HID Global Government ID Solutions: Unique In the Secure ID Market

Unmatched depth and breadth of offerings

- Broad portfolio of products to build solutions
- Recognized, proven brands: Deep installed base
- Innovation – multiple groups within HID bring subject matter expertise
  - Flexibility – leverage in-house experts and deployment experience for best overall solution
- Commitment to customer and proven success
  - Stellar reference accounts and customer relationships
- Reliable long-term partner
  - Financial strength; global presence

We offer all products, system design, software development, integration, installation, training, consulting and in-country support
Why This Matters

Integrated solutions + in-house expertise = reduced risk + increased ROI

- Projects delivered on time and on budget
- Extensive portfolio of interoperable state-of-the-art products and solutions
- Deep experience in major national projects worldwide
- History of customer-inspired innovation and continuous development
- Enhanced customer value through quality, innovation and superior service
Core Differentiators
Eco-system of Products, Modules and Systems

Secure Card Issuance
- Global Leader in Secure Card Issuance
- +30 years of manufacturing excellence
- 200,000 systems shipped world-wide

Optical Security Media
- Unparalleled protection
- Reliable visual authentication
- Tamper-proof & highly counterfeit resistant

Credential Management System
- Deployed in a broad range of government and national ID programs
- Supports a wide range of issuance paradigms to suit varying customer needs

Government Readers
- Deployed in major government and national ID programs
- Universal platform
- Adaptable, flexible and scalable

Contactless Inlays and Prelaminates
- Used by 25+ governments to secure citizen ID and travel documents
- Used in scanners at border crossing and immigration stations worldwide

Expertise
- Strategic advisor globally
- Deep industry experience
- Unmatched interoperable, in-house products
Global Leader in Secure Card Issuance
FARGO® Card Printers

- 30 years of manufacturing excellence
- +250 experienced people dedicated to designing and providing ID security solutions
- +140,000 systems shipped worldwide
- Global sales, support and manufacturing
- +80 approved patents with over 70 pending
- Leader in desktop HDP printing technology
- Versatile for every size and scale of project
  - Range of performance levels
  - Multiple security options
  - Centralized or decentralized
A Key Differentiator

LaserCard® Optical Security Media

- **Unrivalled visual and physical security**
  - Visual authentication, tamper-proof, strong counterfeit resistance

- **Unequalled durability**
  - Polycarbonate platform
  - Long-life, withstands harsh conditions

- **Scalable and secure data storage**
  - Update, modify, or upgrade without reissuing credentials

- **Portable biometric data**
  - Facial, fingerprint and/or iris images; supports
  - Secure off-line ID verification

- **In highest-security programs worldwide**
ActivIdentity® Credential Management System (CMS)

- **Proven**
  - Used to issue more than 30M smart card based credentials worldwide
  - Deployed in broad range of government and national ID programs

- **Flexible**
  - Designed/architected for tomorrow’s needs
  - Provides the means for external systems to control CMS
  - Plug-in architecture allows customization

- **Enhanced value**
  - Part of HID Global Government ID Solution standards
  - Works with Omnikey readers, FARGO® printers and HID smart cards

- **Manages full life cycle of Government ID deployment**
  - Definition – Enrollment – Issuance – Post-Issuance – Usage - Upgrade
Extensive Line of Government ID Readers

Deployed in a broad range of government and national ID programs

- RFID modules used by top five scanner suppliers
- Used in Canada, Egypt, France, Germany, Italy, Netherlands, Norway, Portugal, Sweden, Russia, UK, US
- Flexible product range from core to terminal solution
- Readers are optimized to work with:
  - ePassports and eVisas
  - National eIDs, eRPs and eDriver Licenses
  - Health care cards
  - Military and government applications
Trusted Leader in Contactless Inlays and Prelaminates

32- or 64-page electronic booklets
- Chip in cover or data page

Customizable security features
