

ICAO WORKSHOP ON AVIATION AND SUSTAINABLE ALTERNATIVE FUELS

18 to 20 October 2011

PRELIMINARY PROGRAMME

18 October 2011

- * Setting the Scene
- * ICAO Global Framework for Alternative Aviation Fuels (GFAAF)
- * Consortia:
Updates on Latest Developments

19 October 2011

- * Research and Qualification
- * Development and Deployment

20 October 2011

- * Legal and Regulatory Framework
- * Accounting, Life Cycle Analysis, Sustainability
- * Financing Alternative Fuels

ICAO WORKSHOP ON AVIATION AND SUSTAINABLE ALTERNATIVE FUELS

18 to 20 October 2011

Sustainable alternative fuels are a key element of the strategy toward reducing the carbon footprint of aviation.

This ICAO Workshop is an opportunity to enhance dialogue among States, financial institutions, fuel producers and operators regarding access to financing for sustainable alternative fuels projects.

Building upon the achievements of the ICAO Workshop and Conference on Aviation and Alternative Fuels held in 2009, and the results of the 37th Session of the ICAO Assembly in 2010, this ICAO Workshop provides a forum for the exchange of information on the state of worldwide activities on sustainable alternative fuels for aviation. Among others, discussions will revolve around the state of the global harmonization of life cycle analysis methodologies, sustainability criteria, and legal and regulatory frameworks which ensure the availability of supplies of sustainable alternative fuels for aviation.

The Workshop will also address the role of sustainable alternative fuels as part of the measures available to States for inclusion in their action plans to reduce CO₂ emissions.
