

ICAO WACAF Workshop

1st – 4th September 2015

**Quality Assurance
DOC 9906 Vol 1**

**Steps 11, 12, 13:
Publication**

Steps 11, 12 & 13

ICAO AFPP

Create draft publication

Verify Draft Publication

Publish IFP

Conclusion

Publication

Create Draft Publication

ICAO AFPP

- Charting must comply with Annex 4. Additional requirements valid for the State in which the procedure is to be implemented should also be considered
- Initial chart may come from third party and will be published to State requirement standards.

Verify Draft Publication

ICAO AFPP

- Cross-check the promulgated publication for completeness and consistency. (It is recognized that this may be considered an AIS responsibility also.)

Publish IFP

ICAO AFPP

- The publication of the IFP and supporting data is normally a State responsibility. In some situations, it is possible that the publication may be delegated to another entity. The structure in which the State data are published can differ from one State to another.

Conclusion

Quality Assurance Introduction
