

危险物品专家组(DGP)

第二十六次会议

2017年10月16日至27日，蒙特利尔

议程项目 2：拟定对《危险物品安全航空运输技术细则》(Doc 9284 号文件)的修订建议，
以便纳入 2019 年—2020 年版

对UN 1308的补充包装要求

(由D. Brennan提交)

摘要

本工作文件提出使包装说明 361 和 364 中对 UN 1308 的补充限制与《联合国规章范本》中 P001 所述的规定相一致。

危险物品专家组的行动：请危险物品专家组按照本工作文件附录所示，
审议修订包装说明 361 和 364 的规定。

1. INTRODUCTION

1.1 At the 51st session of the UN Subcommittee that was held in early July a working paper submitted by the expert from Germany drew attention to the wording of special packing provision PP33 in Packing Instruction P001 of the UN Model Regulations.

1.2 The working paper proposed some clarification to the wording of PP33 which was not adopted by the Subcommittee. However, what was confirmed in the meeting is that PP33 limits the packing of UN 1308 — **Zirconium suspended in a flammable liquid** in Packing Groups I and II to combination packagings only with a maximum gross mass of 75 kg.

1.3 The Technical Instructions however permit single packagings for UN 1308 in both Packing Group I and Packing Group II in Packing Instructions 361 and 364 respectively. This is less restrictive than permitted by the UN Model Regulations and therefore inconsistent with multi-modal harmonization. The 75 kg gross mass restriction should not be an issue as Packing Instruction 361 limits the net quantity to 30 L and Packing Instruction 364 to 60 L.

*仅提供了摘要和附录的翻译。

1.4 Based on the restriction set out in PP33 in P001 in the UN Model Regulations it is proposed to introduce wording into the two packing instructions to restrict UN 1308 to combination packagings only.

2. **ACTION BY THE DGP**

2.1 The DGP is invited to consider the revisions to Packing Instruction 361 and Packing Instruction 364 as shown in the appendix to this working paper.
