

Jean-Francois LA MANNA

Principal, Harmonie technologie

jean-francois.lamanna@harmonie-technologie.com

Jean-François LA MANNA graduated with an Aeronautical Engineering Diploma from the French Air Force Academy where he began his career. He both holds a Business Consulting Master's Degree from ESCP Europe International School of Management and a Telecommunications Engineering Diploma from TelecomParisTech.

Jean-François is an international expert in identity management and has more than 30 years of professional experience. He is veteran from the Gendarmerie and French Ministry of Interior. Based on his expertise in cyberdefence and security technologies, identification and mobility, biometrics, digital signature and trust infrastructure, he worked as a Project Director at the French Ministry of Interior, and as an active participant to the ICAO MRTD/TRIP TAG (Technical Advisory Group) and its related working groups.

Jean-François developed a large experience in helping Aviation Security and Facilitation stakeholders especially in West Africa. He recently joined Harmonie Technologie, specialised information security consulting firm and offers his expertise in identity management and ICAO Standards and recommended best practices to organisations.
