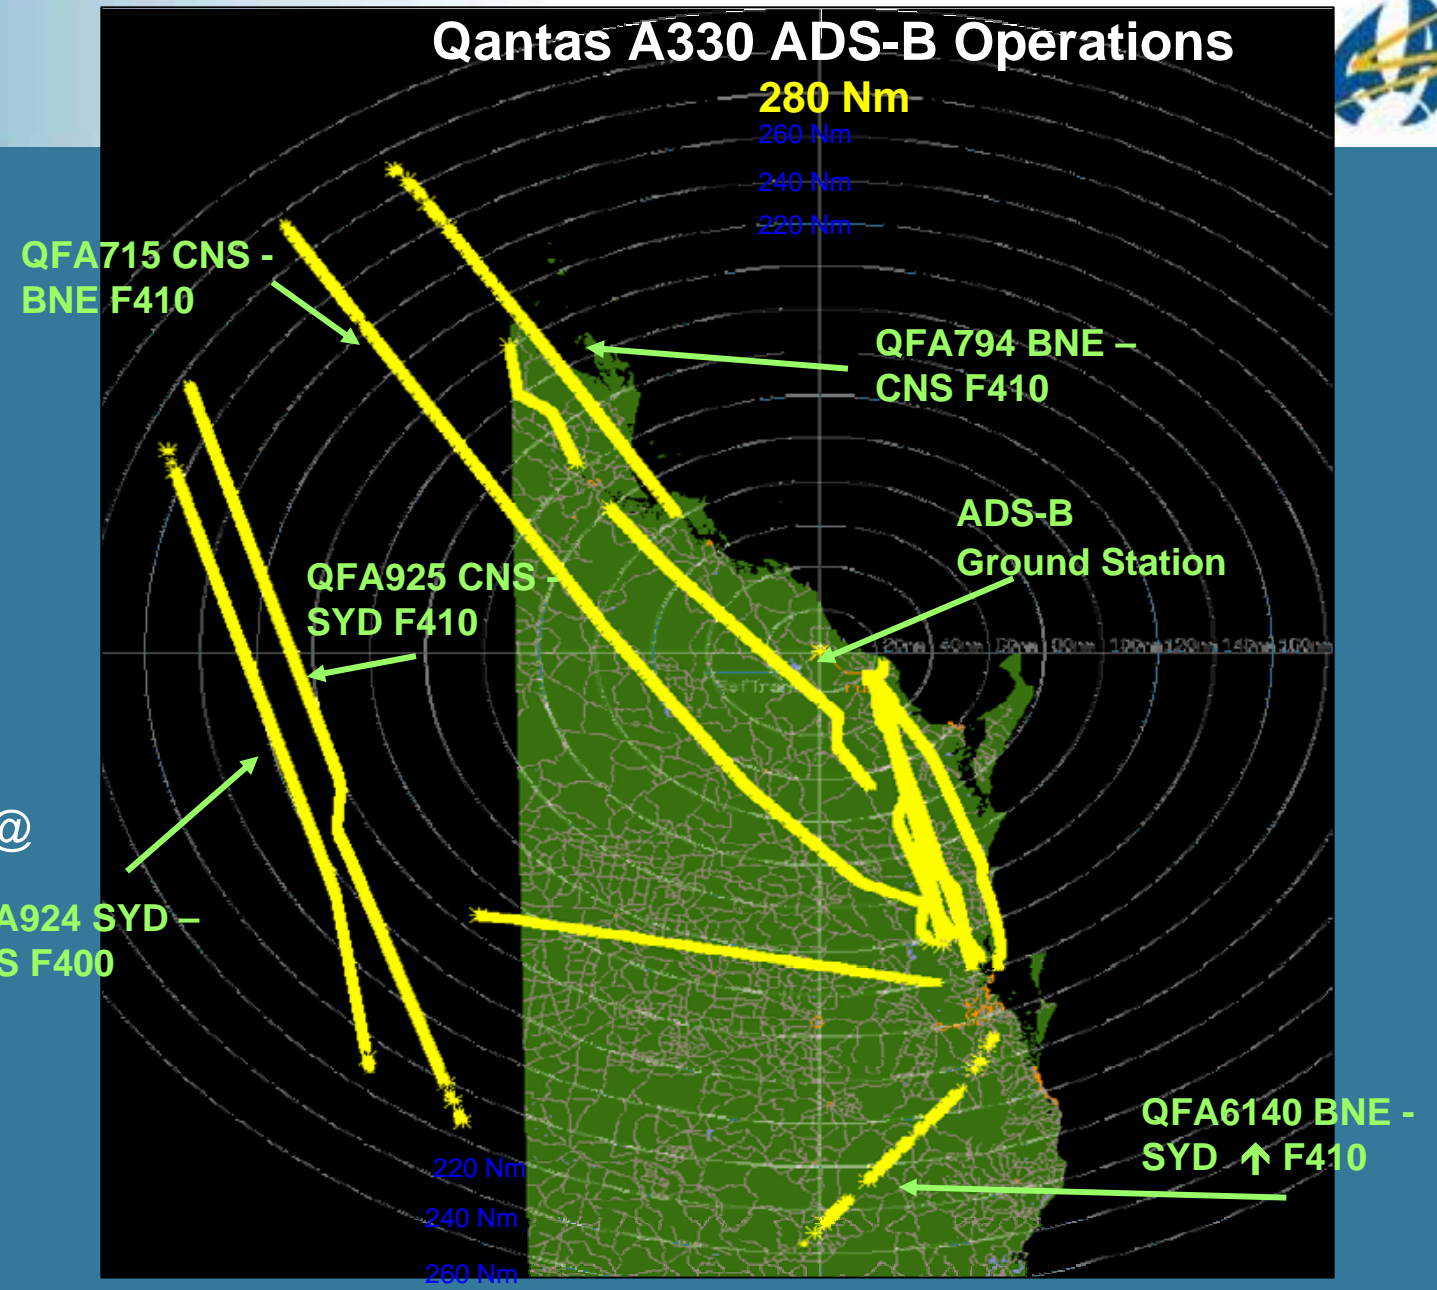

Qantas A330 ADS-B Operations

• Mode S ADS-B gives excellent performance in Australia

Sensis Ground station @ Bundaberg

