 Events in Civil Aviation (CAPSCA/08) Americas Meeting**
 Mexico City, 27-29 February 2024

Agenda Item 2: Review of action points from last meetings

LIST OF ASSISTANCE VISITS

(Presented by the Secretariat)

EXECUTIVE SUMMARY

The CAPSCA initiative started in 2010 with technical visits conducted in all the different ICAO regions. These visits helped to give an overview of States' preparedness against communicable diseases, set basic recommendations for the States, and serve to test and improve checklists. After that first batch of technical visits, the following ones were organized under petition of States/Territories.

This information paper lists all the technical missions carried out in the NAM, CAR and SAM regions indicating dates of the mission and participants.
