CARACTERISTICS OF CHALLENGES

2

Increased Complexity

Characteristics of Challenges

- 
- **Complex**
 - **Systemic**
 - **Global**
 - **Expensive to deal with**
 - **Multi-disciplinary nature**

HR MOBILIZATION - RESPONSE

3

Response

- Integrated
- Leadership
- Multi-dimensional
- HRD especially Executive Development
- Networking
- Professionalization
- Communities of Practice
- Think Thanks

TRAINING STANDARDS MUST BE RAISED and SILOS MUST BE BROKEN DOWN

Response Tools

- Communities of Practice
- Think Tanks
- PBL
- Continuous Learning
- E-learning
- Talent Management
- Succession Planning
- Practical Focus/Sharing of Best Practices
- Coaching
- Unused Resources
- Formalized Processes

A black and white photograph of a calm lake at dawn or dusk. In the foreground, a small, dark boat is positioned diagonally, its interior visible. The water is still, reflecting the sky and the distant hills. The background shows a range of low hills or mountains under a soft, hazy sky. The overall mood is serene and contemplative.

Self-directed Learning...

GLOBAL ACI-ICAO PROGRAMME as EXAMPLE

4

AMPAP as Example

- Concertation
- Needs-based
- Partnership
- Client-focused
- By practitioners for practitioners
- Career-long learning (Global Community of Practice)

Global ACI-ICAO Airport Management Professional Accreditation Programme (AMPAP)

AMPAP Accreditation

- **AMPAP is the only joint ACI-ICAO programme that leads to the IAP (International Airport Professional) professional designation**

The Hallmark of Excellence in Airport Management

AMPAP – Target Clientele

“All individuals occupying a management position within a civil airport organisation”

AMPAP – Strategic Importance

- Airport management is increasingly complex due to the following:
 - *Commercialization* of airport enterprises
 - Need for adherence to *strict safety/security standards*
 - Growing *capacity constraints*
 - Rapid introduction of new *technology*
 - Expanding role of the *private sector*
 - Evolution of the *airline business models*

