Quality Assurance DOC 9906 Vol 1

Steps 11, 12, 13 Publication

ICAO AFPP Workshop
3rd – 6th November 2015
Nairobi

Steps 11, 12 & 13

ICAO AFPP

Create draft publication

Verify Draft Publication

Publish IFP

Conclusion

Publication

Create Draft Publication (Step 11)

ICAO AFPP

Charting must comply with Annex 4. Additional requirements valid for the State in which the procedure is to be implemented should also be considered

Initial chart may come from 3rd party and will be published to State requirement standards

Verify Draft Publication (Step 12)

ICAO AFPP

- Cross-check the promulgated publication for completeness and consistency (It is recognized that this may be considered an AIS responsibility also.)

Responsible:

- AIS
- ANSP (Designers)

Publish IFP (Step 13)

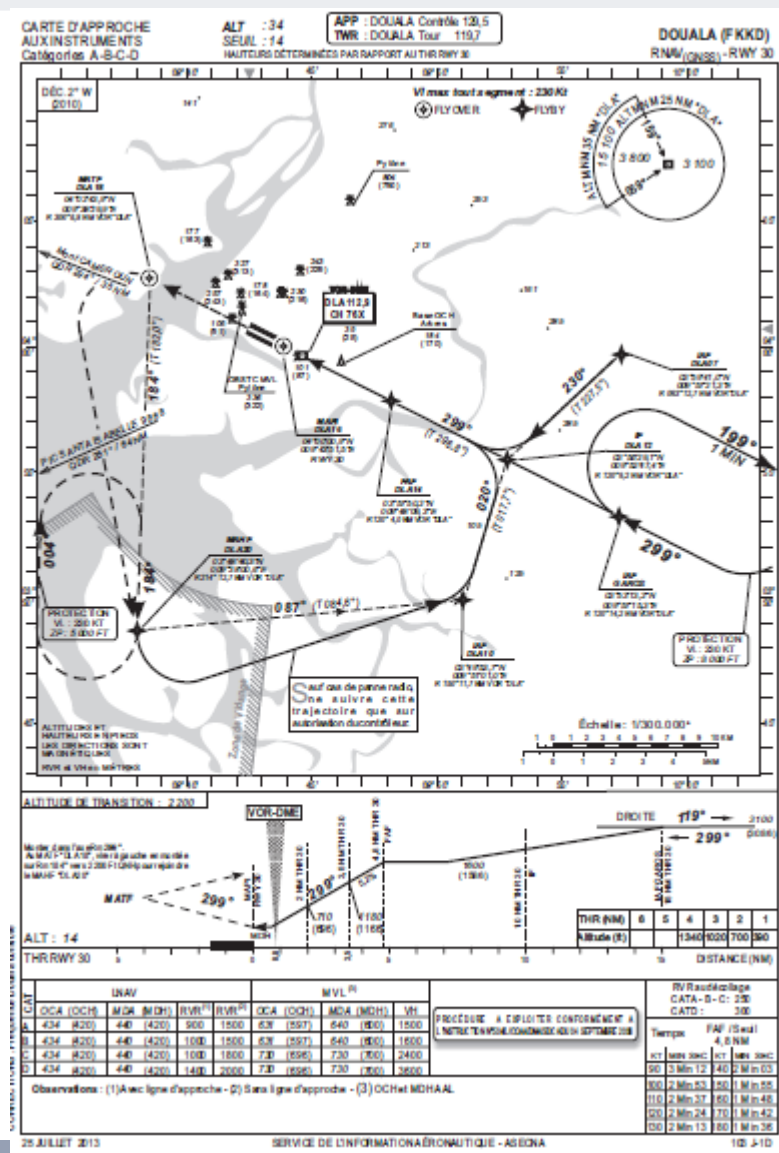

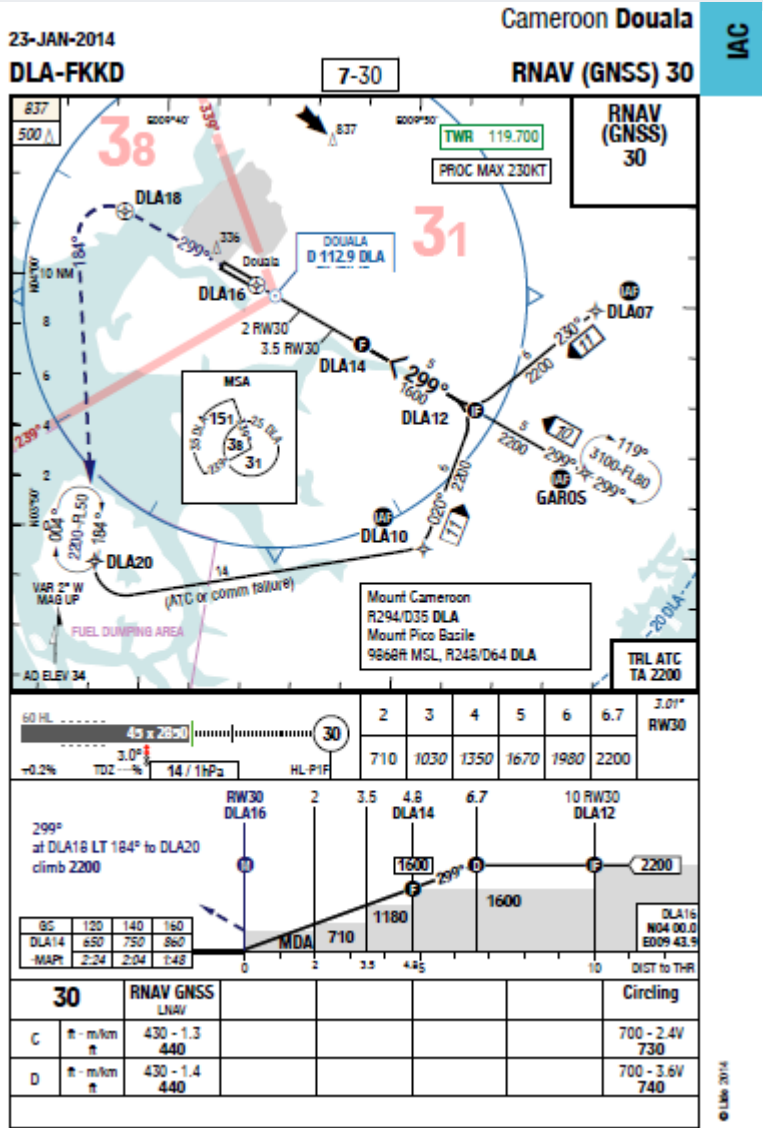

ICAO AFPP

- The publication of the IFP and supporting data is normally a State responsibility. In some situations, it is possible that the publication may be delegated to another entity.
- The structure in which the State data are published can differ from one State to another.

State responsibility of Procedure publication

Example of Charts difference

Changes: APL

Conclusion