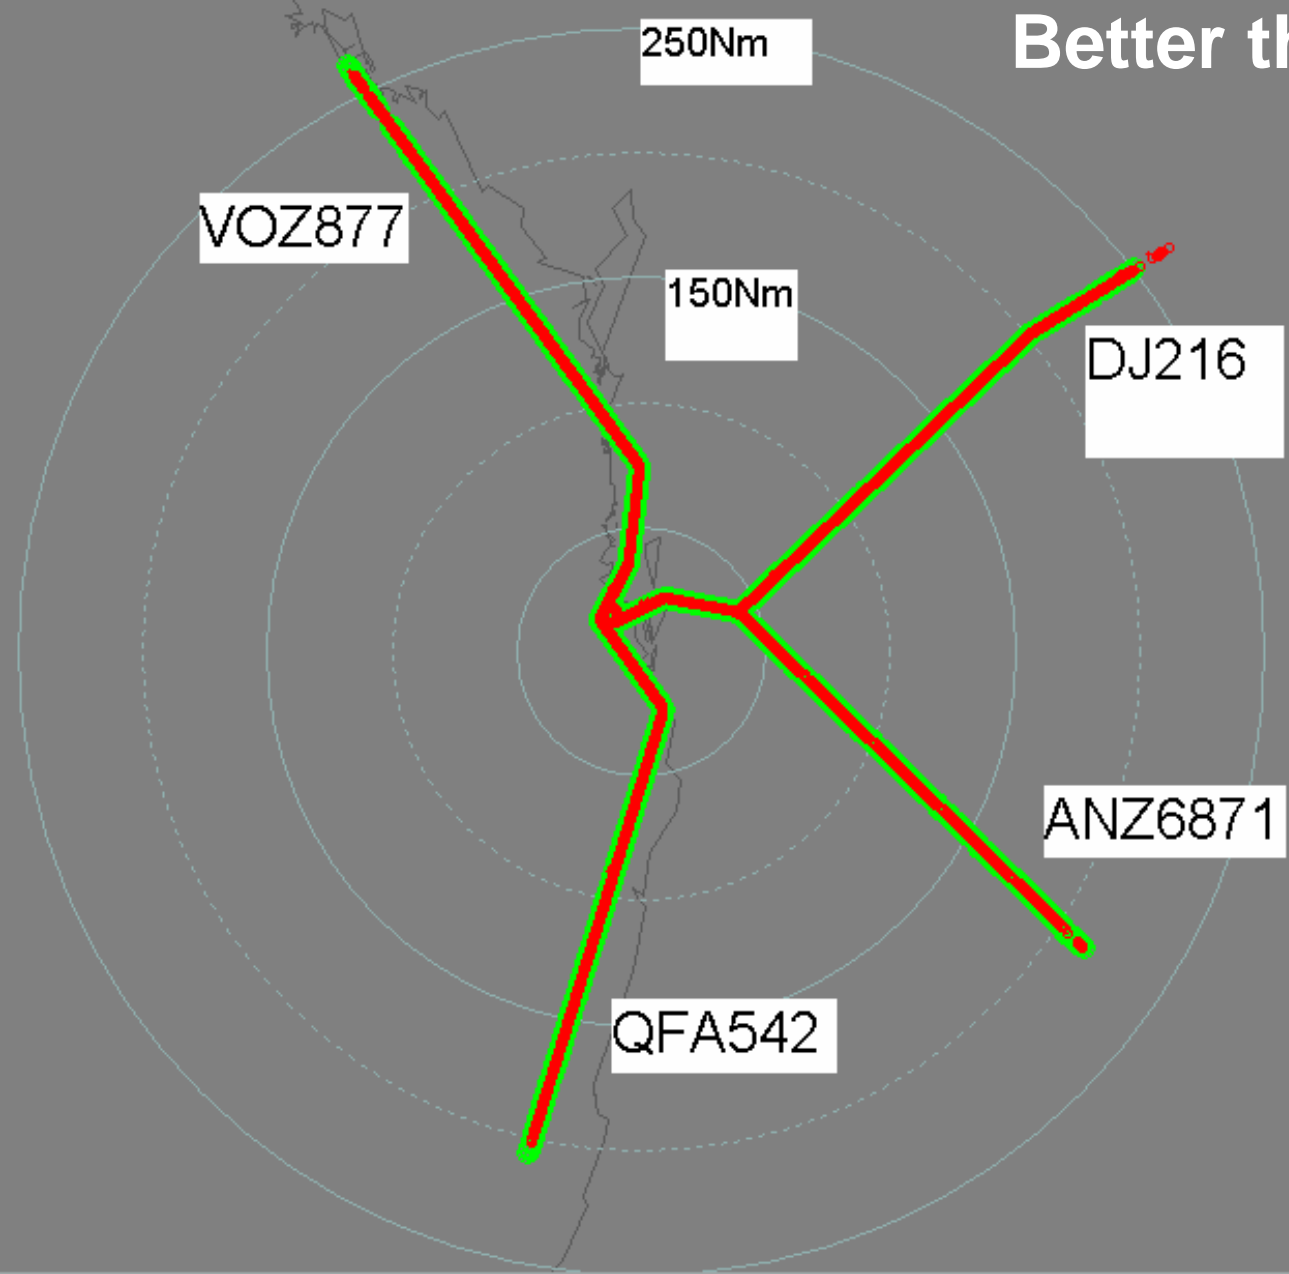

BRISBANE TERMINAL AREA RADAR TOWER

ADS-B ANTENNA

Better than radar

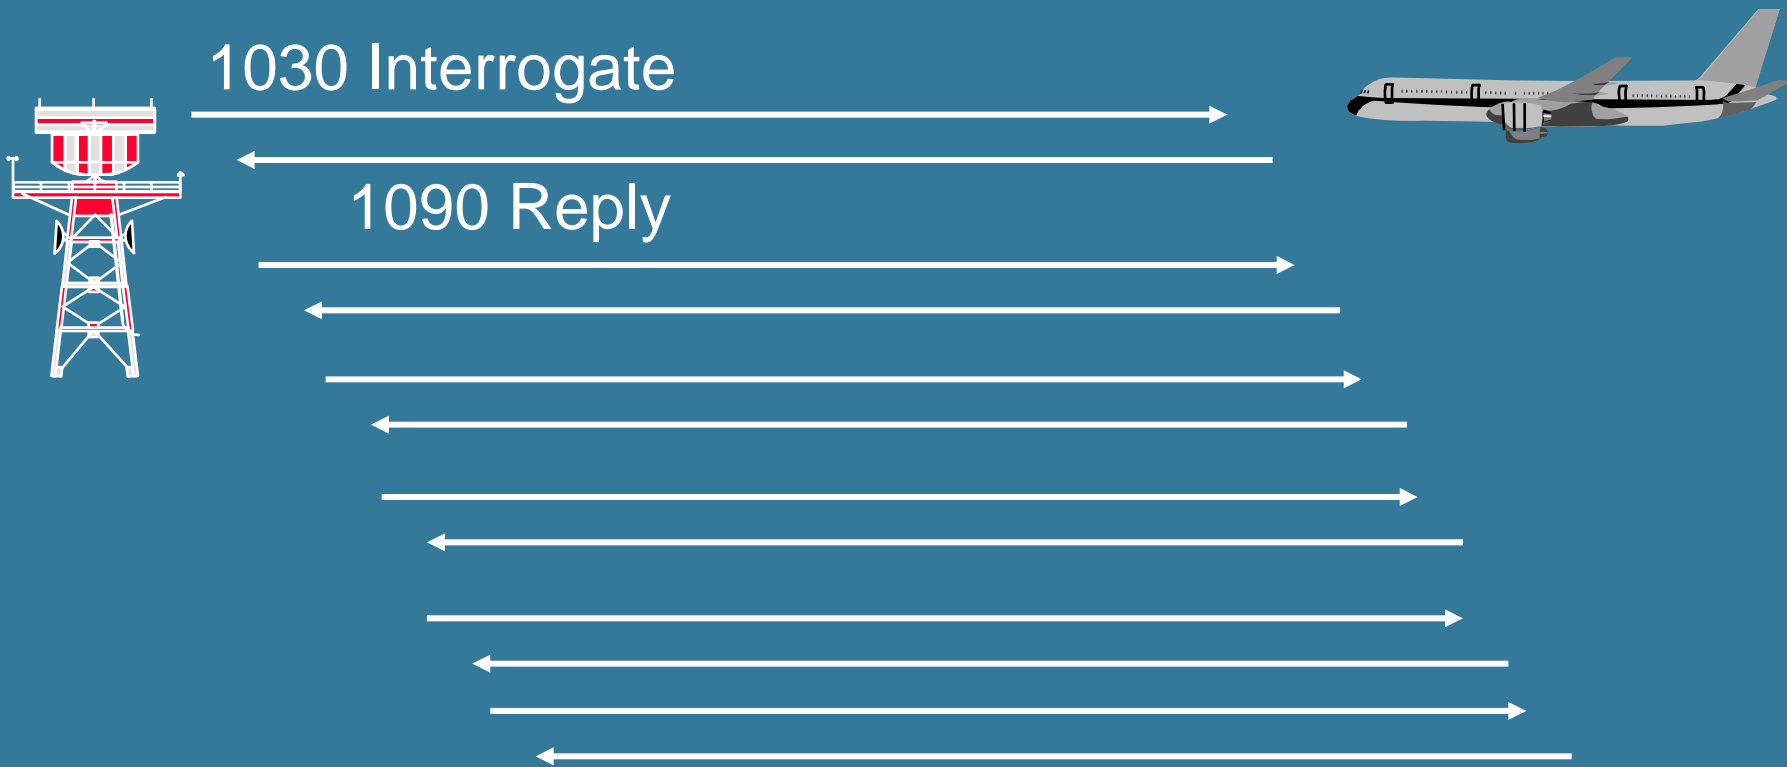

DJ126

220Nm from radar

Radar

At least 4-6 replies required every antenna scan
le: At least 8-10 successful “messages” required

ADS-B

In 5 seconds – 10 position messages

Only 1 needed for 5 second update !