Demand for greater, broader and more sophisticated expertise

AMPAP

- Ensure sharing of best practices and applied expertise on a global basis

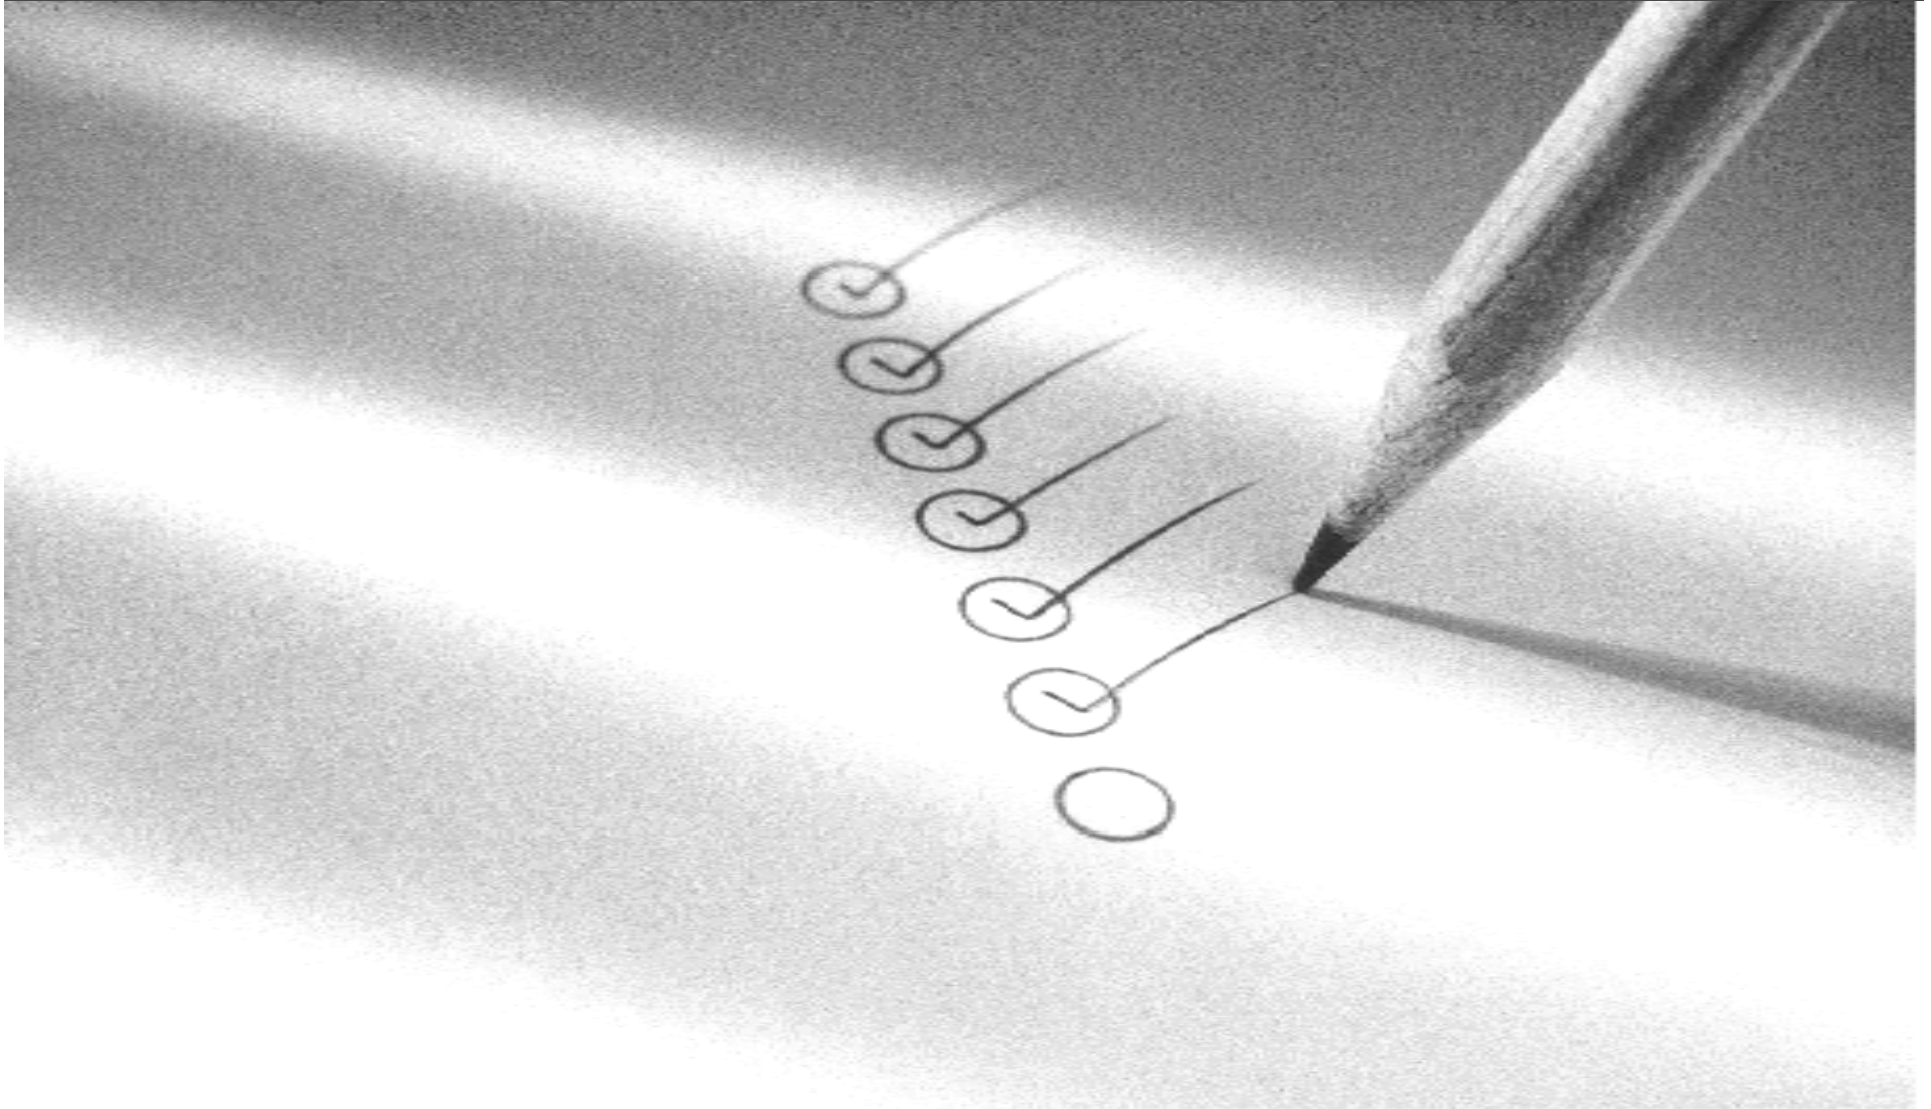

AMPAP – Objectives

- **The dissemination of knowledge about ICAO standards and recommended practices**
- **The sharing of airport management best-practices**
- **The promotion of Airport Management as a PROFESSION**

AMPAP Requirements

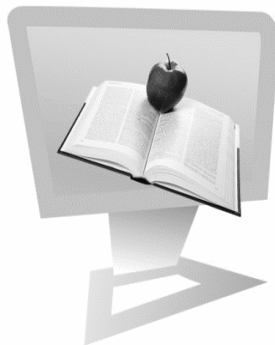

- **6 one-week courses** (or online equivalent)
 - **4 *mandatory courses***
 - **1 course face-to-face delivery**
 - Air Transport System, mandatory entry course
 - **3 online courses**
 - Airport Commercial and Financial Management
 - Airport Operations, Safety and Security
 - Airport Master Planning, Development and Environmental Management
 - **2 *electives offered by ACI and/or ICAO***

