

MEETING OF THE METEOROLOGY PANEL (METP) WORKING GROUP MOG (WAFS)

SEVENTH MEETING

Offenbach, Germany, 11 to 13 April 2018

Provisional Agenda

(Presented by the Rapporteur)

- 1. Opening of the Meeting
- 2. Introduction
 - 2.1. Adoption of the Agenda
 - 2.2. Working Arrangements
- 3. Matters relating to WAFS (11 to 13 April)
- 3.1. Status of outstanding WG-MOG (WAFS) Actions See Appendix A
 - 3.2. Other operational matters
 - 3.2.1. Issues arising from METP/2 meeting
 - 3.2.2.Interaction with other METP groups
 - 3.2.3. Review of MOG Terms of Reference in relation to WAFS
 - 3.3. Work required in support of WAFS Developments
 - 3.3.1. Matters relating to gridded WAFS products
 - 3.3.2. Matters relating to Significant Weather provision
 - 3.3.3. Matters relating to Delivery mechanism of WAFS
 - 3.4. Review of Job Cards related to WAFS
 - 3.5. Science capabilities
 - 3.5.1. Modelling developments and new capabilities.

MOG/7-IP/01 - 2 -

- 4. SIGMET related documentation
- 5. Timetable and future meetings of WG-MOG (WAFS)
- 6. AoB relating to WG-MOG (WAFS)
- 7. Meeting Close

- 3 - MOG/4-IP/01

Appendix A

WAFS Actions and Decisions from WG-MOG/4

Item	Status
Action 4/1: WAFCs to prepare a paper on how backup	To be presented at MOG/7
arrangements may change in the SWIM environment for the	To be presented at WOO//
next meeting.	
Action 4/2: Proposed revision of paragraph 1.2.1 and	Proposal to be presented at MOG/7
1.3.1.1. of Appendix 2 of ICAO Annex 3 – Meteorological	and then to METP/3
Service for International Air Navigation in relation to	and then to WE11/5
availability of WAFS Forecasts	
That the WAFC providers be invited to submit a Working	
Paper to the Meteorology Panel proposing;	
a) Revision to paragraph 1.2.1 of Appendix 2 of ICAO	
Annex 3 in relation to the availability of WAFS Upper Air	
grid point forecasts as proposed in Appendix B of the	
MOG 4 (WAFS) report.	
b) Revision to paragraph 1.3.1.1. of Appendix 2 of ICAO	
Annex 3 in relation to the availability of WAFS SIGWX	
forecasts as proposed in Appendix B of the MOG 4	
(WAFS) report.	
Action 4/3: WAFC Washington to give an update upon	To be presented at MOG/7
	10 0 0 p100011100 a 0 1120 0//
Lithriner investigation on BUFK avallability statistics at next	
further investigation on BUFR availability statistics at next MOG.	
MOG.	
MOG.	Ongoing, to be included in next
MOG. Action 4/4: WAFCs to include ROC curves for previous	Ongoing, to be included in next WAFC Management Report.
MOG.	
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report.	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated	WAFC Management Report.
MOG. Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts.	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system.	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential inclusion in Amendment 79 (November 2020) for	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential	WAFC Management Report.
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential inclusion in Amendment 79 (November 2020) for consideration at METP/3.	WAFC Management Report. To be presented at MOG/7
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential inclusion in Amendment 79 (November 2020) for consideration at METP/3. Action 4/6: Invite MOG/6 attendees to present on High	WAFC Management Report. To be presented at MOG/7 Presentation at MOG/7 to be
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential inclusion in Amendment 79 (November 2020) for consideration at METP/3.	WAFC Management Report. To be presented at MOG/7 Presentation at MOG/7 to be provided by Dr Piers Buchanan of
Action 4/4: WAFCs to include ROC curves for previous years in the management report. Action 4/5: WAFCs be invited to further develop the proposal for automated generation of Significant Weather Forecasts and be invited to provide an update at the next meeting of WG-MOG a) A prototype demonstrating the capability of automated digital SIGWX forecasts. b) An implementation plan for the provision of an operational automated digital SIGWX forecast system. c) In co-ordination with WMO, initiate consideration of the inclusion of WAFC SIGWX objects into the IWXXM schema. d) Draft a proposed amendment to ICAO Annex 3 to include all relevant changes to the SIGWX Forecasts for potential inclusion in Amendment 79 (November 2020) for consideration at METP/3. Action 4/6: Invite MOG/6 attendees to present on High	WAFC Management Report. To be presented at MOG/7 Presentation at MOG/7 to be

MOG/7-IP/01

ACTION 4/7: WAFCs prepare a paper outlining the discussions held at MOG/4 on the Medium Term Strategy detailing changes to WAFS grid resolution, hazard grids, and grid dissemination. Prepare draft amendment to Annex 3 for consideration by METP/3.	To be presented at MOG/7
Action 4/8: Review of the Eddy Dissipation Rate (EDR) Values in Annex 3. An ad hoc group will be set up to review the EDR values in Annex 3, and produce a paper that can be presented to METP/3. Additionally, consider how this matter can be brought to the attention of Flight Ops Panel	Ongoing, To be presented at MOG/7
Action 4/9: Maintain and update the Regional SIGMET Guide Template in preparation for Amendment 78 to ICAO Annex 3. That an ad hoc group be formed to maintain and update the Regional SIGMET Guide Template in preparation for Amendment 78 to ICAO Annex 3	To be presented at MOG/7
Action 4/10: Investigate SIGMET matters identified by the METP/2. That an ad hoc group [SADIS Manager, Hans-Rudi, Kristin, Mario, Stéphanie, Greg, Gaborekwe] be formed to a) investigate the matters identified by the METP at its second meeting b) propose appropriate updates to Amendment 79 to ICAO Annex 3 and the Regional SIGMET Guide Template for consideration at METP/3.	To be presented at MOG/7