ADS-B & Radar Velocity vectors

(B200 Sharp turn)

Toulouse France Ground station

airspace | airside | AIRSERVICES AUSTRALIA

Airlines have ADS-B now

ADS-B tracks

Melbourne Area

Evening 16 Feb 2005

On screen

QFA - QANTAS

VOZ - Virgin Blue

UAE - Emirates

JST - Jetstar

ANZ - Air New Zealand

HVN - Vietnam Airlines

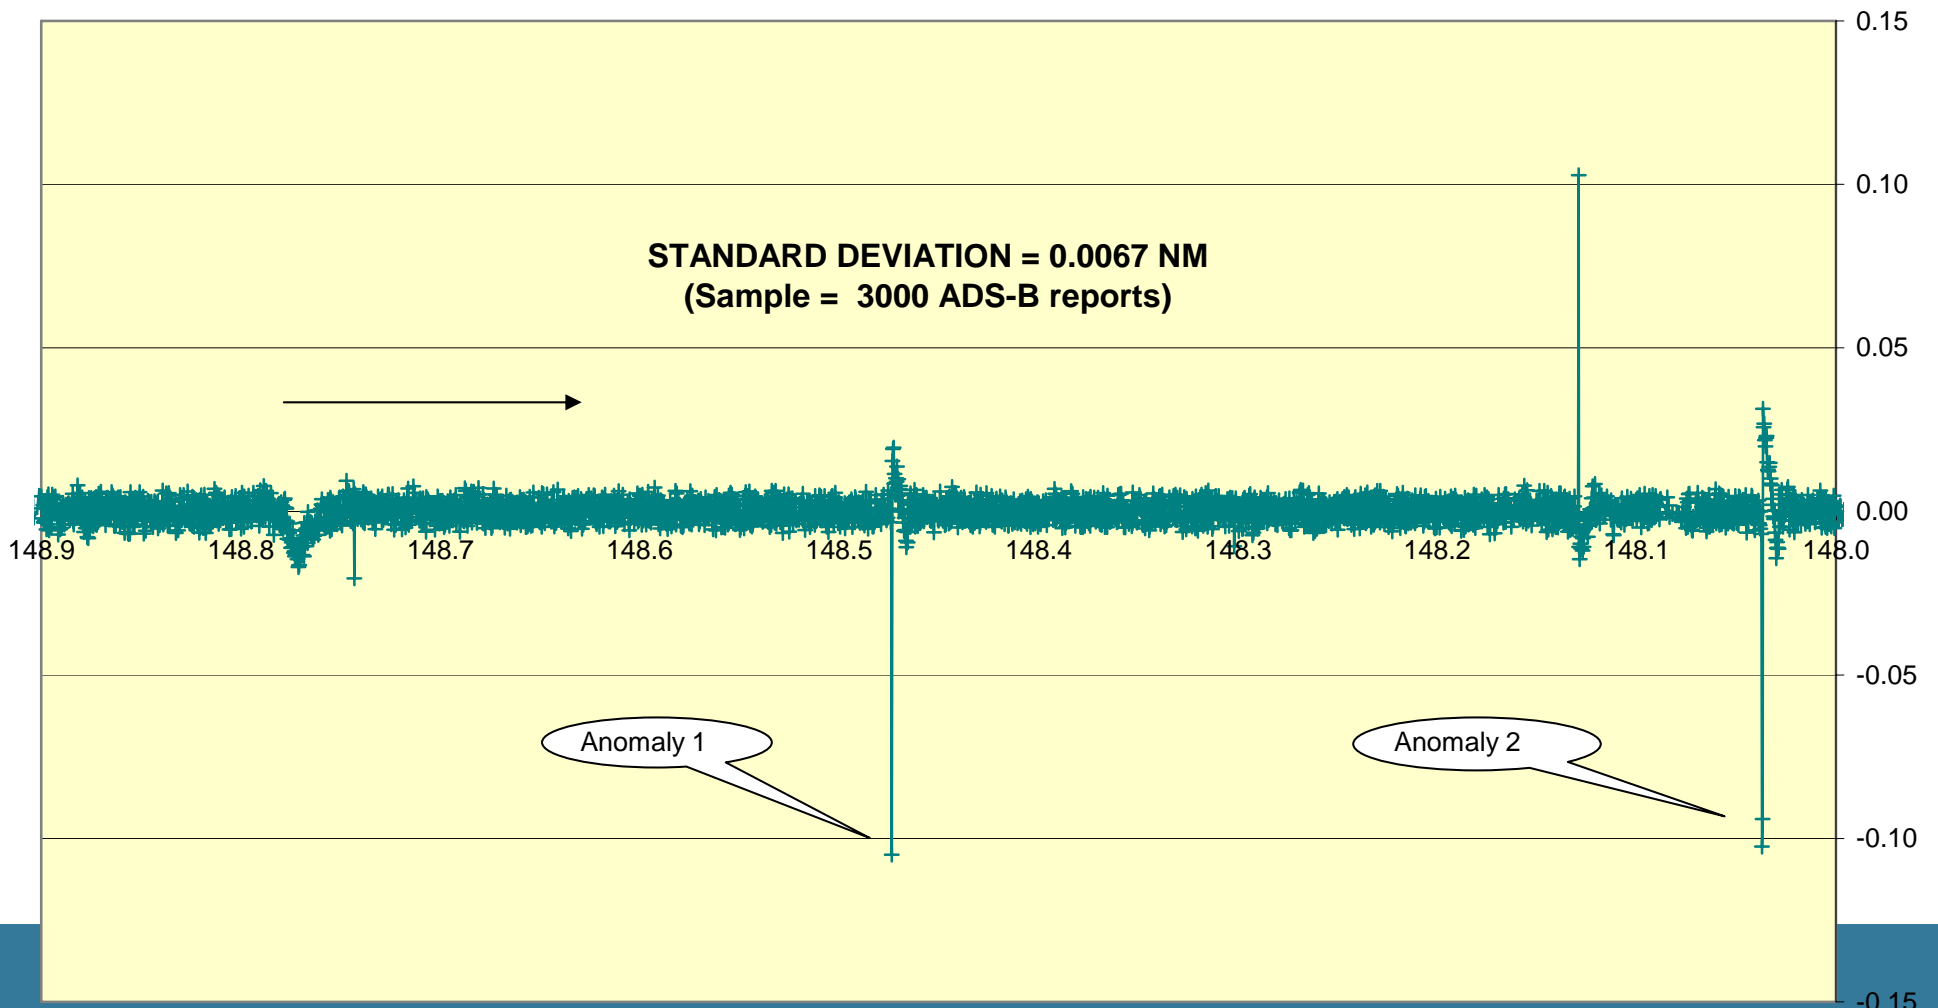

50NM range rings

ADS-B "Noise"

