

PROPOSED PROJECTS OF THE AFI ANS SUMMIT

The following list of projects may be considered to address the gaps identified in ATM and to achieve the objectives set.

ATM Project #	Project title	ASBU elements delivered	Project objectives	Project duration	Project deliverables	Project estimated unit cost	Assigned Project Team
Project 1	Airspace optimization and modernization						
Project 2	Reduced and harmonised of longitudinal separations in remote and oceanic airspace						
Project 3	FUA implementation						
Project 4	Cross-border ATFM implementation						
Project 5	Cross-border FRA implementation						
Project 6	Air Traffic Services upgrade and harmonization						

Project 7	ATC training harmonization and upgrade						
Project 8	ATM Oversight enhancement						

The following list of projects may be considered to address the gaps identified in CNS and to achieve the objectives set.

CNS Project #	Project title	ASBU elements delivered	Project objectives	Project duration	Project deliverables	Project estimated unit cost	Assigned Project Team
Project 1	GNSS monitoring and integrity systems at national and regional levels	NAVS-B0/1 B0/1 B0/4 B1/1 B1/2	To ensure the reliability, accuracy, and safety of satellite-based navigation services-	XX Month(s)	Requirements & Planning Documents, System Design & Technical Specification, Implementation Deliverables, Testing & Validation, Operational Tool & Training, and Final Project Documentations.	USD XXX	Consultant
Project 2							
Project 3							
Project 4							

The following projects are proposed to be implemented to improve flight procedure design, maintenance and approval in the AFI region.

PANS-OPS Project #	Project title	ASBU elements delivered	Project objectives	Project duration	Project deliverables	Project estimated unit cost	Assigned Project Team
Project 1	Departure and arrival trajectories optimization at international airports						
Project 2	Safety enhancement of Instrument Flight Procedure						
Project 3	Capacity building in IFP design and approval						
Project 4							

The following list of projects may be considered to address the gaps identified in SAR and to achieve the objectives set.

SAR Project #	Project title	ASBU elements delivered	Project objectives	Project duration	Project deliverables	Project estimated unit cost	Assigned Project Team
Project 1	Multistate SAR agreement						
Project 2	RCC/RSC efficiency enhancement						
Project 3	National SAR oversight enhancement						
Project 4	Establishment of JRCC/JRSC
