South American Regional Office

FIRST MEETING FOR THE DEVELOPMENT OF THE SOUTH AMERICAN REGION AVIATION RECOVERY STRATEGY IN RESPONSE TO COVID-19

EXECUTIVE REPORT

(29th, April 2020)

FIRST MEETING FOR THE DEVELOPMENT OF THE SOUTH AMERICAN REGION AVIATION RECOVERY STRATEGY IN RESPONSE TO COVID-19

1. INTRODUCTION

The first meeting for the development of the Aviation Recovery Strategy for the South American Region was held online on April 29th, 2020, in response to the conclusion of the extraordinary online Meeting of SAM Region Civil Aviation Directors (DGCA SAM RAAC/17), held on April 24th, 2020 for the Response to COVID-19.

During the RAAC/17, the Directors requested that a strategic working group be established to develop the guidelines for the regional recovery strategy, which would include the collaborative effort between States, industry, regional organizations, SRVSOP, in close coordination with CAPSCA and other international organizations.

1. OPENING VIRTUAL MEETING

Mr. Fabio Salvatierra, AGA Regional Officer, opened the meeting thanking the participants for their attendance and providing instruction on the development of the meeting including the administrative aspects of same.

2. ATTENDANCE

Fifty-two experts attended the meeting for the development of the Regional Strategy including of the South America Region Civil Aviation Authorities, UK CAA and international organizations and aircraft manufacturers such as IATA, CANSO, AIRBUS, IDB, OPS, IFALPA, ACI-LAC. The list of participants is shown on page 4 of this report.

The meeting was held through virtual means using Zoom and Mural platforms, and was conducted in Spanish and English.

3. DEVELOPMENT OF THE VIRTUAL MEETING

The attendees were informed that the main objective of the first meeting for the development of the Regional Recovery Strategy for the South American Region, was to identify the key strategic activities that should be included as part of the plan. In this regard, a brainstorming exercise was carried out where the participants were divided into six working teams in independent virtual rooms (breakout rooms) so that each team identified the activities that should be included in the SRP-SAM.

The Mural application was used as the tool for the brainstorming activity using a "canvas" divided into six sections (Fig I):

1. Challenges
2. Aspiration
3. Focus Areas
4. Guiding Principles
5. Activities
6. Outcomes
7. Stakeholders

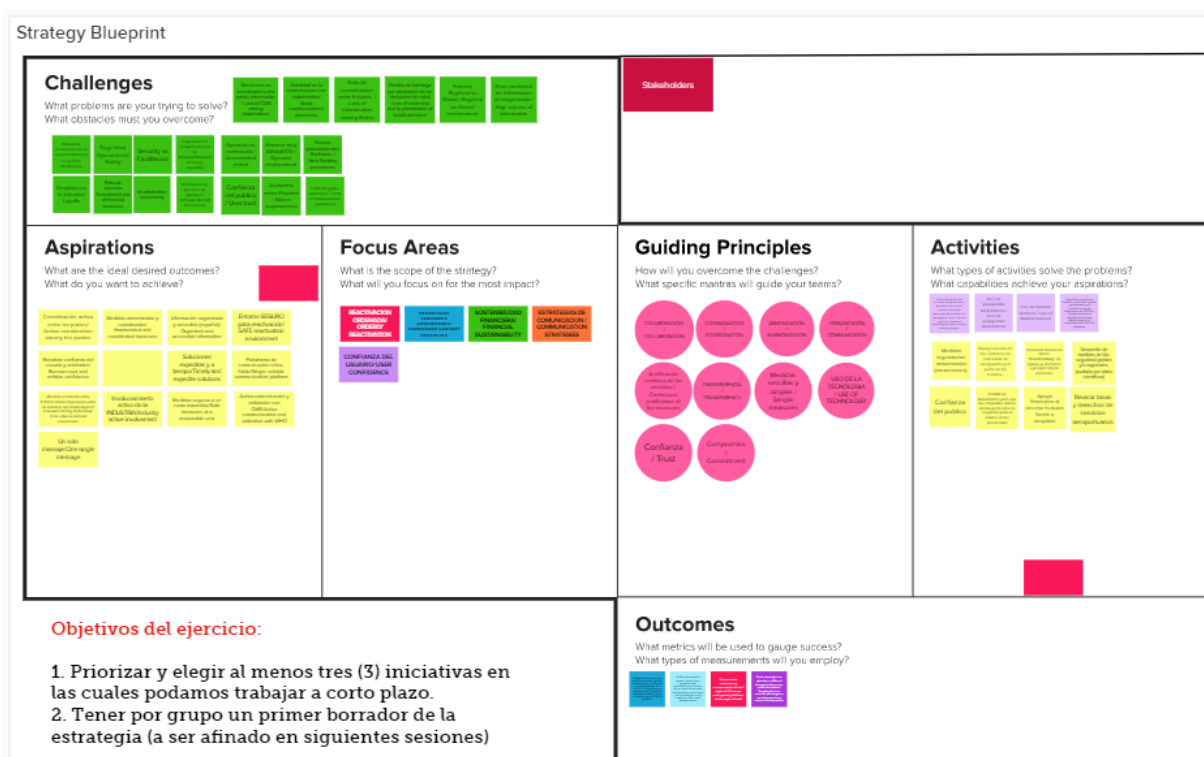

Fig. I

Each team worked validating the information proposed by the SAM Office, adding the tasks that they considered essential to be included in the Regional Strategy.

For this activity, each team had 45 minutes and two facilitators from the SAM Office for each virtual room. The teams included representatives from all the organizations, and each team chose a rapporteur to present the results.

At the end of the brainstorming exercise, the plenary meeting was called again to present the results. The strategic planning exercise would continue asynchronously and improve in the next working sessions. With the progress made in the exercise, the Secretariat would take some immediate actions that would be analyzed in the next online meeting.

As part of the information shared during the meeting, the PAHO expert reported that although there are reliable tests for the detection of COVID-19, at the moment, it is not appropriate that the laboratory results be used to determine the access of passengers to aircraft.

From the health perspective, the main interest is that the country of destination has the appropriate conditions to treat any passenger who may eventually be detected with COVID-19, so it is recommended that at this time, do not consider the use of the test as a safety measure in the air transport context.

The first meeting concluded with the words of ICAO SAM Office Deputy Director, Mr. Oscar Quesada, thanking the participation, collaboration, and contribution of all the experts, informing that the second working meeting would be scheduled for Tuesday, May 5th, 2020.

LISTA DE PARTICIPANTES / LIST OF PARTICIPANTS**ARGENTINA**

1. Diego Sebastián Idiart
2. María Cecilia Avezzano

BOLIVIA

3. Javier García Soruco

BRASIL / BRAZIL

4. Ana Paula Cunha Machado Cavalcante
5. Astor de Lima Aversa Neto

CHILE

6. César MacNamara Manriquez
7. Paula Glenia Marinkovic Casas
8. Martín Mackenna
9. Juan Carlos Casanova

COLOMBIA

10. Juan Carlos Salazar
11. Sergio Paris
12. Lina Marcela Morales Botero

ECUADOR

13. Anyelo Acosta Arroyo
14. Gonzalo Altamirano
15. Edgar Gallo

GUYANA

16. Saheed Sulaman

PANAMA

17. Gustavo De León