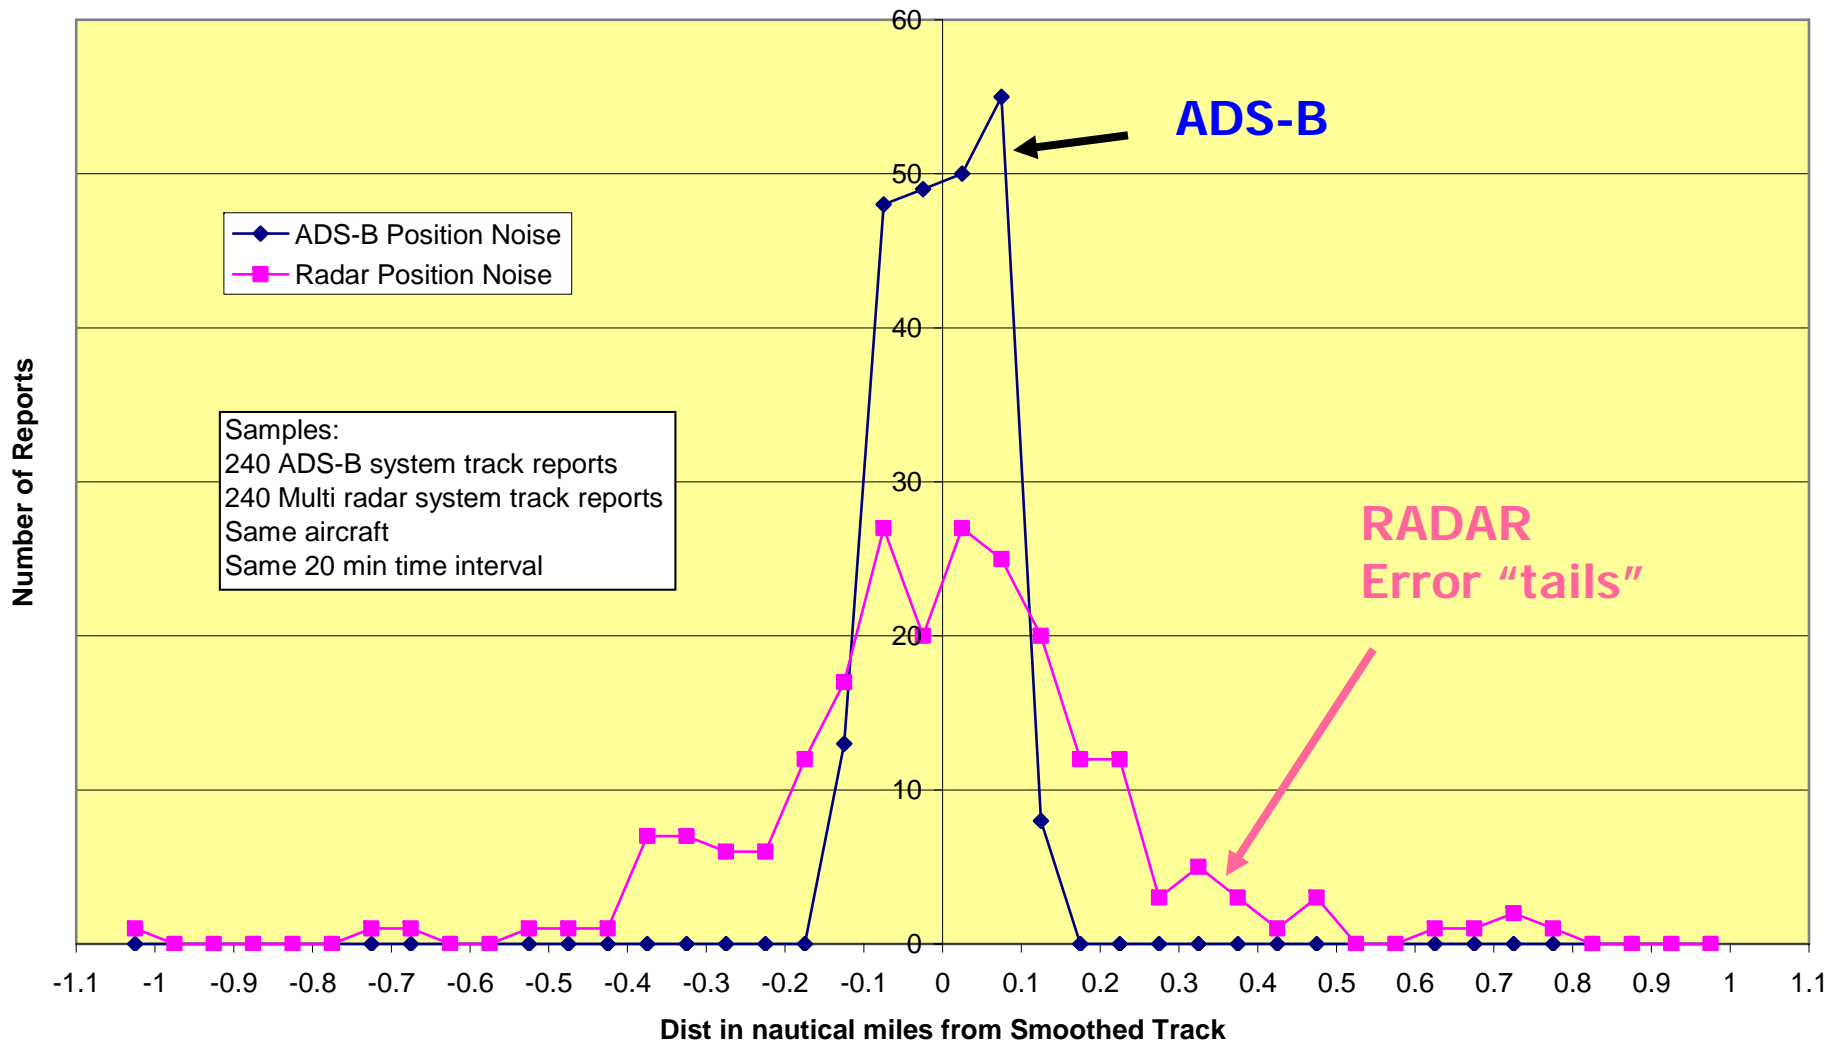

POSITION NOISE IN NM
Actual vs Curve Fit

Radar & ADS-B Noise distribution

