## Task Force - Airspace Optimization

### TASK FORCE ON IMPLEMENTATION OF PERFORMANCE-BASED NAVIGATION (PBN) AIRSPACE CONCEPT

Based on the NACC/WG Terms of Reference for expediting the work progress and to focus on the regional priorities, and considering the existence of various Ad hoc Groups that were working in support of the implementation working groups, such as the ADS-B Ad hoc Group, the AMHS Implementation Group, etc., the NACC/WG considered necessary to group them under the NACC/WG structure, including any other specific implementation task group, with the aim of providing continuity. In this regard, seven topics that shall be developed through Task Forces under the NACC/WG were formed.

Rapporteur: **Riaaz Mohammed**, Trinidad and Tobago.
