Prints a Baggage tag

Weighs and registers a Baggage

Scans your ID, passport,  
e-ticket and e-boarding pass;

Takes cashless payment,  
scans credit cards

# Where is iJan located?

## Transformation

Paid airport check-in motivated passengers to use free online check-in.

Now more than 90% of FlyArystan passengers use online check-in.

To make the process of online check-in even faster and smoother we present our plans for enhancement.

# 90%

## ID-scanning during Online check-in

**Efficiency** Faster check-in process, shorter wait times.

**Accuracy** Reduced data entry errors, minimizing boarding issues.

**Security** Enhanced fraud detection, better compliance.

**Customer Experience** Improved satisfaction, repeat business.

**Cost Savings** Reduced labor costs over time and reduce costs for same soft from other vendors.

**Competitive Edge** Attracts tech-savvy passengers.

**Revenue Generation** Increased passenger numbers.

After iJan

What's next?

## Baggage Drop-Off

- automated – no agent needed
- weighs, scans and checks the data from the baggage tag and stickers
- if the data on the baggage does not match with system's data, the warning sign appears on the screen – the baggage is not accepted
- if the data matches – the baggage is accepted
