**Agenda Item 3: NOTAM contingency plan**

- 3.1 Review of the status of implementation of the letter of agreement for the use of a NOTAM Contingency Plan

**Update of the NOTAM Contingency Plan**

(Presented by the Secretariat)

Summary	
<p>This working paper presents information on the status of implementation of NOTAM contingency plans in the SAM Region and the corresponding catalogue, so that the States may update such information and, if deemed appropriate, sign letters of agreement with the Administrations that have so approved.</p>	
<b>References:</b> <ul style="list-style-type: none"><li>• ICAO Annex 15</li><li>• GREPECAS/12 Conclusion 12/99, Agreement on NOTAM contingency plans</li><li>• SAM/AIM/2 Multilateral Meeting, Lima, Peru, 26-30 September 2011.</li></ul>	
ICAO Strategic objectives	<i>A. Safety</i> <i>C. Environmental Protection and Sustainable Development of Air Transport</i>

**1 Background**

1.1 The GREPECAS/12 meeting adopted Conclusion 12/99 – Agreement on NOTAM contingency plans, requesting States to develop their NOTAM contingency plans for flight information regions (FIRs), and, to the extent possible, enter into bilateral and/or multilateral arrangements with those States/Territories and International Organisations responsible for neighbouring airspaces. In this manner, they are expected to be part of a regional NOTAM contingency plan, to be applied whenever necessary.

1.2 At the SAM/AIM/2 multilateral meeting was presented a model of a regional catalogue of SAM NOTAM contingency plans, updated to September 2011, as shown in **Appendix A** to this working paper.

## 2 **Discussion**

2.1 PBN and autonomous navigation system implementation requirements introduced the need for new AIS requirements to ensure the quality and timely distribution of information in order to reduce or eliminate the impact that labour conflicts and natural disasters might have on the continuous provision of the NOTAM service, establishing the technical and administrative measures and coordination and operational procedures required before, during and after any contingency phase.

2.2 Some SAM States already have their respective NOTAM contingency plan, while others are in the process of preparing it, as may be seen from the information contained in **Appendix B** to this working paper, which shows the status of implementation to September 2011.

2.3 The NOTAM contingency plan is subject to periodic reviews and any modifications that are warranted will be made following coordination between the parties. It has been agreed that any modifications made will be effective after 30 days of the date of their approval.

2.4 It is understood that this Meeting could be a good opportunity for making any modifications to the information on points of contact for the exchange of information, updating the status of implementation of NOTAM contingency plans, and signing letters of agreement with the States that have so approved.

## 3. **Suggested action**

3.1 Based on the foregoing, the Meeting is invited to:

- a) update the information contained in **Appendices A** and **B** to this working paper as needed, and
- b) sign letters of agreement on NOTAM contingencies with the States that have so approved.
