

**Mr. Vitaly Munirov**  
Founder & CEO of CURSIR

Mr. Munirov has 14 years of experience in the aviation industry. Head of RTS Union, Russian landing and navigation system manufacturer.

Cursir is a separate project. Professional team develops drones for flight inspections of navigation aids. We know how to help airports and air navigation service providers reduce flight inspection expenses by 50%, improve flight safety, and stop depending on the inflexible schedule of aircraft laboratories.
