

AVIATION UNIVERSITY FORUM

Date: Wednesday, 12 December 2018

Venue: Wuzhou Guest House, No. 6001 Shennan Avenue, Futian District, Shenzhen, CHINA

Time: 1000 – 1130 hours

Join us to learn more about a soon-to-be-established International Association of Aviation and Aerospace Education during the **AVIATION UNIVERSITY FORUM** on **12 December 2018 from 1000 a.m. to 1130 a.m.**

The **AVIATION UNIVERSITY FORUM** is one of the activities that will be held during the Second ICAO Next Generation of Aviation Professionals (NGAP) Global Summit (NGAP/2) that will be convened at Shenzhen, China, from 12 to 14 December 2018.

The **AVIATION UNIVERSITY FORUM** is a unique networking opportunity that will be made available to Universities to allow discussion and provide further information on the International Association of Aviation and Aerospace Education. The aim of this association will be to lead, represent, promote and advocate the interests of universities that offer aviation-related programmes at the global and regional levels. As an example, this international association will become involved in the work of the ICAO NGAP Program, which is of interest to many stakeholders: States, industry, higher education institutions and others.

A number of universities are planning to attend NGAP/2 and sign a [Statement](#) in support of the establishment of this association. Please join other universities in supporting the establishment of this association, either through:

- a) signing the Statement in person at the Second ICAO NGAP Global Summit;
- b) expressing your support of this Statement by email. In this case, please send the name of your university, logo, the name and title of the person who is representing the university to NGAP@icao.int; or
- c) print and sign the Statement, and send a scanned copy to NGAP@icao.int.

In the case of either b) or c), we will add your University to the list of supporting universities on the original Statement to be signed in Shenzhen.

For more information about the International Association of Aviation and Aerospace Education, please contact Mr. Pascal Revel at pascal.revel@enac.fr.
