& MODEL ICAO FORUM

About Airport XYZ

- Situated in Parkland
- Member of ICAO
- Audit was done, finding 2 main problems
lack of a Quality control Programme and
improper Screening of Passengers

ICAO

NGAP GLOBAL SUMMIT & MODEL ICAO FORUM

ICAO

NGAP GLOBAL SUMMIT
& MODEL ICAO FORUM

CONDITIONS

1. Ensure that the legislations are in accordance with the ICAO SARPs (Standard recommended rules and practices)
2. Ensure that our staff go through the proper training channels.
3. Must write a document of Reference.

ICAO

NGAP GLOBAL SUMMIT
& MODEL ICAO FORUM

Problems

1. Airport has one walk through Metal Detectors at each lane.
2. Major security issues caused by personnel do not act and allow passengers to go through.
3. No audits are being conducted regularly as there is a high demand on auditors.
4. There is terrorist action in our neighbour airport, and intelligence says that these people might try to strike again.
5. The incident that happened in the nearby airport, the adversary's bomb was made of non-metallic components, and currently we do not have the proper instruments.
6. Internationally and nationally, adversaries might target our airport as it is easier to get away with acts of unlawful interference, putting in danger all of the other countries due to the incompetence of their staff.

Solutions

We must focus on the short term solutions,
as the budget.

The lack of money is the root
of all evil.

Mark Twain

ICAO

NGAP GLOBAL SUMMIT & MODEL ICAO FORUM

2.1.1 Each Contracting State shall have as its primary objective the safety of passenger personnel and the general public in all matters related to safeguarding against interference with civil aviation.

3.4 Quality control and qualifications

3.4.4 Each Contracting State shall require the appropriate authority to develop, implement a national civil aviation security quality control programme to determine compliance with effectiveness of its national civil aviation security programme.

3.4.5 Each Contracting State shall ensure that the implementation of security measures is regularly subjected to verification of compliance with the national civil aviation security programme. The priorities and frequency of monitoring shall be determined on the basis of risk assessment carried out by the relevant authorities.

3.4.6 Each Contracting State shall arrange for security audits, tests, surveys and inspections to be conducted on a regular basis, to verify compliance with the national civil aviation security programme and to provide for the rapid and effective rectification of any deficiencies.

3.4.7 Each Contracting State shall ensure that the management, setting of priorities and organization of the national civil aviation security quality control programme shall be undertaken independently from the entities and persons responsible for the implementation of the measures taken under the national civil

ICAO

NGAP GLOBAL SUMMIT
& MODEL ICAO FORUM

Based on this Annex 17, 3.4.5, every state should ensure the implementation of security measures, this includes the following:

ICAO

NGAP GLOBAL SUMMIT
& MODEL ICAO FORUM

1. Must make use of all the tools that are stored away, in this case, we should be using the two explosive trace detectors, as the only security measure used at the moment is the walk through metal detectors.
2. Must also use other tools such as pat downs.
3. Must have more competent staff, and follow rules and regulations in accordance with the enforcement measures found in the Quality Control Programmes (NQCP)

ICAO

NGAP GLOBAL SUMMIT
& MODEL ICAO FORUM

Long Term Solution

1. Implement body scanners, as well increasing technical standards for safety and security.
2. Implement a data base for adversaries (API - Advanced Passenger Information)
3. Participate in PKD (Public Key Directory)
