

WGs Exercise on SPI, HIRM and ORP

By 1400hrs today, each WG to produce:

- a) One high consequence SPI chart (and datasheet) with Alert and Target settings. (Can be a global, SSP or SMS SPI)
- b) One completed HIRM worksheet based on one identified hazard. Examples of hazards:
 1. Flocks of geese - around aerodrome path
 2. Volcanic ash - in FIR
 3. Rats - in a fly-by-wire aircraft (hint: rats love to bite wires)
- c) One completed ORP assessment check-sheet for a ATS, AGA, AMO, MET or CNS service provider. (Customize the AOC-ORP checklist first)
