ICAO Air Transport Bureau
Doc 9184 first published in 1999

Third version from 2002

Need to update the Manual

Request to include Green Airport infrastructures and management
CAEP/9 agreed to WG2 Task O.06

Update to Airport Planning Manual, Part 2, Doc 9184. Incorporate eco-friendly airport planning (e.g. Infrastructure decisions that facilitate environmentally-friendly airports) and best practices in land-use planning and management.

The deliverable is described as an “updated manual” to be ready for the CAEP/10 meeting in 2016.
The update of the APM, Part 2 involves incorporating two aspects:

- **Eco-friendly airport planning** (e.g. infrastructure decisions that facilitate environmentally-friendly airports)

- **Best practices in land-use planning and management**

---

**State Letter sent to invite States to contribute and fill the form**

(reference AN 1/17- IND/13/7- via a survey to collect more information from participating Member States on the land-use planning and management aspect)
THANK YOU!
