International Civil Aviation Organization

Fifteenth Meeting of the APANPIRG ATM/AIS/SAR Sub-Group (ATM/AIS/SAR/SG/15)

Bangkok, Thailand, 25 – 29 July 2005

Agenda Item 10:   Any other business

ICAO RUNWAY SAFETY TOOLKIT

(Presented by the Secretariat)

SUMMARY

This paper provides information on the ICAO Runway Safety Toolkit on CD-ROM.

1.   INTRODUCTION

1.1   The ICAO Runway Safety Toolkit on CD-ROM was produced by ICAO and Embry-Riddle Aeronautical University, Florida, United States as part of a continuing effort to assist States in the implementation of runway incursion prevention programes. This toolkit is the compilation of best available material, obtained over a period of several years, and also makes use of information and knowledge obtained during a series of ICAO seminars on the subject of runway safety, held between October 2002 and October 2004.

1.2   In addition to the above, a Runway incursion prevention manual is under development with the assistance of several States and organizations. It is expected that the seminars, the tool kit and the manual will assist States in reducing the incidence of runway incursions and improve overall runway safety.

2.   ACTION BY THE MEETING

2.1   In order to make optimum use of the runway safety toolkit, States and users are to requested share this material within their respective areas of accreditation. A copy of the CD-ROM *"ICAO Runway Safety Toolkit"* is distributed to the meeting and may be reproduced as required.
