

INTERNATIONAL CIVIL AVIATION ORGANIZATION
WESTERN AND CENTRAL AFRICA OFFICE

Seventh Meeting of the Central Atlantic FIR Satellite Network (CAFSAT) Management Committee
(CNMC/7)
(Paris, France, 05-06 June 2017)

Agenda Item 6: Implementation of Special AFIRAN meeting recommendations 6/19

Planning, implementation and operation of very small aperture terminal (VSAT) networks in the AFI Region
(Presented by the secretariat)

SUMMARY

The purpose of this paper is to analyze the status of implementation of AFI/RAN

Conclusion 6/19: Planning, implementation and operation of very small aperture terminal (VSAT) networks in the AFI Region that calls for regular meetings of all AFI networks managers

Reference:

Report of SP AFI RAN Meeting

Conclusions of the First Joint Meeting of the AFI Aeronautical VSAT Networks Managers (AFI/VSAT/1))

Summary of conclusions of the Review Meeting of the Task Force on the Development of a Regional Project on an AFI Integrated Aeronautical Telecommunication Infrastructure (AFI VSAT/TF/RM)

Draft Conclusions/Decisions of the Task Force

Related ICAO Strategic Objectives: A: Safety; B: Air Navigation Capacity and Efficiency

Related ASBU Bloc 0 Modules, Performance Improvement Aerials and Applications:

B0-FRTO/PIA3-PBN En Route Trajectories;

B0-FICE/PIA2-AIDC,

B0-DATM/PIA2-AIM,

B0-TBO/PIA4-Datalink

B0-AMET/PIA2-MET

Action by the meeting in paragraph 3

1. Introduction

The AFI RAN meeting held in Durban, South Africa from 24 to 29 November 2008 formulated **Conclusion 6/19: Planning, implementation and operation of very small aperture terminal (VSAT) networks in the AFI Region** that calls for regular meetings of all AFI networks managers and reads as follows:

Conclusion 6/19: Planning, implementation and operation of very small aperture terminal (VSAT) networks in the AFI Region:

That

All entities involved with planning, implementation and operation of very small aperture Terminal (VSAT) networks in the AFI Region hold regular joint meetings under the auspices of ICAO regional offices for the purpose of harmonization and eventual realization of a seamless AFI communication network supporting all present and future communications, navigation, and Surveillance (CNS) Systems

Since Durban meeting, many actions have been undertaken by States/Organizations with ICAO regional Offices WACAF & ESAF support to implement this conclusion.

2. Discussion

2.1 The sixth CNMC meeting held in Lisbon, Portugal from 06 to 07 June 2016 reported on the activities undertaken by the AFI aviation community aiming to build an Integrated Aeronautical Telecommunication Infrastructure as, called upon by APIRG.

2.5 Since then, future actions have been undertaken by the VSAT network management committees to hold regular coordination meetings. The AFISNET management SNMC, the NAFISAT and SADC/2 supervisory bodies held their annual regular meetings which gave opportunity to address issues pertaining to the ground/ground and air/ground components of ATN and to continue the work on the definition of the conditions for the development of a robust sustainable telecommunication infrastructure based on the modernization of the existing VSAT Networks (AFISNET, CAFSAT, SADC/2, NAFISAT). The issues related to the performance of the networks (availability, speed of the ground segment to support ATN application such as AMHS and AIDC, surveillance data exchange) were considered by the meetings.

2.6 The projects related to aeronautical satellite communication to be implemented for ground/ground and air/ground services have been identified and will be presented to the APIRG IIM/SG scheduled to be held in Nairobi Kenya from 27 to 30 June 2017 and the outcome to be endorsed by the APIRG/21 meeting to be held in the last quarter of year 20A7.

2.7 The projects take into account the outcome of the various coordination meetings on VSAT Networks (AFISNET, SADC/2, NAFISAT, CAFSAT...) and will align regional requirements pertaining to VSAT the with ICAO SARPs to be implemented in the framework of the ICAO Aviation System Block Upgrades (GANP Doc-9750).

3. Actions by the meeting

The meeting is invited to:

- a) Take note of the above information
- b) Encourage CAFSAT concerned States/Organizations to:
 - ✓ Implement CNMC outstanding Conclusion/Decisions derived from the outcome of the previous coordinating meetings addressing VSAT issues.
 - ✓ Pursue their effort to actively participate in the future regional coordination activities on VSATs networks
