**Swordfish**

A close-up, artistic photograph of a human eye. The eye is looking directly at the camera. In the center of the iris, there is a clear reflection of a camera lens, showing its internal elements and a circular pattern. The overall image has a dark, moody, and slightly desaturated color palette, with the eye's natural colors appearing muted. The text is overlaid in white, providing a stark contrast to the darker background.

A person with curly hair, seen from behind, sits on a dark stone wall. They are looking out over a city at sunset. The city features several church spires and domes, with a prominent blue-domed structure on the left. The sky is a mix of orange, yellow, and blue, with some light rays visible. The foreground shows the stone wall and some low-lying plants.

The background image shows two silhouetted figures in a dark environment. A bright, glowing circular light source is positioned between them, casting a strong light. The entire scene is filled with a dense, chaotic web of thin, golden-yellow lines that radiate from the light source, creating a complex, almost crystalline structure. The figures are standing on a dark, uneven ground.