VH-QPC System Tracks : ADS-B Position Noise vs Radar Position Noise

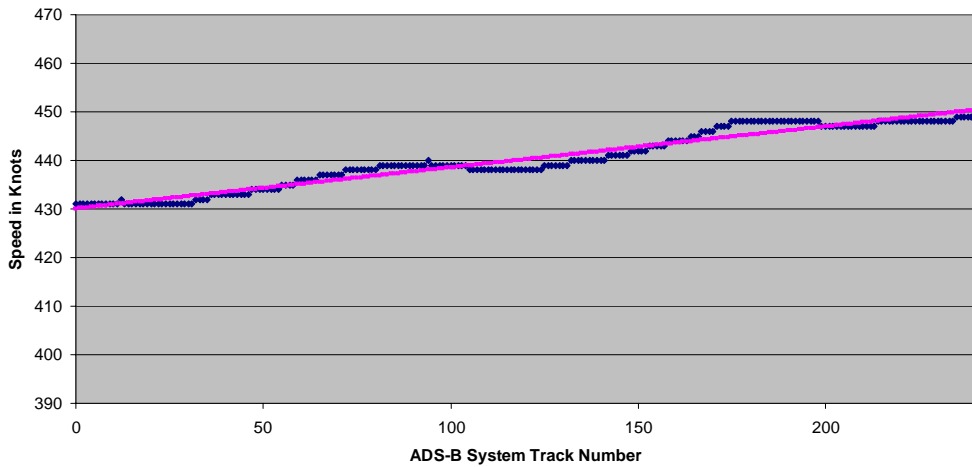

Radar & ADS-B “speed”

