

Agenda Item 7: Implementation of the new flight plan format

FOLLOW-UP TO THE IMPLEMENTATION OF THE NEW FLIGHT PLAN FORMAT

(Presented by the Secretariat)

SUMMARY	
This working paper presents the Meeting with information on aspects related with the implementation of the new flight plan format, the current situation and the possible post-implementation activities required to be under-carried.	
REFERENCES:	
<ul style="list-style-type: none">• Report of the tenth workshop/meeting of the SAM Implementation Group (SAM/IG/10) (Lima, Peru, 1-5 October 2012); and• Summary of web-based teleconferences (8 October, 9 November and 16 November 2012).	
ICAO strategic objectives:	A – Safety C – Environmental protection and sustainable development of air transport

1. Background

1.1 Amendment 1 to the *Procedures for air navigation services – Air traffic services (PANS-ATM)*, 15th Edition, ICAO Doc 4444, became valid on 15 November 2012. After more than four years of preparation, which started on 25 June 2008 as the aeronautical community became aware of the Amendment through ICAO Secretary General's State letter AN13/2.1-08/50, the implementation ended successfully.

1.2 The implementation of the Amendment was the result of a joint effort between States and ICAO, and the support of RLA/06/901 project. In this regard, guidance documents were drafted, such as the *Strategy for the implementation of Amendment 1 to the 15th Edition of the ICAO PANS-ATM (Doc 4444) in the CAR/SAM Regions*, a model action plan for the implementation of the Amendment, on the basis of four aspects (legislation, automation, safety assessment and training), a form to evaluate the impact of the new format implementation on the automated systems, a *Guide for implementation of flight plan information to support Amendment 1 of the PANS-ATM, Fifteenth Edition (Doc 4444)* and the *Safety assessment for the implementation of Amendment 1 to the PANS/ATM (Doc 4444) related to the new flight plan format*. This documentation is found in the ICAO South American Regional Office website www.lima.icao.int.

1.3 In addition, since 2008 to the date of the implementation of the Amendment, three seminars have been conducted, eight meetings of the New Flight Plan Format Group of Experts have met during meetings of the SAM Implementation Group (SAM/IG), and monthly GoTo Meeting teleconferences have been held between November 2011 and November 2012.

1.4 States assigned focal points to this end, which were fundamental for the successful implementation of the new flight plan format. Thanks to them we could count with information on the progress made in the implementation of the new flight plan format (FPL), as well as on the difficulties encountered and successes obtained. This information was of great support to States, facilitating implementation.

1.5 Through FITS, the website created by ICAO to follow-up on the implementation of the new flight plan format, ICAO informed the names of the global focal points, to monitor the implementation of the new format, as well as inform on the global status of implementation.

2. Analysis

2.1 Of the total ACCs in the SAM Region, 30% made changes in their flight plan processing systems, 23% introduced converters, and the remaining took upon the manual solution for the implementation of the new format. 92% counts with the template to detect errors in the filling of flight plans from the AMHS/AFTN terminals. The information in **Appendix A** to this working presents information updated up to February 2013.

2.2 It is expected that during the Meeting States inform on the current status of the FDP, AFTN/AMHS terminals with new format templates, as well as on the use of the new to the old flight plan format converters.

2.3 Even though the implementation of the new format was a success, some problems in the flight plan format presented themselves during the first days of the Amendment's validity period, which were then corrected. Some of the errors were continuing to use the old flight plan format, mixed flight plans with old and new information, flight plans with the letter R in Item 10, without the PBN indicative in Item 18, invalid elements in Item 18, and invalid DOFs. **Appendix B** to this working paper shows a sample of errors detected.

2.4 Most of the States that have updated their automated systems have concentrated upon accepting the new format with the aim that it is not rejected by the system and that it can be sent without problems to another adjacent centre. The implementation of the new flight plan format is the first step to the changes to be made to the automated systems.

2.5 The next step for States to take is the updating of their automated systems, with the aim that they can process and present the new information in the flight plan format, such as PBN capability on board an aircraft, the availability of new surveillance systems, as well as any other relevant information that the automated systems should present on the basis of operational requirements.

2.6 The Meeting could establish automation requirements in the Region, on the basis of the regional implementation plans, such as PBN implementation, as well as the new ADS b surveillance systems and CPDLC data link applications.

3. **Action suggested**

3.1 The Meeting is invited to:

- a) Note the information presented;
- b) Examine the status of implementation of the automated systems accepting the new flight plan format in **Appendix A**, for their updating;
- c) On the basis of new operational requirements, such as PBN implementation, the new surveillance systems and the ground-air data links, analyze short and medium term requirements of the changes to be made to the automated systems, and establish an action plan in this regard; and
- d) Analyze any other considerations in this respect that the Meeting might deem necessary.

APPENDIX A / APENDICE A

**STATUS OF IMPLEMENTATION OF THE NEW FLIGHT PLAN FORMAT IN THE SAM
REGION (FEBRUARY 2013) /
ESTADO DE IMPLANTACION EN LA REGION SAM DEL NUEVO FORMATO DE PLAN DE
VUELO (FEBRERO DE 2013)**

STATE/ ESTADO	ACC	AFTN/AMHS	FDP
Argentina	Comodoro Rivadavia	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
	Cordoba	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated / Automatizado
	Ezeiza	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated / Automatizado
	Mendoza	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
	Resistencia	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
Bolivia	La Paz	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
Brazil / Brasil	Amazonico	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)
	Atlántico	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)
	Brasilia	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)
	Curitiba	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)

STATE/ ESTADO	ACC	AFTN/AMHS	FDP
	Recife	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)
Chile	Antofagasta	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
	Punta Arena	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
	Puerto Montt	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
	Santiago	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
Colombia	Barranquilla	Not implemented (AMHS terminal) No implantado (terminal AMHS)	Manual
	Bogotá	Not implemented (AMHS terminal) No implantado (terminal AMHS)	Manual
Ecuador	Guayaquil	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual
French Guiana (France) Guyana Francesa (Francia)	Rochambeau	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated / Automatizado
Guyana	Timehri	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated / Automatizado
Panama	Panama	Not implemented / No implantado	Manual
Paraguay	Asunción	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Manual

STATE/ ESTADO	ACC	AFTN/AMHS	FDP
Peru	Lima	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated (only in the new ACC expected to become operational at the end of March 2013) / Automatizado (solo en el nuevo ACC a entrar en operación a finales de marzo 2013)
Surinam	Paramaribo	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated (out of service, working manually) / Automatizado (fuera de servicio, trabajando manualmente)
Uruguay	Montevideo	Not implemented / No implantado	Automated / Automatizado
Venezuela	Maiquetia	Implemented (AMHS terminal) / Implantado (terminal AMHS)	Automated /Automatizado (use of converter) / (uso de convertidor)
