**1. Introduction**

1.1 At the Fifth Meeting of the AVSEC/FAL/NAM/CAR/SAM Group held in Lima, Peru, a Working Paper was presented informing on the result of the work performed on the “Procedure for the screening of passengers and their carry-on baggage and the list of prohibited articles”.

1.2 In the aforementioned Meeting it was recognized that the task was completed, but that the Working Group should continue the activity to update the List of Prohibited Articles and meet the objectives of said Programme and its Project. It was also agreed then to keep Chile as leader of this Working Group.

1.3 The results will be published taking advantage of the data base (DB) and LACAC web page, in order to disseminating and making this information available to all Member States of the AVSEC/FAL/RG.

1.4 During 2015, and using as liaison and coordination center AVSEC officers of NAM/CAR y SAM regions, via e-mail they were twice requested to circulate among the States, the list of prohibited articles with the purpose of updating them and to send through said means their input.

1.5 With the available information, an update of the enclosed list was made (**Appendix A**, only in Spanish). Likewise, the proposal of considering a table of restriction of dangerous goods was accepted (**Appendix B**, only in Spanish), a contribution of the Argentinian expert Mr. Marcelo Filippi Ledo. Both documents are useful tools for passengers and baggage screening procedures at aerodromes and could also be standardized.

## **2. Discussion**

2.1 Taking into account that works presented, corresponding to Phases 1 and 2 “Procedure for screening of passengers and their cabin baggage and the list of prohibited articles” , were already finished and were assessed as good work instruments for States, it was concluded that based on the result of these documents it is suggested to consider this task completed.

## **3. Action suggested**

3.1 The meeting is invited to:

- a) take note of the information presented in this Working Paper, recognizing that it is a contribution to the standardization of the AVSEC/FAL RG ICAO LACAC Group States; and
- b) consider this task as finished, being available for States for future updating.