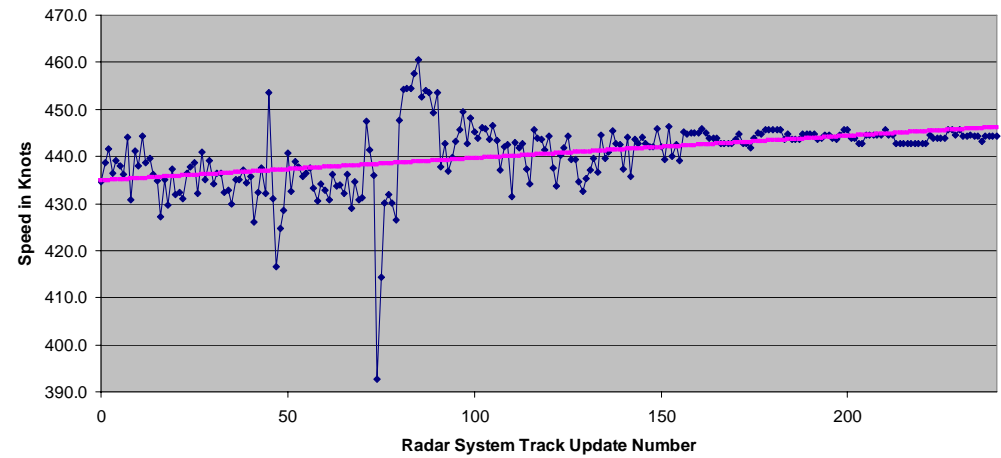

ADS_B

RADAR

ADS-B System Track - Speed

Radar System Track - Speed

Heading noise

ADS_B

RADAR

ADS-B System Track Heading - Variation from Mean

ADS-B System Track Update Number

Radar System Track Heading Variation from Mean

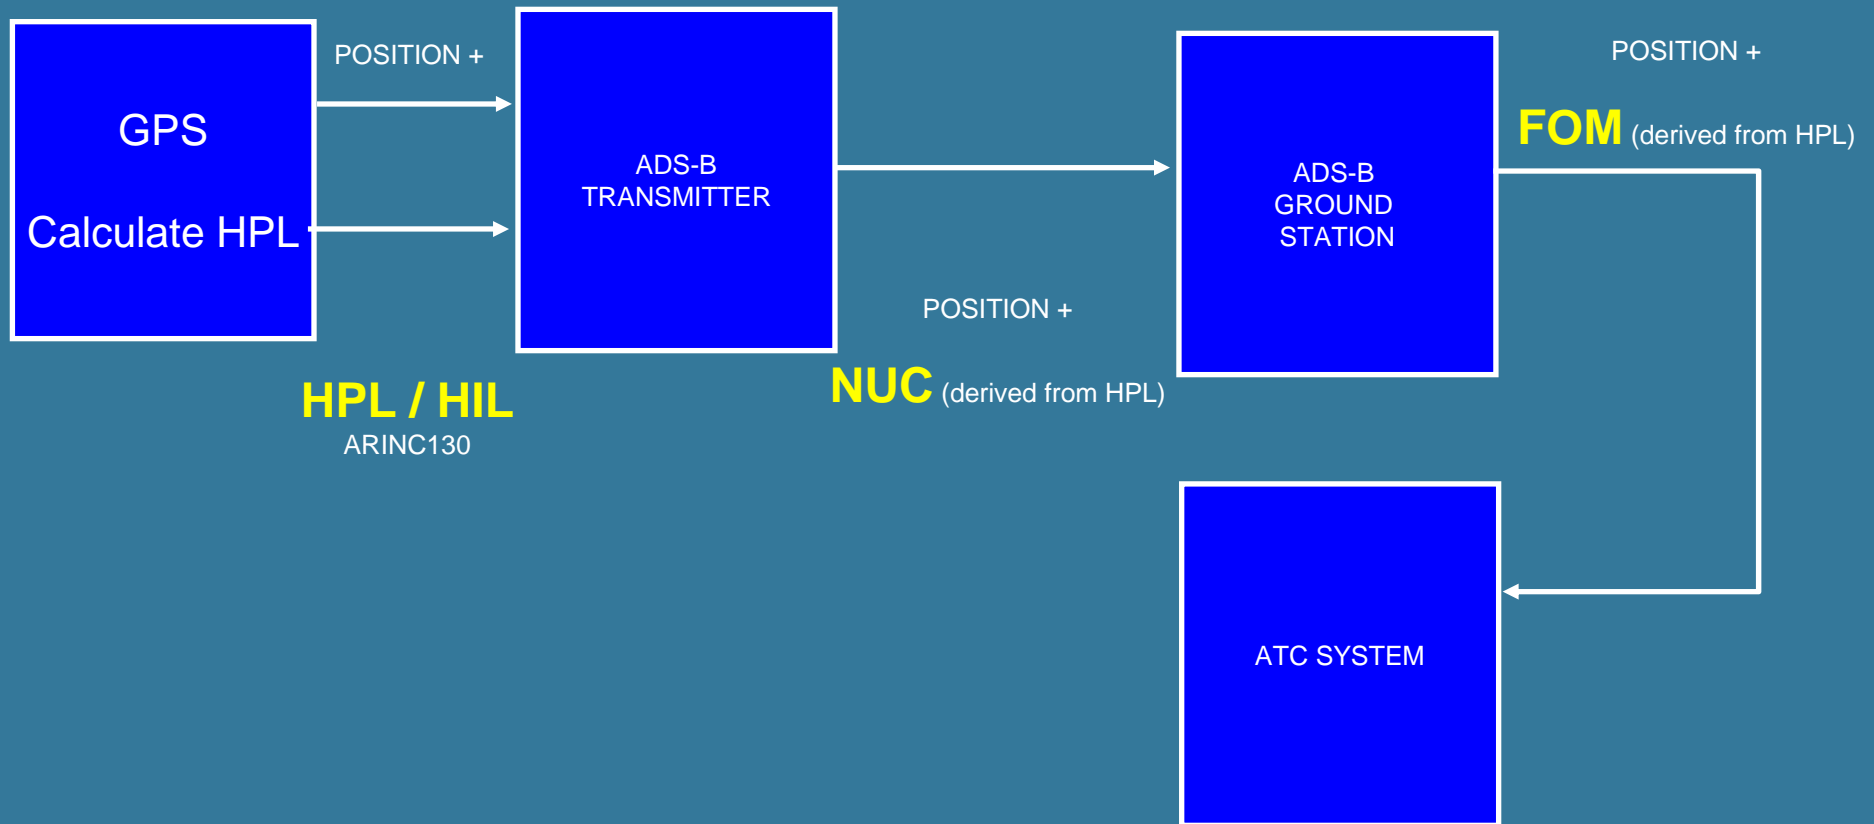

Radar System Track Update Number

Integrity

Integrity data

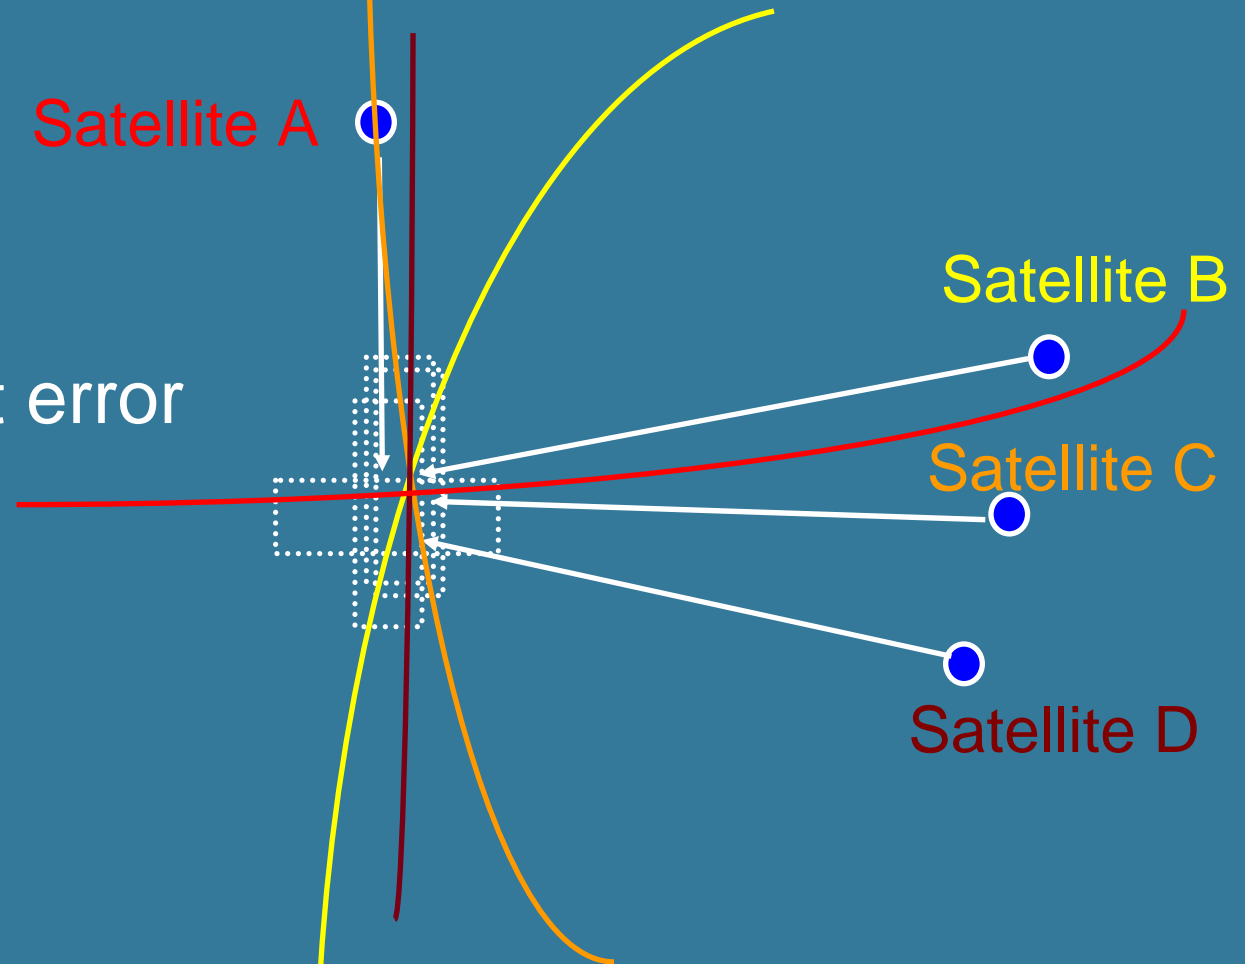

HPL / HFOM

- HFOM : Accuracy measure assuming that all satellites are operating correctly
- HPL : Integrity measure. Positional data within this limit with high degree of certainty (10^{-5} / flight hour)
 - Even if a satellite gives false range data
 - Based on GPS receiver ability to detect satellite false range data given
 - Satellite geometry
 - RAIM algorithm capability
 - Assumption SA on/off
 - WAAS signal received
 - Geo satellite received

Good HDOP / HFOM – Poor HPL

- Good accuracy
- Poor ability to detect error on Satellite A
- Poor HPL

Data “quality” (integrity)

HPL =20 Nm	Discard data
HPL =2 Nm (VSP)	Low Quality ADS-B Not as good as radar : “Situational awareness symbol” Use for CLAM/RAM
HPL =0.5 Nm (VSP)	As good as radar : Display “Good position symbol” Use for separation & safety nets
HPL =0 Nm	
HPL =0 Nm	

Discussion
