

The Carbon Offsetting and Reduction Scheme for International Aviation (CORSA) is the first global market-based scheme that applies to a sector, and complements other aviation in-sector emissions reductions efforts such as technological innovations, operational improvements and sustainable fuels to meet ICAO aspirational goal of carbon neutral growth.

Under CORSA, all States that have aeroplane operators that perform international flights are required to monitor, report and verify (MRV) CO₂ emissions from these flights every year from 2019. In addition to annual CO₂ MRV, 88 States have volunteered to participate in offsetting CO₂ emissions under CORSA from its pilot phase starting in 2021.

CORSA in Numbers (As of 1 November 2020)

CCR: CORSA Central Registry

Note: All charts show cumulative totals

CORSA Eligible Fuels

Two **Sustainability Certification Schemes (SCSs)** applied to perform the sustainability certification of CORSA eligible fuels. Their technical evaluation was finalized, and will be considered by the Council for approval. More details on this evaluation process are provided [here](#).

CORSA Eligible Emissions Units

The **Technical Advisory Body (TAB)** finalized the assessment of 10 applicants under its second assessment cycle, for consideration by the Council on CORSA eligible emissions units. More details on the TAB work programme until the end of 2020 are provided [here](#).

CORSA Capacity Building

ACT-CORSA: The **Assistance, Capacity Building and Training** programme on CORSA, established in June 2018, encompasses the CORSA Buddy Partnerships, and all ICAO outreach initiatives including sample model regulations for CORSA, frequently asked questions (FAQs), brochures, leaflets, videos as well as CORSA seminars/webinars and online tutorials.

ACT-CORSA Buddy Partnerships: The core of capacity building relies on individual training of CORSA Focal Points and involves experts from a total of 131 States. In October 2020, the United Republic of Tanzania was supported bringing the total number of supported States under Phase III to 55. More information can be found [here](#).

ICAO Aviation Green Recovery (AGR) Seminar - Virtual, 23 and 24 November 2020

The ICAO Aviation Green Recovery (AGR) Seminar will take place as an online event on 23–24 November 2020. More information can be found [here](#).

"Navigating CORSA – A guide to the scheme's design and implementation": Prior to the AGR Seminar, the Secretariat will share information on CORSA to help the Seminar's participants understand better the CORSA's design and implementation status. This will consist of a series of pre-recorded presentations that will be published on the ICAO web site.
