1. INTRODUCTION

1.1 The AASPG Procedural Handbook (Part IV) establishes the procedural framework governing the organization and conduct of meetings of AASPG contributory bodies, including Sub-Groups and associated Project Teams.

1.2 In accordance with these provisions, meetings of the Airspace and Aerodrome Operations Sub-Group (AAO/SG) are required to be conducted on the basis of a formally agreed agenda and structured work programme, ensuring orderly deliberations, effective time management, and alignment with the strategic objectives of the AASPG.

2. DISCUSSION

2.1 The provisional agenda for AAO/SG9 has been developed by the Secretariat, taking into account: the outcomes and conclusions of previous AASPG and Sub-Group meetings; regional air navigation priorities and implementation requirements; and relevant ICAO strategic objectives and

performance frameworks applicable to the AFI Region.

2.2 The work programme has been structured to facilitate the efficient consideration of all agenda items, with due regard to: the complexity and priority of technical subjects; the need for inclusive and balanced participation by Member States and stakeholders; and the requirement to achieve actionable outcomes and decisions within the allocated meeting timeframe.

2.3 The adoption of the agenda and work programme constitutes a procedural prerequisite for the formal commencement of the meeting's substantive deliberations and ensures that discussions are conducted in a systematic, transparent, and results-oriented manner.

2.4 The Meeting may wish to review the proposed agenda and work programme attached to this WP as **Appendix A and Appendix B** and introduce any necessary modifications or adjustments, consistent with the objectives and priorities of the Sub-Group, prior to their formal adoption.