AMPAP – Formal Assessment

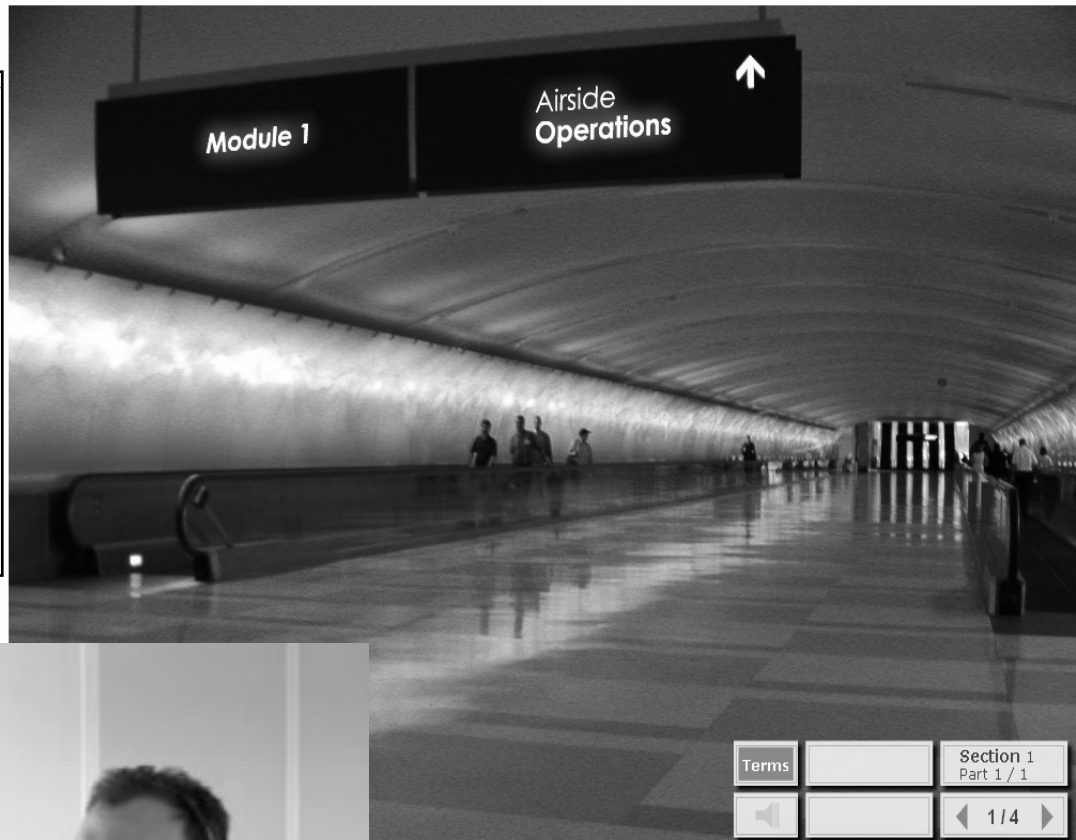

AMPAP – Online courses

AMPAP – Focus on Best Practices

A “best practice” may be defined as a method that, through experimentation in the field and independent research, has been determined to be consistently superior to other methods in achieving desired results.

BENEFITS

Create emotional commitment to your brand by showing concern for the professional well-being of the global airport community and the public that it serves. Expand your brand's global presence. Create positive PR and increase awareness of your enterprise as a whole.

A Message to Accredited Airport Executives

Dear Accredited Airport Executive,

A few weeks ago, I contacted you to announce the launching of the Joint ACI/ICAO Airport Management Professional Accreditation Programme (AMPAP) leading to the International Airport Professional (IAP) global designation. AMPAP is the only international course-based programme to offer both face-to-face and online courses.

Joint ACI-ICAO
 Airport Management Professional Accreditation Programme

It's finally here.
**A joint
 ACI-ICAO
 initiative**

The Hallmark of Excellence in Airport Management

The Joint ACI-ICAO Airport Management Professional Accreditation Programme - AMPAP

Airport management, as a profession, has been faced with growing pressure to establish ways and means of promoting best business practices and to ensure an appropriate degree of standardization of related expertise globally.

ACI and ICAO established a formal partnership to provide accessible, affordable and universally available specialized management training to the global airports community. This initiative gave birth to the Airport Management Professional Accreditation Programme (AMPAP), the programme that leads to the International Airport Management (IAP) designation.

www.iap.aero

Programme Objectives

1. Increase professional knowledge and capability of airport management staff worldwide to improve the performance of airports in their core missions (safety, security, efficiency, quality, social/environmental responsibility)
2. Encourage the adherence to uniform standards and awareness of best practices at the world's airports.
3. Promote the recognition of professional excellence in airport management.
4. Expand communication among airport management staff globally so as to optimize knowledge sharing among the world's airports.

The hallmark of Excellence in Airport Management

AMPAP First Graduation Sept. 2008

IAP Candidates - Comments

“This course had excellent content, good teaching and a participatory approach which all made it valuable for me. I recommend that our company continue to send management level personnel to this programme”

Hedehisa Matstumoto, Manager, International Policy and Planning,
Tokyo Narita International Airport

CONCLUSION

5

Conclusion

- **Multi-disciplinary nature**
- **Networking**
- **Think twice before cutting executive development**
- **Demand Value for Money**
- **Outlook is bright**

An hourglass with a dark wooden frame and glass bulbs, set against a dark background. The hourglass is positioned centrally, with its two glass bulbs and the connecting neck clearly visible. The wooden frame has a classic, slightly ornate design with a flat top and a matching base. The background is a dark, textured gray, providing a subtle contrast to the hourglass.

A Degree of Urgency...

Thank you
